The Day Devoted in the Senate to Eulogies on the Late Vice President.

A RESOLUTION OF INQUIRY.

As to the Seizure of American Flour by British Ships in Delagoa Bay-Senator Butler Introduces a Resolution on Trusts.

By Telegraph to the Morning Star. WASHINGTON, January 10.-Beauti ful and impressive tributes were paid by the Senate to day to the memory of the late Vice President Hobart. His intimate personal relations with many Senators and his close official affiliation with all of them rendered his death a distinct loss to every member of the body, as well as to the country. It was in commemoration of his illus-trious career and of his distinguished public service and of his private char-acter that the Senate set apart the session to day for the pronouncement of eulogies upon him. Personal friends and associates and party friends and party opponents joined in paying such sincere and eloquent tribute to the memory of Mr. Hobart, to his character and public services as have been seldom paid to any public man. Ad-dresses were delivered by Senators Sewell and Keane of New Jersey, Daniel of Virginia, Depew of New York, Cockrell of Missouri, Cullom of Illinois, Davis of Minnesota, Morgan of Alabama, Chandler of New Hamp shire, Lodge of Massachusetts, Caffery of Louisiana, and Allen of Nebraska.

Hale Introduces Resolution.

Early in the session Senator Hale, Maine, introduced a resolution of in quiry addressed to the Department of State as to the seizure of American flour by the British authorities, which aroused more than usual interest because of its attitude toward Great Britain. To the statement that the property was unjustly detained Sena-tor Platt of Connecticut took excep-tion, believing it ought to be modified. Senator Hale said the resolution pre sented a matter of vital importance and believed Great Britain ought to be informed of the sentiment in this country. On objection by Senator Lodge, the

resolution went over. Senator Hale's resolution follows:

Whereas, property of citizens of the United States, not contraband of war, has been lately seized by the mili tary authorities of Great Britain and near Delagoa bay, South Africa, with-

ing the interlude of apparent military inactivity and official secrecy, Lord Roberts and Lord Kitchener have arrived at the seat of war. It is assumed here that their clearer vision, sup ported by thirty-five thousand fresh men who are due to arrive in South Africa within thirty days, will alter the situation and that the fourth month of the campaign will witness the be-ginning of victories for the British Their presence will restore the arms. shaken confidence of the men at the front in their Generals.

Lord Roberts finds 120,000 men on the defensive or watching for an opening. Lord Methuen's health, according to the Daily Mail, has "broken down," and the field marshal may relieve him. Possibly some others will be relieved of important commands. There is certainly evidence of rank in South Africa. In addition to the field marshal there are two full generals, four lieutenant generals and twelve or fourteen major generals.

There is an easy suspicion that when the Ladysmith casualties are an-nounced they will be disheartening and will partially destroy the patriotic glow produced by General White's

The list of victims of disease issued by the War Office gives twenty-two deaths from enteric fever and dysen-. tery in Ladysmith in four days, re-lieving the fact that the besieged are existing amid bad sanitary conditions. The Standard summarized the genral situation thus:

"Well, the campaign has lasted three months. We have something like 120,000 troops in South Africa. With this huge army distributed over the country we are still powerless to relieve three garrisons from investment. We have still to see large portions of both colonies in the hands of he enemy.

"We have driven the invaders back at no single point. We are actually further from the hostile frontiers than we were on the day that the ultimatum was delivered. The work which ministers believed could be effectually performed with 25,000 men, has not been done, has not even been begun, by four or five times that number. Can an

Adjt. S. W. Groomes, 140 East Jones Street, Dayton, Ohio, Writes:

"I had great relief from Paine's Celery Compound last December. While living in Columbus I took a heavy cold that resulted in the grip. I suffered intense pain with my head for three months. No medicine seemed to do me any good until I began using Paine's Celery Compound. All the suffering in my head was soon gone, and I have Celery Compound alone to thank for my cure."

Reconnoissances have shown that 2,000 cuse was the suggestion that the Free armed insurgents have retired to the mountains from the district between Indanig and Maig, and that others livered. have retreated along the coast from Noveleta toward Batangas.

Last night Nolan's squadron of the Eleventh cavalry drove a body of insurgents from Maig. One American was killed and two were wounded. Thirteen dead Filipinos were found. The movement largely resembles General Schwan's experiences in the same country, except that the towns are now being garrisoned and that the insurgents refuse to fight, retreating southward and dividing into small bands with the apparent intention of re assembling later. The plan of catching a large number between two brigades has failed, About a hundred insurgents have been killed, but comparatively few arms have been taken.
