By Telegraph to the Merning Star NEW YORK, April 10.-The annual report of the American Bible Society. relative to the situation in China, will contain the following interesting statements from its agent in Caina, the Rev. John R. Hicks, D. D:

There was a deep and cunningly laid plot, under imperial sanction to extirpate Christianity, expel all for-eigners and destroy all foreign inte-rests. No one divined the full extent of the iniquity which was deliberately contemplated.

"In all 183 Protestant missionaries, women and forty-eight children, have been massacred. "With the exception of the massa-

cres of Ku Choo in Chekiang, in which eleven persons were killed, and at Hong Choo in Hun An, all of the deaths occurred in the northern pro-

"The question has been raised at home as to whether the Boxer uprising was anti foreign or anti-missionary in its character. No doubt exists in the mind of any well informed person in China. The movement was un doubtedly against foreigners, as such; and the crusade was directed against everything foreign - Christianity, of course, included. Hsu Ching Cheng and Tuen Chang, two ministers of the Foreign Office, would not transmit the awful edict which reiterated the order to 'painfully extirpate all foreigners,' but changed it so as to read protect all foreigners,' and then sent it flying over the wires to the remotest provinces. They were sentenced to be cut in two. Missionaries were the class that was benefitted by this act of heroism. The fact that every missionary escaped from fourteen out of eighteen provinces would indicate that the crusade was not specially anti missionary, "We have to mourn the loss of many noble and devoted native workers. They were warned of the risk they were running, but not a man of the puble band of eighteen flinched. Their reply was 'we go on a colportage tour. God's will be done' Oaly four of the eighteen re turned from that journey. Of the co-portagers under missionary super vision I have not heard of one who escaped.

Bars of Gold Valued at \$22,750 Stolet From the Steamer Kaiser Wilhelm Der Grosse.

By Cable to the Morning Star. BREMER HAVEN, April 10 .- It is officially announced that three bars of gold were stolen during the voyage of the North German Lloyd steamer Kaiser Wilhelm der Grosse. The company has offered a reward of 10,000 marks for their restitution or for the discovery of the thieves.

NEW YORK April 10. - The robbery at sea of the specie room of the North German Lloyd liner Kaiser Wilhelm der Grosse seems a mysterious crime. Apparently there has berg complete failure to locate either the missing gold bullion or the men who took it, although the search of passengers and ship at Bremen this morning may furnish material for in vestigations Toree bars of gold aggregating in value \$22,750, shipped by the National City bank, of New York, were stolen from cask No. 4 of the specie room, somewhere between this

port and Cherbourg The advices to Golrichs & Company. agents for the company, came in Ger-man, and on the point as to whether the specie room was broken open or entered by beating the lock admits of translation either way. The specie room of the Kaiser Wilhelm der Grosse is iron bound and almost as strong as a vault. Its doors were secured by a patent lock for which there were but two keys. One of the keys was kept by the chief officer and the other by the purser.

The bars of gold were packed in oak casks bound with iron hoops. Toousands of dollars in gold were within the reach of the man who forced his way into the strong room, but only the sum named was taken.

Gen. Botha Treating With the British for Peace in Behalf of the Entire Bor Porces.

By Cable to the Morning Star. CAPE TOWN, April 10 .- Gen. Botha has reopened negotiations with the British for peace

It is understood here that, although Gen. DeWet, at his recent interview with Gen. Botha, refused to surrender, Gen. Botha, regarding him as irre sponsible, undertakes to negotiate in behalf of the entire Boer forces. The British authorities here consider that if Gen. Botha surrenders DeWet's following can be easily taken.

It is explained here that this action was determined in part by Gen. Botha's discovery at a recent meeting that Gen DeWet's intellect had weakened and that his influence with his followers was diminishing, and that a continuance of the campaign, in view of Gen. DeWec's irresponsibility, rested with Gen. Botha alone.

Conditions Are Compiled With. Military Will Control. By Telegraph to the Morning Star.

WASHINGTON, April 10.-Informa tion was received at the War Department to-day to the effect that the including sixty men, seventy-five Cuban Constitutional Convention is contemplating sending a commission here to consult with the President and Secretary of War regarding the Platt amendment and the relations os the United States with Cuba.

While it is known that the administration much prefers to have the Constitutional Convention accept the Plattamendment justead of sending such a commission, it would rather the commission should visit this country and discuss the subject than the Platt leg islation should be rejected. Flat rejection would leave matters in a strained condition. The commission will visit this country upon its own re sponsibility, as an invitation to come might imply a disposition upon the part of this government to make con-cessions. It has been suggested that some of the most radical opponents of United States control should be members of the commission, in order that they may ascertain definitely what the

situation is in the United States. There has been some discussion as to what such a commission can accomplish by coming to Washington. It is said for one thing that it can obtain definitely from the President and Sec retary of War a construction of the Platt amendment. The third section. relating to intervention, is the one which meets with the greatest objection from the Cubans and it is be lieved that the administration can coa vince the delegation that there is nothing but the best of intentions on the part of this government toward Cuba. The requirement that the Cubans shall adopt "substantially" the terms of the Platt amendment also can be con-

The delegation, it is said, will learn that the Cubans can hope for no modification of the law by Congress, and that nothing can be acomplished by waiting until another session. It also will be made plain that the present administration does not wish any modification, and that the spirit Platt amendment must be accepted The delegation will be informed they can tell the members of the convention upon their return that until the condi tions of the Pistt amendment are complied with the United States will con tinue to exercise authority in the

island under its military power. There is a desire upon the part of the Cubans to have some information as to what may be meant by coaling stations It is understood that the delegates have been given an intimation that the selections are not likely to be made within any of the cities of Cuba, but at points which the United States regard as covenient for warships Probaly the delegation may desire ad ditional assurances from the President upon this point when it comes to the United States.

session took no action regarding the proposal to appoint a committee to go to Washington in reference to the future relations between Cuba and the United States. The whole time was taken up by Senor Juan Gualberto Gomez and General Sanguilly, who made long and impassioned speeches, the former against the Platt amendment and the latter in its favor Senor Gomez said in substance that the black blood in his veins made him opposed to the Americans, inti mating that their treatment of his race stamped them as unfriendly to the negro. COUNTERFEITERS CAPTURED.

Important Discoveries and Arrests Made by Secret Service Men in New York City.

By Telegraph to the Morning Star. NEW YORK, April 10 .- One of the biggest raids in the history of the secret service was made to-night by Chief Hazen, as the result of the arrest of John Albert Skoog for passing counterfeit Swedish notes. Chief Hazen, after talking with which he got from papers in Skoog's pocket, went to a building in Grand avenue, Brooklyn, and arrested Emil Mobert, a Swede.

One of the most complete counterfeiting plants ever found was discovered in the house. Long sought plates for 50 kroner notes of the Bank of Sweden and 100 kroner notes of the Bank of Copenhagen were among those found. They were buried away with other plates for the making of a \$20 note of the Bank of Scotland, which it is said the secret service of Great Britain has been trying to run down for years. Skoog is said to be one of the most expert counterfeiters

DESTRUCTIVE FIRE

Cold Comfort From the Commis- Large Dry Goods Establishment of Julius Meyer's Sons Burned.

IF THEY VISIT WASHINGTON. ONLY ONE LIFE WAS LOST.

Pour Hundred Employes in the Building. Many Narrow Escapes-Fire Spread to Other Houses, But Plames Were Extinguished.

RICHMOND, VA., April 10 -Richmond had this morning another fire which produced excitement and consternation throughout the city. The big dry goods establishment store of Julius Meyer's Sons, which occupied almost a quarter of a block on Broad street, together with the stock and fixures, was destroyed completely. The fire originated on the third floor of the building among some mattresses, but from what cause is a matter of doubt. . The flames spread with great rapidity, and when the department reached the scene it was apparent that all it could be expected to do was to protect the surrounding property.

Charred Body Pound. Until 3:30 this afternoon, it was not believed that there had been any casualties but at that hour, a charred body was discovered in the ruins, which proved to be the remains of Mr. R. Emmet Slaughter, manager of the carpet department. How he became entrapped in the burning building is not even a matter of conj-cture. It is a mystery. There are rumors of other casualwis but they seem to be entirely without foundation, as the rest of the four hundred employes are said to be accounted for. One lady,
Mrs. Loose, was injured by a pile of
trunks falling on her. Several others
fainted and had to be carried out and
some were so bewildered they had to be forced out. On the whole, how ever, there was but little panic, and he several department managers kept heir heads absolutely.

The fire was witnessed by thousands of persons. A March gale was pre valling and burning embers were scatt red for a radius of several blocks around. These ignited the roofs of other buildings, and while the big fire was in progress the department had to respond to five or six other alarms. The insurance is—on stock. \$178 750; on fixtures, \$20,500; on building, \$60, 000. The building was owned by

Emanuel Raab. It is regarded as almost miraculous perish, and that, considering the fierce wind, the whole block did not go. At one time it was feared that several women would jump from windows, but they were forced back by depart ment managers and firemen, and made to descend the stairways and fire-

The total loss, as estimated by outside parties, is two hundred and fifty thousand dollars. No estimate has been given out by the sufferers.

PLANT SHUT DOWN.

Because Employes Were Carnisheed for Non-Payment of Taxes.

BIRMINGHAM, ALA., April 10.-The plant of the Dimmick Pipe Company at North Birmingham, employing 200 Constitutional Convention at to day's men, closed down yesterday because a deputy tax collector served garnishments on the employes for non-pay-

ment of poll tax. A large number of the men are from the North, and were not apprised of the Birmingham system of paying poll tax until they found that on notices from a justice of the peace \$5 80 had been held back from their wages to pay the tax collector. The men became indignant and many of them quit work, causing the plant to shutdown. An effort is being made to resume operations to-morrow morn-

VERDICT FOR THE RAILROAD.

A Ticket Scalper's Suit Against the South Carolina and Georgia.

By Telegraph to the Morning Star. CHARLESTON, S. C., April 10.-A verdict for the defendant was rendered in the State court to-day in the case of Henry Caspary, a ticket scalper, against the South Carolina and Georgia railroad, now leased by the Southern. Caspary was ejected from a passenger train because he persisted in purchasing tickets from passengers after he had been warned to stop buy ing. In charging the jury, Judge Aldrich ruled that a railroad had au thority to establish certain rules and regulations regarding the operation of trains and that passengers who vio-

lated such rules were subject to eject-

- Fayetteville Observer: Henry McArden, a young white man, who says his home is in Winston, N C., was arrested yesterday afternoon by Chief of Police Flowers, charged with insulting, ladies on the street and sent to jail by Mayor Cook to await preiminary trial to day. He stopped two ladies on upper Hay street and asked them to kiss him, and otherwise gross y insulted them. It developed later that the young man was insane, and his father has been telegraphed for. - One of the most remarkable accidents that ever occurred in the history of railroading took place about a mile north of this eity this morning. North-bound vestibule train No. 38, A. C. L. pulled out of the station here about 2 o'clock on regular schedule time, and had almost reached the Cape Fear river bridge, when suddenly, and without the slightest warning, both driving wheels of the enormous engine broke off and rolled down each side of the embankment. The two steel rods also dropped. Engineer Donlon took in the situation at once, strange as it was, quickly that no other part of the train was wrecked, and the passengers hardly knew there had been a wreck.

- Monroe Journal: The two safe crackers arrested at Marshville last week were given a preliminary hearing at Morven Friday. They were bound over to the September term of Anson Superior Court, a \$5,-000 bond being required for each. Failing to give bond they were committed to jail at Wadesboro. They gave their names as J. H. Travers and George Elisworth.

IN RICHMOND, VA. The Provisions of the New Act Passed by the Last General Assembly.

Associate Justice Douglas Sick in Greensboro-Chapel Hill Telephone Company Chartered -The Andrews-Marks Marriage.

> [Special Star Correspondence.] RALEIGH, N. C., April 10 .- A full investigation into the provisions of the new corporation law as enacted by the last General Assembly (reference to which was made in this correspond ence recently), develops the fact that Wake county officials were mistaken in claiming that clerks of Superior courts in the State would be deprived of their three dollars fees for each corporation agreement recorded, the change being that articles of agreement must now be filed with the Secretary of State first instead of with the clerk of the Superior court and the Secretary of State certifies the articles down to the clerk of the court. As previously stated, the license tax of \$25 and upwards for each corporation chartered is now payable to the State instead of to the

The new law contemplates a uniform system and gives to the Secretary of State a discretionary power in passing upon and granting charters for corporations which neither he nor the clerk of the Superior Court possessed under the old law. In addition to this each corporation is required to file with the Secretary of State statements of its increase or decrease of capital stock, change of name, change of nature of business and a list of the officers and directors and of general agents. For each of these services the new law requires a tax upon the corporation. It was essential for the sake of uniformity that all this information should be in one office instead of scattered over ninety-seven counties. All private corporations, as well
