TRADE WITH THE ORIENT.

The Louisville Courier-Journal has won distinction by its unqualified endorsement of the administration policy of expansion, which it vigorously advocates and justifies on the ground that there will be money in it. A recent issue contained the following editorial, which is intended as an argument in favor of expansion. It says:

THE INCREASE IS GREAT IN THE PHILIPPINES.

"The increase is greatest in the Philippines, Russian Asia and Hawaii. With respect to the first two of these, the increase is not only in the amount of our exports, but in the amount of our imports. The increase in the amount of our exports to the Philippines is \$10,214,138 this year. Annexation must have stimulated the trade with Hawaii, which we have always enjoyed the favor of those islands."

ROOSEVELT PERFORMS.

There are few men in this country who have succeeded in attracting more public attention than Theodore Roosevelt of New York, and while it may be true that he has in him some qualities that attract attention, he has achieved his present eminence more by successful activity than by any transcendent merit. He understands the art of advertising and has never failed to advertise himself and has never done anything to which any credit might attach that he didn't manage in some way to have it heralded from one end of the country to the other.

RAILROAD TAX CASES.

Hearing Before Standing Master Shepherd to be resumed Saturday.
[Special Star Telegram.]
RALEIGH, N. C., June 20.—The hearing of evidence in the railroad tax case before Standing Master Shepherd at Wilmington will not be resumed on Friday, as appointed, but on Saturday 23d. This postponement is due to the fact that the telegraph tax cases now being heard in New York could not be finished in time for Judge Shepherd to reach Wilmington on Friday. A telegram to this effect was received from Judge Shepherd today.

Duplin On Fire.

Politically, Duplin is "red hot," as the STAR is informed by two well posted citizens of that county. The white men are even more defiant and determined than they were in 1898. They say it is a good thing for that despicable "nigger," Abe Middleton, that he left Duplin and went to Greensboro to help Holton run the campaign. New Hanover ought to drop right into the procession with Duplin. "To your tents, O Israel."

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. It cures Catarrh of the bladder, prostate gland, and the rectum, and restores the system to its normal condition. It is a safe and reliable remedy, and its use is recommended by the highest medical authorities. It is sold by Druggists, or sent by mail to J. C. HENNEY & CO., Toledo, O., Sold by Druggists, 70c. Hall's Family Pills are the best.

markets which has been influenced in the slightest by our connection with the Philippines. The evident assumption in the editorial of the Courier-Journal is that the increase is due in a great measure to that. This is undoubtedly what is intended to be conveyed by the last paragraph, which aside from being a sheer assumption, is not true as a matter of fact. The Philippines did not "annex themselves to us." If they had we would not now, after two years of occupation, have 65,000 men there trying to annex them. They have not only not annexed themselves, but they have never said or intimated that they wanted annexation, but on the contrary have sacrificed thousands of men to prevent annexation. What the Courier-Journal calls annexation was simply a trade, concluded at Paris, in which Spain transferred to this country whatever claim she might have on these islands in consideration of the payment of \$20,000,000, but the Philippines were not a party to that trade, had nothing to do with it, and the people who represented the inhabitants of the Philippines protested against it at the time, denied Spain's right to make that deal and this country's right to accept a title from Spain, and they followed that protest up by taking up arms to emphasize it.

As far as our reading goes the Courier-Journal is the only paper in the United States which has made the discovery that the Philippine Islands had annexed themselves to the United States. If they have we would like to know why it is that we have now an army of 65,000 men there to keep them annexed. Queer kind of annexation that.

But call it what you please, we are spending more money, as a matter of business, in that grab than we will ever realize out of it, for even if we concede that having a foothold in those islands would give us vantage ground in extending our commerce on that side of the Pacific we might have secured that without robbing those people of their country or antagonizing them in any way. We might have secured all the needed concessions in this respect and still have kept those people as our friends and made them look to us as their friends as they once hailed us and as their protector, as we were for more than half a century the recognized protector of the Hawaiian Islands. And we could have done this without any smirching of national honor, any breach of faith, or any under-hand work to take advantage of a people who implicitly trusted us.

All that we ever make out of those islands, directly or indirectly, will never balance the loss of reputation as a fair and honest dealer, and we will never gain anything by it that could not be gained by better secured by straightforward and honest dealing. As we see it there is neither honor nor glory nor profit in that unscrupulous grab.

ALREADY NOMINATED.

The nomination of Wm. J. Bryan by the Kansas City convention will be, as we have heretofore remarked, a mere matter of formality, as far as the convention is concerned, for he already has 96 votes more than the two-thirds necessary to nominate. There are in the convention 930 votes, 620 of which are necessary to nominate. There are already instructed for him 716 votes, which is 96 more than necessary to nominate.

THE HAND STRUCK UP.

"The Star Spangled Banner" Teddy grabbed his hat, jerked it off his head and was the first man on his feet. And then every man yanked his hat off and jumped to his feet as Teddy had done, and there was a waving of hats, and of sundry other things for the "Star Spangled Banner." That was play number two in which Teddy took the leading role. Of course all that drew attention to him, which was precisely what he was playing for.

THE ANNUAL MEETING.

Report of Directors Embraces Transactions of the Organization During the Past Year—Season Not So Successful As Reported.
The fourth annual meeting of the stockholders of the East Carolina Truck and Fruit Growers' Association was called to order shortly after noon yesterday by President W. L. Hill, of Warsaw, and after the meeting was found to be daily organized an adjournment was taken until 2:30 o'clock in the afternoon.

THE ELECTION OF OFFICERS.

The afternoon session was principally devoted to hearing of reports and the election of a board of directors for the ensuing year. The only important report was that of the retiring board of directors, which was read by Vice President J. A. Brown, of Chadbourne, as follows:
GENTLEMEN—Your Board of Directors beg to submit the following report: Your Board, with the management of the Association, subject to the criticism on the part of your stockholders at the last annual meeting on account of the contract made with the Fruit Transportation Company. Your Board was acquainted with all the facts in the case and understood thoroughly the folly of attempting to cause either the Atlantic Coast Line or the Atlantic Coast Line to violate their contract, and were practically forced to accept the best terms that could be had at that time. They were able, however, to force the C. F. T. Company to put up a guarantee of \$10,000 for the performance of their contract, and were glad to report that our business agent, Mr. H. T. Bauman, has been able to collect, since our last annual meeting, the sum of \$1,000 for damages sustained by the shippers for the season of 1899, as a result of the above named contract, and without any cost whatever to the shipper.

CAMP SITE INSPECTED.

Col. Rodman and Adjutant Davis Made Inspection at Wrightsville.
Col. W. B. Rodman and Adjutant Champ McD. Davis of the Second Regiment, made an unofficial inspection yesterday afternoon of a site on Mr. W. A. Wright's place on Wrightsville Sound for the site of an encampment this Summer and both expressed themselves as being much pleased with the place. If the encampment goes to Wrightsville, the site mentioned will be selected.

RE-INTERRED HERE.

At the request of Mrs. Whiting the remains of Major General W. H. C. Whiting were exhumed a few days ago at Greenwood cemetery, New York, where they were buried on March 10th, 1865, and brought to this city Tuesday, where they were reinterred in Oakdale cemetery. Mr. T. Doulan went to New York and accompanied the casket to Wilmington.

Hon. W. H. Kitchin.

Chairman E. F. Johnson, of the Democratic Executive Committee, is in receipt of a letter which definitely settles that Hon. W. H. Kitchin will speak here next week, most probably Monday night in Fifth Ward and in Mansboro township on Tuesday. The definite arrangements are yet to be made.

THE HORSELESS CARRIAGE.

Locomotive Ordered for Dr. E. S. Pigford Arrived Yesterday—Attracted Much Attention on the Streets.
The locomotive ordered for Dr. E. S. Pigford arrived yesterday on the New York steamer and attracted the attention of hundreds of people during the day. It was bought from the Locomobile Company of New York. It is a very handsome vehicle and makes a fine appearance.

The "horseless carriage" weighs 850 pounds. Its horse power is between four and five, and can run from one to forty miles per hour. The fuel used is gasoline, which is stored in a small tank under each. The engine is of a common steam type with cylinders 2 1/2 inches in diameter and 4 inch stroke. It is heavily built on brass.

The locomobile can steam up to 150 pounds in five minutes and with 3 gallons of gasoline can run 75 miles, and with 12 gallons of water 45 miles. The water and fuel supply is controlled automatically. The water gauge is the only part of the vehicle which needs close attention. The steering gear and the levers are conveniently placed to the right of the seat. The wheels have pneumatic tires.

Weather Bureau's Report As to Conditions of Crops.
By Telegram to the Morning Star.
WASHINGTON, June 19.—In its weekly summary of crop conditions the Weather Bureau says:
In Arkansas and eastward of the Mississippi river, except in a portion of the Carolinas, cotton has suffered seriously in consequence of excessive rains, lack of cultivation and lice. In Texas continued dry weather, except scattered showers, has been exceptionally favorable for clearing the crop, which, however, is of irregular size over the southern portion of the State, and notwithstanding the favorable weather conditions, the crop is not so good as in Louisiana. In Louisiana the weather conditions were very favorable for cultivation.

WITHOUT FOUNDATION.

Report That U. S. Transport Thomas With Troops Had Arrived at Taku.
By Telegram to the Morning Star.
WASHINGTON, June 20.—The dispatch from Shanghai last night to the effect that the United States transport Thomas, with troops for Manila, was diverted to Nagasaki and had arrived at Taku with twelve hundred men, is said by War Department officials to be without foundation. The records of the department show that the Thomas sailed from San Francisco June 16th. It is of course impossible that she should have arrived at Nagasaki.

JAPANESE TROOPS.
