By Cable to the Morning Star.

LONDON, October 18.-A supplementary army estimate has been issued, asking the House of Commons to vote an additional 35,000 men and £10,000,000 sterling in consequence of the situation in South Africa. It i expected that the 35,000 men represent the probable maximum excess beyond the establishments fixed for the year 1899 1900, and is in consequence of the calling out of the reserves and of the temporary transfer of troops from the Indian to the British establishment. With the additional £10,000,000 the total army estimates are £30,617,200.
