**NEW YORK'S FATAL** FIRE AND EXPLOSION

Workmen Searching the Ruins for Remains of the Dead -- Twenty-six Per-

sons Are Still Missing.

By Telegraph to the Merning Star. NEW YORK, October 31.-A revision made to-night of those persons missing and thought to have perished in the explosion and fire at Tarrant & Company's drug house, shows twenty-six unaccounted for. Of this number four are not known at the addresses given by the persons reporting them as missing. Out of the whole number

eight are put down by the police as employes of Tarrant & Company. Not a single body had up to ten o'clock to-night been found in the ruins, though what looked like parts of bodies have been dug out. It begins to look as if what remains are in the mass of debris which still cumbers the place will be totally unrecognizable as of human composition, even should the workmen find them. This is because of the tremendous heat caused by the explosion and the fire and the fusing of materials, which running together form a mass of all sorts of stuff. For instance, what was sapposed to be parts of bodies taken from the ruins last night turned out an examination at the morgue to be black ened pieces of melted gum arabic. Again to-day another mass was found which the workmen first thought to be human flesh but is now thought to be melted rubber. The searchers have found in the ruins of the Home Made hotel a number of articles, such as books, handkerchiefs, etc., but whether the owners escaped or not is un-

Cause of the Explosion.

The authorities in the meantime are pushing the investigation into the amount of explosives stored in the building with a view to prosecutions. Along this line Secretary Augustus F. Docherty, of the fire department, in speaking of the cause of the explosion, said to-day:

The combustibles carried by Tarrant & Company were largely in excess of what was allowed them by law and their permit granted by the fire department, and in consequence of this It is not true that the laboring men of fact they have violated the law. It has now been decided by Fire Chief Croker and Fire Commissioner city. ## BRYAN'S TOUR IN M'KINLEY'S STATE

His Itinerary Covered the Country Between Cincinnati and Toledo, Ohio.

GREETED BY LARGE CROWDS.

The Leading Issues Discussed-A Silver Horseshoe Presented to Mr. Bryan by German Society at Dayton. Meeting at Cincinnati.

By Telegraph to the Morning Star. CINCINNATI, O., October 21.-The Democratic presidential candidate. William Jennings Bryan, made his first speech here to night for the present campaign. He arrived on a special train at 8 o'clock to-night, and went direct to Music Hall, where he talked for an hour. Hon. Judson Harmon. formerly attorney general under President Cleveland, presided at the meeting and there were many other leading Democrats present. The doors were opened at 7 P. M., but more than enough to fill the hall were pres-

ent before 6 o'clock. The day was spent entirely in this State and the intinerary covered the country between this city and Toledo. With the exception of the Toledo speech, none of the others of the day exceeded twenty-five minutes duration

A majority of the places where stops were made were small towns, and as a rule the crowds were not large. There were, however, fine audiences at Toledo, Wauseon, Piqua, Dayton and College Corner, as well as here.

Silver Horseshoe Presented. When Mr. Bryan's special train rolled into the depot at Dayton, about sunset, there was a crowd of several thousand people assembled at that point. Mr. Bryan had been notified that there was a desire to present him with a silver horseshoe from the Harugari Liederkranz Society. When the train came to a full stop and Mr. Bryan appeared on the rear platform he was greeted by prolonged and tumultuous applause. A committee of three ladies representing the society, then pressed their way to the front of the crowd and handed to him a box containing not only the horseshoe, but a colore portrait of himself, a gold mounted badge, and a letter explaining that in a contest in the society for the horseshoe Mr. Bryan had received 1, 280 votes against 270 cast for President McKinley. Mr. Bryan responded

briefly, saying: "I desire the ladies who presented this horseshoe to bear my greetings to the members of the Harugari Society, and v to them that while I cannot make them a speech in German I can 'Ich danke ihnen.' Tell them I am glad to know that the Republican appeal to the Germans has been in vain. and the Republican appeal has been in vain to other portions of our population, for while the Germans want good money they want good government also. I am obliged to the Germans for this horseshoe and am grateful for the large majority by which it was voted to me. I believe that if we succeed in driving every trust out of the United States, reducing the standing army to its former size, and in saving this country from the menace of imperialism, the blessings of the Democratic policies will be so universally recognized that the people will never take the horseshoe from the White

House door." Arrive in Toledo.

Toledo, O., Oct. 31.—Colonel and Mrs. Bryan arrived in the city at 9 o'clock this morning, coming direct from Dunkirk, N. Y. They were met at the railroad station by Mayor and Mrs. Jones. Mr. Bryan was escorted to the Boody House by the mayor, while Mrs. Bryan was conveyed to the mayor's residence for a brief reception. Beginning at 10 o'clock Mr. Bryan made a speech of an hour's duration iu Armory Park here, leaving immediately afterwards on his day's tour of the State. He was received by cheers from a big crowd gathered about the depot when he left his car, and also found a large number of people grouped about the hotel when he reached it. They cheered heartily.
In his speech Mr. Bryan gave con-

siderable time to the plea of prosperity. On that subject he said:

The Dinner Pail Argument. "The Republican party has failed in heir campaign and I am going to show how one proposition after another put forth by the Republicans has failed to meet with a response from the people. When the campaign opened up the one cry was that the country was prosperous, that the Republican party must be kept in power. That was the one plea, and to represent that they had a full dinner pail painted on their banners. The full dinner pail! If they wanted to paint that full dinner pail now as it looks, they would paint on their banners the worst battered, the most beaten and the most shot full of holes dinner pail ever seen. Let me tell you why the dinner pail argument failed. First, because not every laboring man has a full dinner pail. They went on the theory that every laboring man had a full dinner pail, but the anthracite coal strike opened the eyes of a great many people to the failure of that Republican argument, for down there in the anthracite coal regions the strike showed that the men did not get half as much as they ought to, and paid twice as much for powder as they should. I would be willing to let this campaign be decided on the full dinner-pail argument and I would ask the laboring men who votes yes or no on this proposition, are you satisfied with present conditions and want them continued just as they are? I would be perfectly willing to let the laboring men vote on that proposition; but before they vote I want them to go the sweat shops and ask themselves whether that is prosperity, and if they want it continued just as it is. share of the wealth that they produce.

Appeal to Religious Prejudice.

NAPOLEON, O., Oct. 31.—In his speech at Wauseon Mr. Bryan charged the Republican party with making specious pleas to the different classes of people, and in support of his asser-tion produced circulars addressed to both the Catholic Church and the A. P. A. Referring to these circulars

"I have received to day two circuiars, one being sent out to members of the A. P. A. Society, asking them

to vote the Republican ticket
as a protest against Catholics,
and the other asking Catholics
to vote the Republican ticket
as a protest against the A. P. A.

prejudices.
"I thank God that the Democratic party is a party to which people can belong, no matter to what church they are members, no matter what their occupation may be. We believe in religious and in civil liberty and men come into the Democratic party not in order to advance their claims against other people, but in order to protect the rights of all people under the American flag."

Eight Distinct Earthquake Shocks in Jacksonville, Fla.

By Telegraph to the Morning Star. JACKSONVILLE, FLA., Oct. 31.—Eight distinct earthquake shocks were felt in Jacksonville to day,

The first shock was at 11.10 o'clock A. M., and shook some of the large buildings in the city. Hundreds of people believed that heavy ordnance was being fired in or near the city. At 11.25 another shock, equally as severe, was felt and they continued at

fifteen minutes intervals until 12.30 At 4.04 o'clock this afternoon the seventh shock of the day was felt more severely than any of the preceding, followed four minutes later by a report and shock the severest of the day. The last disturbance made the window-panes rattle in several sections

of the city. The local weather bureau officials realized the nature of the shock at the first and kept the time. Director Mitchell stated it as his opinion that the vibrations passed from south to north. There was no disturbance in the water noticeable and the shocks were not severe enough to cause any

LIPTON'S PORK DEAL.

Culmination of the October Corner-Lipton's Profits \$350,000.

By Telegraph to the Morning Star. CHICAGO, October 31.-The culmination of the October pork corner controlled by Sir Thomas Lipton, came when pork for delivery this month advanced \$3, rising on less than a dozen trades from \$17, yesterday's closing price to \$20 at the clase to-day. Shorts who had held off until the last moment boosted the price to \$20. It was said that Sir Thomas could have made the price \$100 as well as \$20, but he declared he had no in-

tention of "squeezing anybody.

As a result of this deal here, Lipton is believed to have made \$350,000. There were only 35,000 barrels of pork that could be delivered and the Englishman owned them all, as well as twice that number bought from people who did not have a barrel they

RAILROAD PREIGHT RATES.

New Schedules Show No Material Change Except in Name.

By Telegraph to the Morning Star. NEW YORK, October 31.-After innumerable hearings of objections and protestations of merchants and ship pers against the advances in rates made by the classification of the South ern Classification Committee, which went into effect in February last, the committee has at last issued another classification, which is to be known as Classification No. 28.

According to a statement issued to day by J. M. Langsley, of the Mer-chants' Association, the new schedules show no material changes, excepting in name, and are so unsatisfactory that the association will take the entire subject before the Inter-state Commerce Commission. The action is to be brought against some one of the reads in the South using this schedule.

U. S. Government's Reply to the Note of the Two Powers Regarding China.

APPROVES THE AGREEMENT

France Makes Reply That With Regard to Article Three She Reserves the Right to Safeguard Her Own Interests-Japanese Reply.

By Telegraph to the Morning Star.

WASHINGTON, Oct. 31.—The State Department to-day made public the British-German agreement respecting the maintenance of the "open door" and territorial integrity of China, with the answer of the United States government, sent in duplicate to each of the principals to the agreement.

The answer is as follows:

Mr. Hay to Lord Pauncefote—Department of State, Washington, Oct.

29.—Excellency—I have the honor to acknowledge the receipt of your note of the 23d of October, enclosing the text of an agreement between Great text of an agreement between Great Britain and Germany, relating to affairs in China, which was signed in London on the 16th instant by the Marquis of Salisbury and the German ambassador on behalf of their respective governments, and inviting the acceptance by the United States of the principles recorded in that agree

These principles are: "1. It is a matter of joint and per manent international interest that the ports on the rivers and littoral of China should remain free and open to trade and to every other legitimate form of economic activity for the nations of all countries without distinction, and the two governments agree on their part to uphold the same for all Chinese territory so far as they can exercise influence.

"2. Her Britannic Majesty's government and the Imperial German gov ernment will not on their part make use of the present complication to obtain for themselves any territorial advantages in Chinese dominions and will direct their policy towards main-taining, undiminished, the territorial condition of the Chinese Empire."

The United States have heretofore made known their adoption of both these principles. During the last year this government invited the Powers interested in China to join in an expression of views and purposes in the direction of impartial trade with that country and received satisfactory assurances to that effect from all of them. When the recent troubles were at their height, this government, on the 3rd day of July, once more made an announcement of its policy regard ng impartial trade and the integrity of the Chinese Empire and had gratification of learning that all the Powers held similar views. And since that time the most gratifying harmony has existed among all the nations concerned as to the ends to be pursued, and there has been little divergence of opinion as to the details of the course to be followed.

It is therefore with much satisfac-tion that the President directs me to inform you of the full sympathy of this government with those of Her Britannic Majesty and the German Emperor in the principles set forth in the clauses of the agreement above

The third clause of the agreement provides-"3. In case of another Power making use of the complications in China in order to obtain under any form whatever such territorial advantages, the two contracting parties reserve to themselves to come to a preliminary

steps to be taken for the protection of their ow a interests in China." As this clause refers to a reciprocal arrangement between the two high contracting powers, the government of the United States does not regard itself as called upon to express an opinion in respect to it.

The letter was written in connection with the information that the Rev. A. M. The recent arrival of some sacred relics from Siam was made the occasion of an extraordinary demonstration of devotion to their faith. The roads over which the relics were borne were covered with cloth, which was afterward sold in small pieces at more than ten times its value, realizing over 62,000 yen. They propose to collect 1,000,000 yen and erect a grand buildng as a repository for their treasures. After this has been done, they intend to turn their attention to charity and education.

THE COTTON CROP.

New Orleans Times-Democrat Estimates a Vield of 9.750,000 Bales.

By Telegraph to the Morning Star. NEW ORLEANS, October 31 .- The Times-Democrat to-morrow will print the final reports of its correspondents on the cotton crop of 1900. The crop is an exceedingly spotted one.

The concensus of opinion appears to be that making the allowance for a moderate increase of acreage, a maximum yield of 9,750,000 bales is on the cards.

This would mean an excess of about 600,000 bales, as compared with the actual production of 1899. The super abundance of Texas has been offset by the comparative dearth of the remainder of the belt.

WHEN others fail, take ROBERTS' TASTELESS CHILL TONIC. It cures chills, fevers, malaria and general bad health. 25c. A red cross on the label assures you of the pure, high-class material that makes ROBERTS' a success. Don't take a substitute. R. R. Bellamy, Jos. C. Shepard, Jr., and J. HICKS BUNTING.
