DR. PIERCE'S GOLDEN MEDICAL DISCOVERY

The body is built up from the food we eat. But before food can be assimilated by the body it must be prepared for assimi-lation by the stomach and other organs of digestion and other organs of digestion and nutrition. Food does not feed when the stomach is "out of order." The result is, weak muscles and flabby flesh. "Golden Medical Discovery" heals diseases of the stomach and digestive and nutritive system. It works with Nature to make manly muscle and form firm flesh. muscle and form firm flesh.

BOXER MOVEMENT STILL SPREADING.

Destruction of a Russian Chapel Provides Russia With Pretext to Land Troops.

THE SITUATION IS GRAVER.

Russia Will Act Alone If the Powers Hesitate-More Outrages-Villages Burned-Imperial Sympathy for the Boxers.

By Cable to the Morning Star. LONDON, June 9.- The situation in China t-onight appears distinctly graver. The destruction of a Russian

Chapel at Tung Tingan has provided

Russia with the desired pretext to land

more troops. The dispatch from St. Petersburg this afternoon that the government is resolved, if the dangerous situation in China continues, to take immediate military action to repress the anti-foreign movement, at the same time declaring that it has no intention of disassociating itself from the joint action of the powers, may be regarded as a semi-official utterance, meaning that if there is any hesitancy on the part of the powers Russia will act

All reports agree that the Boxer movement is spreading. The report is confirmed that the French agents at Mong Tse and Yun Nan Fu have been compelled to retire, and this shows that the ferment has reached Southwestern China and has provoked France into taking active steps.

Secret Sympathy With Boxers. Sir Claude MacDonald, British minister at Pekin, has wired the British consul at Shanghai confirming the reported outrages and the fact that the throne and government have been actuated by a secret sympathy with the Boxer movement, which the government has ample power to suppress if it so desired. His dispatch, however, is in no way of an alarmist na-

The edict is couched in such terms that it leaves no doubt of the deep sympathy of the throne with the Boxers, who are described as "good citizens." Besides denouncing "Gene ral Nieh for killing the Boxers, the edict orders him to return with his troops to Loopai, eighty miles from the scene of the disturbances.

It is claimed that the first step of the powers for the perservation of foreign life and property ought to be the assumption of control of the railroad to

Twenty Christians Killed. TIEN TSIN, June 9.—The viceroy of Yulu has memoralized the throne, earnestly requesting the government to allow the foreign powers to use the vailroad, pointing out that otherwise serious trouble is unavoidable. Gunboat Nashville Ordered from Cavite to laku-The Castine and York-

town Also Available. By Cable to the Morning Star. Washington, June 9.-Admiral

Remey informs the Navy Department that the gunboat Nashville, with a force of marines aboard, left Cavite yesterday for Taku. She is a light draft gunboat of the same type as the Helena and it is presumed that she is sent in place of the latter. The Monocacy, at Shanghai, has also been ordered to join Admiral Kempff

at Taku. It is understood at the Navy Department that the Nashville was dispatched to Taku by Admiral Remey in place of the Helena, which was originally selected for that purpose, but was probably unavailable, or absent from Manila. She should be at Taku about the latter part of next week.

In view of the length of time required by the Nashville to make the trip to Taku, it is fortunate that the Navy Department has other reinforcements at hand in the shape of vessels at Shanghai. This force is only about three days distant from Taku, and only about half the time would be required for the vessels at Shanghai to make the trip to Tien Tsin that would be consumed by the Nashville. The Navy Department has sent instructions to the commander of the Monocacy, at Shanghai, to report to Admiral Kempff at Taku, and that vessel is already on her way. Though an old ship, the Monocacy is admirably adapted to this kind of service, drawing only nine feet of water and carrying a very good secondary bat-Her personnel is twelve officers and 146 men. The Castine and Yorktown also are at Shanghai and can be drawn upon, according to Admiral Remey's dispatch, by Admiral Kempff if he wants more men. These yessels are of 1000 and 1700 tons displacement respectively. The Castine's personnel town's 14 officers and 181 men.

is 11 officers and 142 men, the York-Minister Conger's daily report was even less encouraging than usual. In his cablegram to Secretary Hay to-day he said that the situation was unimproved; that the burning of plants continues and owing to the inertness of the Chinese troops it will be necessary to employ foreign troops to pro-

tect the railways. If the State Department has not deemed it necessary to send any specific authorization to Mr. Conger to employ United States naval forces at Tien Tsin and Pekin in guarding the Chinese railways, he is free to exer cise his own discretion in that respect. The State Department officials felt that the action taken by the Navy Department in the dispatch of naval vestels to the scene of trouble and the landing of naval forces, represents all that can be done, or at least all that should be done, by the United States at this moment. The department remains unshaken in its attitude and while willing to work on lines with the other powers to restore peace in China, insists on retaining its independence of action.

COMPLICATIONS.

The Grave Situation of Affairs in China Monopolizes Attention of the World.

DOUBLE DUEL FOR SUPREMACY

Between Russia and England and Russia and Japan-Sympathy of France is With Russia-Attitude of the United States Watched.

[Copyrighted 1900 by the Associated Press] Paris, June 9.—The grave situation in China which has developed this week monopolizes the attention of the world and has thrown a shadow over questions of minor i nterest, even including the Transvaal.

Paris and its politicians admit the condition of affairs around Pekin, and apprehensions are expressed least it lead to international complications. The greatest element of danger in the situation is generally felt to be the double duel for supremacy proceeding between Russia and England and Kussia and Japan. The sympathies of Frenchmen are naturally with their ally, Russia. It is not thought that England is likely at the present moment, when her hands are fully occupied with South Africa, to take any steps to produce an Anglo Russian

collision The action of the United States is acknowledged to be most important in the situation, and advices from Washington are closely followed here. Her friendly relations with both Russia and England favor the impression that she will, if compelled by the force of events, reluctantly join Japan and

England. The following statement is furnished the Associated Press by a representative of the Foreign Office, expressing the views of the French gov-

"The situation is undoubtedly very serious and unless the Chinese government rouses itself to a thorough ap preciation of the dangers threatening its very existence at the present moment, it is difficult to foresee what will be the outcome. Our cables advices leave the condition of affairs still somewhat obscure, but it is evident that the Pekin government must act promptly and vigorously if it is to stamp out this rebellion. Despite the stories of defeat of the Chinese troops, we still think the army sufficiently strong to suppress the insurrection; but it must act at once. In the meantime we intend to cooperate with the other powers in taking such measures as are necessary to safeguard our countrymen and their properties. Our minister and admiral have been instructed to take this course. Our interests are identical with those of the United States, and there is every reason to believe that we shall act in unison during the present crisis. The aim of both is to act purely in defence of the lives and interests of our compatriots which are

now in such peril. 'We hope the fears expressed by the press of the various countries regarding the probability of international complications will not be realized. The one thing to be feared appears to be friction between Japan and Russia, but we think the Japanese government is too wise to put itself against the might of the Russian Empire. Japan is certainly very strong on the sea, but on land it is quite a different matter. We are hopeful that the trouble will blow over through resolute action on the part of the Chinese government.

The Paris Exposition.

The golden harvest of the Exposition has at last begun. Two days this week the number of visitors exceeded half a million, which surpassed the figues of the 1889 exposition at a simi-lar period. It is estimated that over 8,000,000 persons have now passed the turn stiles. The greatest difficulty now is experienced in getting from the fair at night, the street car and omnibus facilities being utterly inadequate to cope with the immense crowds. The American pavilion was closed four days this week for improvement of its internal decoration.

The juries have begun their tasks and the American representatives in each group are hard at work seeking honors for United States exhibits.

An Unknown Three-Masted Schooner Stranded on the Beach.

By Telegraph to the Merning Star. CAPE HENRY, VA., June 9.-Weath er Bureau Official Dosber at Hatteras reports an unknown three-masted schooner stranded early this morning on the beach near Cape Hatteras Life saving station, twelve miles north of Hatteras. Crews of the Cape Hatteras and Creed's Hill life saving station have gone to her

assistance. The wind is fresh from the westward and the sea is moderate. NORFOLK, VA., June 9. - At an early hour this morning the three-masted schooner Lucy Porter, Capt. Farrow laden with timber, from Brunswick. Ga., stranded twelve miles north of Cape Hatteras. In response to dis-tress signals the crews of Creed's Hill and Cape Hatteras life-saving stations went to the rescue and assisted the vessel to deep water. She was leaking some, but was otherwise uninjured and proceeded on her way north.
