LONDON, January 30 .- The proces sion in London, as indicated by the War Office orders issued this evening, will be a gorgeous military pageant Detachments of forty regiments, with an almost equal number of distinctive uniforms, embracing all arms of service, will make a constantly changing picture. The uniforms of all the great armies of the world will appear, for in addition to the brilliant entourages of the visiting kings and princely envoys there will be the military attaches of the embassies and legations. All the field marshals of the British army able to endure the fatigue will ride with their staffs. The naval corps will also take part in the procession, which will

be two miles long.
The War Office directs that Be theren's and Chopins' funeral marches only shall be played. From the time the coffin reaches London to its departure guns will boom slowly in

Londoners are just awakening to the full proportion of the obsequies and the result of days of mourning, which to numerous tradesmen and others means absolute close and is causing consternation. Suddenly to stop every industry in the United Kingdom and to turn the masses into the streets, with millions hoping to concentrate along the two miles of the route of the procession, is an undertaking which has begun to be fully appreciated by the police; but the public of London is dismayed to find that all the great markets-Covent Garden, Smithfield and others-where the food of the me tropolis is supplied, areto be absolutely closed at the end of the week. The railways of the United Kingdom will reduce their arrangements to the Sunday schedules. Restaurants and bars will be shut and the crowds will wander in the streets. London is a world in itself, living from hand to

The service at Windsor Saturday will be conducted by the Archbishop of Canterbury, the Bishop Windsor and of the Dean of Windsor. The Arch-bishop of York and the Bishop of Oxford will be present. The interment, Monday, will be

MISSIONARIES IN CHINA.

Resolutions Adopted and Presented to the British and American Ministers in Pekin.

By Cable to the Morning Star. PEKIN, January 30.—The ministers'

punishment committee met this morning to continue the discussion of what measure of punishment to demand for provincial officials, where foreigners have been killed. The ministers refused to furnish any information as to the result of their deliberations A meeting of all the ministers will probably te held to morrow.

The missionaries last night met and prepared final resolutions, which were presented to the British minister, Sir Ernest Satow, and United States Minister Conger to day. The preamble sets forth the fact, "not sufficiently emphasized in the note," that the Chinese acknowledge everything representing progress, that there has been no adequate rebuke for the flagrant violation of treaties and no indemnity is asked for the Christian Chinese who suffered heavy loss. Finally the missionaries say nothing has been inserted in the note safeguarding the missionaries, and they earnestly request Sir Ernest Satow and Mr. Conger to see that the former treaties protecting missionaries are reaffirmed that the government shou'd be forced to allow Chinese of any rank to accept Christianity without injury to their prospects; that the missionaries should be allowed to live in the interior, own property and possess passports compelling their acceptance; that friendly intercourse between the missionaries and officials be encouraged, and that relief should be found for the suffer ing native Christians. The missiona ries earnestly hope that Great Britain and the United States will take a lead ing part in the coming transformation of China, helping the rulers to enter upon lines of reform which alone can save the country.

OPPOSITION TO SUBSIDY BILL

Conference of Democrats, Populists and Silver Republicans Will Determine

Fate of the Bill. By Telegraph to the Morning Star.

WASHINGTON, January 30 .- A conference of Democrats and their asso ciates of the Populist and Silver Republican faith will be held tomorrow as a result of the declaration yesterday by Mr. Frye that he intended to push the consideration of the Ship Subsidy bill to the exclusion of all other business except by vote of the Senate. This conference will determine the fate of the bill. If the opponents of the measure decide to continue a stiff fight and debate the measure at great length, it will mean defeat at this session, with the short time remaining to pass the appropria tion bills. Some of the opponents of the bill on the Democratic side feel that if the Republicans are determined to pass the bill the minority should not go further than to state their the Republicans take the responsibility

which is theirs.

No one wants an extra session and that will be avoided if there is any possible way of doing so. It is even said that the Spooner bill will be passed in order to avoid such session after the fourth of March. Republican eaders say that they believe an extra session can be avoided. They also say that the Democrats must decide whether they will take the responsione of the trustees bad seven wives | Secures Control of the Mobile and Ohio | Juan and landed at New York. bility of defeating the Subsidy bill, and if they are ready to take that responsibility then other legislation will be pressed rapidly to avoid an extra ses

A LIVELY DEBATE

IN THE HOUSE.

An Echo of the Anti-Polygamy Crusade Against Utah's Representative.

AGRICULTURAL BILL

Debate on Amendment Providing That No Money Shall Be Paid the Utah College If Any Trustee or Employe Practices Polygamy.

By Telegraph to the Morning Star. WASHINGTON, Jan. 30-The Ship! ping bill was kept at the front in the Senate through the day. No appreciable progress was made, most of the time being occupied by Mr. Turley, of Tennessee, and Mr. Jones, of Arkansas, in speeches severely arraigning the bill's alleged favoritism. Early in the day an unsuccessful effort was made to secure agreement to the conference report on the Army

Reorganization bill. The Senate agreed to a resolution introduced by Senator Jones, Arkansas, requesting the Secretary of War to inform the Senate whether the executive council of Porto Rico has agreed to guarantee dividends to cor porations doing business in that island and if so to report all details. When at 2 o'clock the Shipping bill was laid before the Senate as unfinished business, Senator Hawley sought to continue consideration of the Army bill. Senator Pettigrew objected. Senator Hawley finally yielded and gave notice he would call up the Army bill tomor-

The anti-polygamy crusade which resulted in driving Mr. Roberts, Utah's representative, from his seat at the last session, had an echo in the House today during the consideration of the Agricultural Appropriation bill. When the section making the appropriations for agricultural colleges of the several States was reached, Mr. Landis, of Indiana, offered an amendment providing that no money should be paid to the college in Utah until the secretary of agriculture was satisfied that no trustee, officer, teacher or em-ploye in the institution practiced poly

Mr. King, who succeeded Mr. Roberts, tried in in vain to head it off The House adopted the amendment, whereupon Mr. King retaliated by offering an amendment providing that none of the money should go to agricultural colleges in any State whose instructors or trustees have engaged in lynching, or been guilty of adultery or fornication. He afterwards modi fied it so as to apply only to the agricultural college of Indiana. It was, of course, overwhelmingly defeated. Subsequently when the bill was report d to the House the Landis amendment was stricken out by a vote of 69 to 19. The "friends of the far mer" were very much in evidencs

during the day.
Mr. Tsylor, Ohio, chairman of the Committee on Elections No. 1, sub mitted the report on the contested election case of Walker vs. Rhea from the Ninth Virginia district. The committee found that while gross frauds and irregularities occured in the elec tion they fell "very far short," of changing the result. The committee therefore recommended that Mr. Rhea, the sitting member, who is a Democrat, should retain his seat. Messrs Linney, North Carolina, and Samuel Davenport. Pennsylvania, dissented from the conclusion of the majority and were given leave to file their views. The report will be called up in the near

The House then resumed the consid eration of the Agricultural Appropria tion bill. The sections of the present law relating to the scientific bureaus of the department were substituted for publication in the bill which went out yesterday on a point of order, made by Mr Mahon, Pennsylvania.

Mr. Latimer, South Carolina, offered an amendment to increase the appro priation for farmers' bulletins to \$50. 000 Mr. Mahon, Pennsylvania, declared that the increased dissemination of farmer's bulletins would not do the farmers any good. He declared that members desired to distribute these bulletins to make themselves popular with the farmers.

Mr. Talbert, South Carolina, and Mr. Shackleford, Missouri, supported the amendment. Mr. Mahon inveighed against the alleged friends of the farmers who were always howling against railroads and prating of their friendship for the farmers. He represented the farmers and he declared they did not desire extravagant appropriations for the Agri cultural Department or the indiscrimi nate distribution of the "stuff printed about agriculture" by the department. "Are you in favor of appropriating \$780,000 for experiments?" asked Mr.

Latimer. "No." "Why don't you fight it then?" "] have been doing so. "I am with you," observed Mr. Lati

Mr. Shackleford referred sarcastically to Mr. Mahon's economical ideas as to appropriations for the Agriculture Department, while he pleaded for the payment of big claims for the down-trodden Cramp Shipbuilding

> Mr. Landis in reply said he was credibly informed that one of the pro fessors in the agricultural college had three wives, and one two, and that who had blessed him with thirty nine children. These statements he said had been made by one of the leading papers of Salt Lake City, and so far as he knew the official organ of the Mormon Church had not denied it. The chair ruled that the amendment was in order and the amendment was adopted-seventy to forty-four. Mr. King, taken by surprise, offered bis amendment in retaliation. It created a furor.

Mr. Grosvenor, Ohio, was recognized. He said he desired to raise a point of order against the amendment, not one but half a dozen in fact. He argued that the amendment was an attempt to legislate upon an appropriation bill. He charged that the amendment was an aspersion upon the teachers in all the agricultural colleges. He became engaged in a wordy duel with King declared that the Ohio member had become a common scold. "If the law against common scolds were still in force," flashed back Mr.

"Ard you would have been ducked same inr to that," retorted Mr. King. The chair intimaged that the amend ment as drawn was not in order. Mr King changed it so as to place it in the exact language of the Landis amendment, and making it apply only to Utah and Indiana and later to In diana alone. The chair then held it wes in order. Finally a demand was nade for the previous question and the amendment was voted down by a viva voce vote.

Mr. King then asked the privilege of withdrawing it, saying he had not in tended to allow it to come to a voter There was considerable discussion of the arid lands in connection with the paragraph providing for an investigation of that subject,

When the bill was reported to the House Mr. King demanded a separate vote upon the Landis amendment, which was then stricken from the bill by a rising vote—69 to 19. The bill was passed, and at 5.45 P. M. he House adjourned.

CHINESE ARE VOLUNTEERING.

Paid and Armed by the Government--Will Spring Up from All Quarters in the Event of Further Hostilities.

By Telegraph to the Morning Star. Washington, January 30. - A prominent Chinese newspaper, of recent date, which has just reached Washington, says: "A very important movement is going on all over China, and more particularly along the vantage basin, in response to special orders from the viceroys and governors. Bodies of 'volunteers' are being

actively enrolled and drilled in the use of firearms, nominally for their own protection, but in reality they form a large and formidable reserve force. Every guild and trade, in addition to all well to do gentry, have these 'volunteer' bodies, who are paid and armed by the government. They are not a public institution like regular troops, but are dispersed in towns and villages without any distinguishing feature, and in the event of further hostilities will spring up from all quarters."

China mail advices also report that the allies have declared the Krupp guns in the Shanbaikuan forts international to prevent their removal, the Russians previously having carried off all the guns in the Pietang forts in the absence of such an arrangement.

MUTINY AT ST. HELENA.

West Indian Troops Raided the Towa and injured Many of the lababitants. Finally Subdued.

By Cable to the morning star. LONDON, Jan. 30.—The West Indian troops stationed at the island of St. Helena, where General Cronje and a large number of Boers are held prisoners, mutinied January 2d and

raided the town, terrorized the inhabitants, injured many of them, defied their officers, and were only finally subdued when faced by the muzzles of rifles. The censor suppressed the news, but the Associated Press has received the story by mail. The trouble began with a row on the night of January 1st between some blue jackets and a party of the West Indians. On the following night, the West Indians broke out of barracks and raided the town with clubs and razors tied to sticks. They ran amuck, cutting and beating women, and children and men indiscriminately and attacked the

At daybreak, after the troops had drawn up with loaded rifles in front of the place where the West Indians were barracided, the mutiniers finally surrendered.

Multiplex Wireless Telegraphy Expected to Produce a Great Transformation in Existing Methods.

BERLIN, Jan. 30 .- Prof. A. Slaby, of the Berlin Technische Hocsschule, in the course of a remarkable interview on "the coming electrical revolution," which is to appear in the forthcoming number fof a new technical periodical, asserts that his recent invention, multiplex wireless telegraphy, will produce a very great ransformation in existing methods. It will be possible, he declared to apply the principle to submarine cables in such a way as to send hundreds and even thousands of messages simultaneously on the same wire, thus enormously cheapening-

Prof. Slaby believes that the problem of direct production of electricity from coal will be solved. Germany, he predicts, will be the foremost nation of the twentieth century in technical production, and electricity will be the poor man's source of power and light.

Mrs. Sheriff came to Anthony late yesterday and worked all night procuring hatchets, axes and other implements of destruction and it was 2 o'clock this morning before she had perfected plans for the raid. She enlisted the following women: Mesdames M. I. Davis, William Scott, E. H. Brubaker, Louis Macy, T.G. Hoop er, Charles Robinson, John Hickens, John Kendall, J. H. Shelton and the Misses McKay, Page, Massey, Robinson and Hixon, all of Anthony.

They began their attack shortly after daybreak, taking the saloonkeepers and the town officials by surprise. A drug store was the first point attacked, but though demolishing costly bar fixtures and a register, they were unable to locate the stock of liquor. The next place, half a block away, was thoroughly wrecked. The proprietor attempted to stop the work, but the husband body guard, with a blow on the head with a beer bottle, quickly rendered the irate proprietor hors du

combat. Two more "joints" were visited in quick succession. Their furniture was demolished and the stocks of liquor emptied.

The women then knelt and prayed, They asked the Almignty to guide them to other dens of in quity, and direct their footsteps to other rum cursed towns in Kansas. Immediately warning was hurriedly telephoned to adjacent towns by local saloon sympa thizers, who wished to warn their fellow saloonkeepers. The Mayor swore in extra police, and the crusaders were placed under strict surveil-

FIRE IN BALTIMORE.

All the Asimals in Eostock's "Zoo" Cremated-Loss Over \$400,000. By Telegraph to the Merning Star

BALTIMORE, Md., January 30-With pitiful screams of fright and groans of intense pain, the seventy five or more animals, of all descriptions, confined in cages at Frank C. Bostock's "Zoo." which was in winter quarters in the old Cyclorama building, in this city, were roasted or burned to death to night. The fire probably originated from a badly insulated wire on the outside of the building. The flames spread so rapidly that it was impossible for the attendants to rescue the helpless animals, and with the exception of one elephant, one camel, two donkeys and a pack of hounds the

entire herd was lost. The fire was discovered at 10.40 P. M., a few minutes after the evenng performance had ceased. Twenty minutes after the fire was discovered he entire building, which was con structed almost entirely of wood, was mass of flames. Mr. Bostock estimates his loss or animals at about \$400,000. The loss on the building probably is \$15,000.
