"I have been thinking of writing to you for some time," writes Mrs. W. D. Benson, of Maxton, Robeson Co., N. C., yon for some time," writes Mrs. W. D. Benson, of Maxton, Robeson Co., N. C., "to let you know what a wonderful thing Dr. Pierce's Golden Medical Discovery did for my little boy. He was taken with indigestion when he was a year and a half old, and he was under the doctor's treatment for five long years. We spent all we made for doctof's bills, and it did no good. He could not eat anything only a little milk and cracker, and sometimes even this would make him sick, and he got very weak; could not sit up all day, and I gave up all hope of his ever getting any better. Looking over one of your books I noticed Dr. Pierce's Golden Medical Discovery rec-ommended for indigestion. We bought some and gave to our boy. Two bottles of Dr. Pierce's Golden Medical Discov-ery cured him. He is well as can be, and can eat anything that he wants and it does not hurt him. He has not been sick a day since, and it his been three years since he took your medicine. I pray that God will always bless you and your medicine."

ON THE QUESTION **OF INDEMNITIES.** A Suggestion from Russia That Meets Approval of Most of the Powers. ALLIED FORCES IN PEKIN.

The Expedition to Pao Ting Fu-Boxers in Great Force Near That Place. Foreign Diplomats in Pekin

Discuss Imperial Edict. By Telegraph to the Morning Star. WASHINGTON, Oct. 13.-The Russian uggestion that the international court of arbitration of The Hague be given urisdiction over divergencies of views arising on the question of Chinese indemnities, was submitted to Secretary Hay by M. De Wollant, the Russian charge d'affairs? in Washington, in a note on October 3rd. It has received the adherence of the American, French and Russian governments, thus giving the suggestion the approval of three of the foremost Powers, and a strong as-surance of its general adoption. M. De Wollant's note has not been made public. It can be stated, however, that it was the result of extended exchanges between the French and Russian governments relative to the six proposals, and then added new a suggestion relative to giving The Hague tribunal jurisdiction of indemnity in case there should be divergence of views. Not being a formal proposi-tion, but merely an incident to the ap proval of the French note, it has not called for a formal reply of acceptance; but the Russian authorities have been furnished with a copy of the American reply to the French note, wherein our approval is given to the Russian suggestion, so that it is none the less effective in giving American adherence to the plan. It is understood also that Austria and Italy, and probably Japan

look with favor upon The Hague suggestion. The movement promises to give the first practical realization to the Czar's movements in bringing about the international congress of The Hague. The court of arbitration received the approval of the various governments represented at The Hague, and its formal organization is in progress. The importance the United States attaches to it is indicated by the choice of ex-president Harrison and ex-Sena-tor George Gray, of Delaware as the American members of the tribunal. Two Armed Movements-That of the Reformists and the Anti-Foreign Uprising, Led by the Black Flags.

By Cable to the Morning Star.

PARIS, Oct. 13.-Letters received in diplomatic circles here throw a some-

what better light on the situation in Southern China, where an anti-dynastic uprising is now in progress. The reformist movement there is divided into two distinct parties-one led by Kang-Yu-Wei and the other by Sunat-Sen. The former is agitating for drastic reforms, but wishes to retain the present dynasty, while Sun-Yat-Sen aims at deposing the Dowager Empress and making a clean sweep of the present regime. Sun-Yat-Sen is leading the present rebellion.

The last authentic news of his whereabouts was of his presence at Yokohama, three months ago. But since then he is believed to have smuggled himself into Southern China and to be leading the reformist rebel forces, his plan of campaign being the capture of Canton, when, he calculates, the whole of South China will join him. In the event of his seriously threaten-ing Canton, Great Britain and France, possibly, assisted by the other Powers, would be forced to oppose him, which would create a curious situation. The

Powers would then be acting against the rebel forces in the South, which are anti-dynastic and friendly to foreigners, and at the same time engaged in suppressing the Boxer rebellion in the north, which is pro-dynastic and anti-foreign. Ih the meantime, Kang-Yu-Wei is inactive,

This brought cheers and more interruptions and the Governor was urged not to further endanger his throat, but to permit a substitute to finish the programme. He rejected the sugges ion, however, and spoke the full fifteen minutes allotted to him, and was escorted to the train by a large crowd. "Just a put up job to break up the meeting," was Governor Roosevelt's comment, when he returned to his car, "but I guess I got back at them."
