A WORLD-POWER.

That this country has become a world-power is one of the pet phrases of the Republican organs and stumpers. From the way they play with it one might imagine that we had become a world-power only since the administration of McKinley, and that it has made us a world-power. From the day the thirteen colonies victorious in the war for independence united and formed the United States of America we were recognized as a worldpower. When we again in 1812 thrashed the British armies sent against us and England acknowledged herself whipped we were recognized as a world-power. When the Monroe Doctrine was announced and the monarchies of the world were informed that interference with the affairs of the Republics on this continent would not be tolerated, it was a declaration that we were and must be regarded as a world-power, and the respect with which European nations have treated that declaration shows that they looked upon this Republic as a world-power. Fighters invincible on sea and on land made us a power that the world recognized before Mc-Kinley or his friend Hanna saw the light. We were a world-power that grew stronger year after year, attended to our own business, and let the business of other nations alone, and while they wrangled, squabbled and stood suspicious and afraid ofeach other, this country, unhampered by suspicions or fears, with gates open to the people of all nations, grew into a mighty nation which no other nation wanted to

But the Republicans are playing the world-power dodge for effect, the object being to give the Mc-Kinley administration credit for placing us where we stand in the estimation of other nations, as if the grab of the Philippines has made us what we have been from the beginning. The fact that we are a world-power and have pounced upon the Philippines is put forward as an argument for holding on to the Philippines and to McKinley in order to hold our position as a world-power. On this line the Republican organs publish a good deal of nonsense, of which the following from the Cleveland Leader is an

"When this nation, blazing with with the intention, as alleged by her, wrath over the oppression of a weak people at its very door, took Spain by the throat, it stepped out into the open with the other nations of the world and it cannot go back if it would. "New responsibities, and heavy ones they are have to be accepted. The country bears, whether it will or not, a new relationship to the rest of the world. It has advanced to a higher place. Despite the whimperings of a few of the timid, the manhood of America is not afraid, but is exultant. It goes forward steadily, bravely, cheerily, to meet what difficulties there may be ahead and to conquer them for liberty and for justice."

We didn't add a particle had the correspondence before them, and it was really of an inby whipping her, although we may criminating character. They do it in a sneaking way, too, and while celerity and vim with which we not boldly asserting that Bryan was in correspondence with the "insurgent" leaders, charge it by indirection, and accuse him by inuendo. Has he done so ! Has he obeyed the following law of the United States:

ANOTHER CAMPAIGN DODGE.

It has been announced (as was not unexpected) that within a few days the War Department will begin to withdraw the "volunteer" organizations from the Philippines. The volunteer regiments must by law be mustered out by the first of July next, so that it seems that they are somewhat in a hurry in beginning to withdraw them now. There are about 27,000 of them in the Philippines, and while they may begin at once to withdraw them, they can take their time about it provided they get them out by the first of

The Republican organs are making considerable display over this withdrawal, as it is intended for political effect, and to create the impression that there is no longer need for such a large force in the Philippines, but they do not make any note of the fact that orders have been issued to send a lot of recruits to the Philippines to take the places of some of the volunteers (most of whom will probably be on the sick

It may be noted that this announcement is made right on the eve of the election, and so made as to create the impression that the men are going to be brought home as rapidly as transportation can be furnished, while there isn't the slightest intention of withdrawing any men'save such as may be incapacitated for service. They are simply playing this thing for political effect, to fool the people as they have been fooling them all along in this Philippine business.

WILL ELECT BRYAN.

Significant Forecast by the New York Journal Very Gratifying to Democrats.

WELL FOUNDED PREDICTION.

Prom Exhaustive and Unbiased Reports from Doubtful States the Journal is Constrained to Say Bryan Will Win Without New York.

Monday's New York Journal presents a comprehensive review of the presidential situation over the entire United States, and basing its prediction upon carefully investigated conditions in doubtful States; candid opinions of best informed men of both parties: views of independents and exhaustive reports of its correspondents in every State, who were charged that the paper "wanted the information for its readers and that it must be absolutely accurate in order to have news value," it declares that Bryan will win without New York and will carry that State, too.

The Journal indulges in this very plausible reasoning: "Leaving New York out of the calculation, Bryan is certain of 197 votes.

With the 36 votes of New York,

Bryan will have 233, or 9 more than enough to elect. "Leaving New York out, Bryan will need only 27 votes to triumph. Illinois and Delaware will do it, or Illinois and Washington. Any two of Illinois, Indiana and Ohio will win for

"The States that are conceded to be doubtful have a total of 117 electoral votes. Out of this 117. Bryan is as sure of getting the needed 27 as he i sure that he is a candidate. Bryan's chances in Ohio, Indiana and Illinois are better than McKinley's. There are a dozen combinations that mean defeat for McKinley, and William J. Bryan will be the next President of these United States."

In its summary the Journal gives: To McKinley-Maine, 6; Vermont, New Hampshire, 4; Massachusetts, 5; Rhode Island, 4; Connecticut, 6 Pennsylvania, 32; New Jersey, 10 Michigan, 14; Wisconsin, 12; Iowa, 13: Minnesota, 9; Oregon, 4. Total lectoral votes, 133.

CAMPAIGN IN GUILFORD.

[Special to Raleigh Post.] GREENSBORO, N. C., October 27 .-The writer was in Raleigh Wednesday and the most exciting race he ever saw was the senatorial race. Persimmon were plentiful on coat lapels, and hand some and costly Carr buttons were be ing freely distributed and worn by Republicans as well as Democrats. Poli tics, indeed, makes strange bed-fellows. On Fayetteville street, near the Tucker building, Wednesday morning, one John H. Parker, the independent mayor of Selma, and brother in law of Tom Massey, a Republican leader, and the star witness in the prosecution of Democrats in Johnston county, was listributing Carr buttons. Parker is resident, I am told, of the only Darr club in Johnston county also learned that one L. W Mangum, formerly a preacher, now Republican deputy marshal, to whom is entrusted 'the business of serving ocess in the indictment of Democrat n Johnston, wears a Carr badge and s electioneering for him on his rounds of the county, saying "If all Demo-crats were as good as Jule Carr he never would have left the party."

Squire Jos. A. Davis, of Deep River township, this county, was here this morning, and says that he does not know a single Democrat in his precinc against Simmons, but the Republicans are openly working for Carr and wearing Carr buttons. 'Squire Davis says he knows his township; that he began voting there forty years ago, when here were only nine Democratic votes cast there. Now there about one I counted seven negroes in Greens-

boro yesterday wearing Carr badges. An ardent Democratic supporter of Carr was told of this, and he retorted that it showed the negroes had a better sense of duty than some white people I saw a prominent citizen a day or wo ago, a man who entered the race or alderman last spring against the Democratic ticket in this city, who said: "If it is left entirely to the Democrats Simmons will be elected; out if the Republicans vote, Carr will That man was also be elected." wearing a Carr button. The statement of the Greensboro correspondent of the Charlotte Observer that Hon. A. M. SIMMONS' CLUB MEETING.

Well Attended and Enthuslastic Assemblage of State Chairman's Priends Speeches by Prominent Men.

An enthusiastic meeting of the Sim mons' Democratic Club was held las night in the Courf House, there hav ing been a fair and representative attendance from all the wards.

President Stevenson was in the chair and George H. Howell and William J. Bellamy, Esqs., acted as secretaries.

A number of matters were discussed but the only action of interest to the public in general was the appointment by the President, upon motion, of a finance committee, composed as follows: W. H. Bernard (chairman), Walker Taylor, F. H. Stedman, H. McL. Green, T. J. Presson, J. N. Bennett, George Harriss, M. O'Brien, S. H. Fishblate, G. J. Boney and B. F.

After the disposal of the business before the club there were calls for Walter H. Neal, Esq., of Laurinburg, who, as chairman of the State Board of Elections, is here to attend a meeting of that body. Mr. Neal made a very conservative and plain speech to the audience, touching upon the services of Chairman Simmons to the party and State at large, his emi nent fitness for the position to which he aspires and his experience with the Constitutional Amendment requisite to a proper defence of the same in case it is attacked upon the floor of the Senate. Mr. Neal was given warmest applause throughout his remarks.

President Stevenson next called upon Capt. J. D. McNeill, of Fayetteville, and he responded in a speech characteristic of the worthy son of Cumberland that he is. He dwelt upon the fact that North Carolina owes to Chairman Simmons a debt of gratitude and predicted confidently that it would pay it with an overwhelming majority in November. He closed with a jocular remark as to the length of Mr. Neal's speech, and sat down amid applause heartily joined in by the object of his stinging witticism.

After the meeting of the club, the finance committee held a short session, at which private matters were discussed.

CY. WATSON FOR SIMMONS.

To THE EDITOR-During the campaign for Senator I have avoided all discussion of the merits of senatorial candidates, and have condemned personal attacks upon any and all of them. I believe in the primary, but at the same time think that the people should be permitted to declare their choice without interference on the part of partizans of either of the gentlemen named for the high position.

I saw a communication some days since in the News and Observer from my friend R. T. Gray, Esq., in which I am grouped, with many other Democrats, as favoring Mr. Carr for Sen-

I intended to take no notice of the communication at the time, but I find that the letter is being republished in other papers, and being otherwise used in favor of Mr. Carr. My name does not belong in the list of Mr. Carr's supporters, not that I have any serious objections to him for Senator, but because I think it better for the Demo cratic party and for the State for Mr. Simmons to be chosen and as the campaign progresses the more strongly am I convinced that the position here taken is right.

Yours truly, C. B. Watson.
