PURTLAND, ME., April 31 .- One of the bloodiest tragedies in the history of Portland in recent vears occurred this afternoon on the fourth floor of the building occupied by the New England Tel-phone Company. Tie principal actor in the sffair was George H. Brainerd, a foreman elec

tric an, who has been employed by the company for almost twenty years For some unknown reason and without the sightest provocation, while chatting with his fellow workmen, he whipped out a 38 calibre revolver and opened fire on the party around bim He was evide the au expert marksman for ma brief space of time he killed one man ou right, fatally wourded ano her man and probably fatally wounded two others Then he made an attempt to kill Deputy Marshal W. A Frith, when the officer tried to place him under arrest. The man who was killed outright

was L H. Farnam, of Boston, the electical engineer of the New Eng land T lephone Company. Earl Bux-ton, another victim, died in the hos pual to light Elmer Z Lane, of Mechanic Fal's, and James Wadsworth of L-viston, are believed to be fatally is jured

The only charitable motive that can be assigned for the crime is insanity, yet neither o-fore nor after the tragedv did Brainerd exhibit any marked eyidence of mental derangement. The men in the tragedy were em places of the telephone company and,

excepting M. Farnam, were engaged in tostalling a new exchange system on the upper floor of the building.

TO CONFER WITH THE PRESIDENT.

Arrival in Washington of the River at Cincinnati Above the Delegates From the Cuban Convention.

GEN. WOOD ALSO ARRIVES.

Pormal Reception Will be Given the Delegates by the President-Important Matters to be Arranged-Subjects of Great Importance.

By Telegraph to the Morning Star. WASHINGT IN, April 24 -The commission of five delegates from the Cuban Constitutional Convention, consisting of Domingo Mindez Capote, Pedro E Betancourt, Rafael M. Portuonda, Diego Tamayo, and Pedro Gonzales Lloreuto, who were sent to Wa hington to confer with the Presi dent regarding the Cuban relations with this country, arrived here this morning together with an interpreter and representatives of the Havana press. They were met at the station by Assistant Secretary of State Hill, Assistant Scretary of War Sanger, Captain Sawtelle and Lieutenant Overton of the United States army, ietailed for that purpose, and escorted to the Shersham The delegates con red with the reception committee

was stated hat arrangements for their visit to the President would be made through the War Department. The delegates remained at their hotel nost of the morning, as they were atigued by the long railroad trip from florida Quite a number of officials called, including Assistant Secretary Hill of the State Department and As istant Secretary Sanger of the War Department, who left cards individu

brough an interpreter, though most

of them sp-ak English very well. It

ally for each member of the delega When inquiry was made of Mr. Diego Tamayo, one of the delegates, as to the plans of the party, he answered through the interpreter, Mr. Entenza, that the delegation felt it would be discourteous to enter up in a d scussion of their business before they cailed upon the Secretary of War. Arrangements have been made at the War Department by which the Secretary of War will receive the dele

gation at 11 o'clock to-morrow morning and probably will escort them to he White House about that time. General Wood, military governor the isla d arrived this morning with his family and took apart ments at the Rich nond. He came to the War Department, and had a conference with Assistant Secretary Sanger. He sent his secretary to call on the Cupan delegation to ascertain their desires for the day in order that he might be able to act as their escort. either to the White House or War department General Wood has had no direct information from General Whitside regarding the reported troubles at Santiago, but before he it Caba, he had been advised by Gen. Whits de that party strife was making some trouble in that munic pality and that disorders might be anticipated during the Apring elections in other sections of the island After that.

tranquility of the island will be re-General Wood reached the War De partment shortly after 9 o'clock and after a brief talk with Adjurant Gen eral Coroin was shown into Secretary Roo's office, where a conference re sp cang Cuban affairs was held. Sen ator Platt, of Connecticut, chairman of the committee charged with the care of Cuban affairs, was present; as also was Admiral Bracford, chief of the bureau of equipment, Navy De partment The latter's presence was desired as the location of coaling statiors in Cuba is to be made upon his

recommendation. The Secretary's door was closed to all cellers as soon as General Wood, Senator Platt and Admiral Bradford joined him in his office, though within a few minutes Assistant Secretary Sanger was sent for and joined the con--rence It was understood that Gen Word entered at once into a thorough exposition of the complicated Cuban situation. He was perfectly informed as to the desires of the visiting commission and apprised Secretary Root

of the nature of their erraud. It is gathered that next to the subjects of coaling stations and the right of the Unit-d States to intervene in Cuba in the interests of peace and order, the Cubaus attach most importance to the su ject of sugar duti s. The commission is trying to secure a remission of the United States duty on

Cuban sugar. It is surgested that if this cannot be done at once, then the duty may be removed gradually, reducing a cer tain percentage each year until the

sigar is duly free. The President cannot grant this request, as it involves a change in the tariff laws, and therefore application must be had to Congress. This may take the shape of direct joint legisla tion by the two houses, or it can be accomplished by the negotiation of a reciprocity treaty. The Curans, it is

believed, prefer the latter form. Tobacco, too, is another subject which the Secretary of War will be obliged to discuss with the commissioners, and on that point he wanted advice. The Cabans are extremely desirous of securing a considerable abatement, in fovor of their own to bacco, of the extremely high tariff imposed by the Dingley act upon all imported tobaccos.

After a conference lasting for more than three hours, Secretary Root and General Wood left the War Depart ment together for lunch. It was stated that there was nothing regarding the conference that could be made public, and that the matters discussed covered many subjects in Cuba, not alone the visit of the Capan delegation, but everything connected with the government of the island.

FLOOD SITUATION IN OHIO VALLEY.

Danger Point and Still Rising.

MORE RAIN IS EXPECTED.

More Pamilies Will be Driven From Their Homes Than Anticipated-Flood On the Kentucky Side of the River. Water Up to Tree lops

By Telegraph to the Morning Star CINCINNATI, April 24 -At 6 o'clock to night the stage of the Ohio river here was 57.5 feet, but since 3 P M. the rate of rising was reduced from one inch an hour to almost one half an inch an hour. The stage at 6 o'clock is 7 5 feet above the danger line, and the rate of rising indicated 58 feet after midnight. Although the rate of rising is gradually decreasing, the flood here will exceed the predicted limit of 58 feet. Estimates on the rise that is in sight up the river indicate that the Ohio will not become station ary until to morrow afternoon, when it is not expected to exceed 58 5 feet, or 8 5 feet ab . ve the danger line.

Since it became evident that the stage would exceed 58 feet, there is much stir here to-night, but there is not the usual anxiety, as it is evident that the limit here will be reached before to morrow night. Business men and manufacturers in the bottoms will suffer more than was

expected, and many more families will be driven out of their homes along the Ohio to the south and along Mill Creek valley on the west and along the Little Miami on the east side, then was au ticipated in the earlier preparations. On the Kentucky side the interruption to mills, factories and business is not so great, but in proportion to pop ulation many more have been driven from their homes than on the Ohio

In the Taylor bottoms, between Newport and Bellevue, Kentucky, the water is up to the tree-tops, and the street car lines are compelled to trans fer their passengers for Bellevue and Dayton, Ky. The latter place is gen erally inundated, and owing to a swell in the Licking river it is estimated that about a square mile of Newport is inundated.

The Situation Last Night. CINCINNATI, O., April 24,-The flood outlook in the middle Unio valley is not very encouraging to night. The predicted limit of fifty-eight feet will be passed here and the estimated limits at other points will be more than has been estimated. It is also evident now that when the limit reached in the middle Onio valley it will be stationary for some time and the fall will be much slower than was antic pated, even if there shall be no second rise. This is attributed to rising waters in the Big Sandy, Musk ingum and other tributaries above Cincinnati.

The Weather Bureau man to night shows rains prevailing in the east that may move westward into the Alleghen es and start ano her flood in the Ohio, while its lower tributaries began rising

Mayor Fleischman and other city ffic als made another tour of the flooded districts to day,—arranging for all necessary relief and protection. Fire engines and hose carts have been placed on flat boats ready for any mergency, and the police have patrol

The street railways have adjusted cars for use on the east and west sides for rapid transit across the flooded sections and then transfers are made to the other cars. The motors are raised so as to run through three feet of water.

Only three lives have been reported lost None of the bodies have yet been recovered, and their identity is not

At Louisville.

LOUISVILLE, KY, April 24 -Toe Onto reached the danger line (28 feet) and at 6 p m. was rising an inch an bour. The river is expected to reach 30 to 31 feet The water has reached the business houses.

Boats Fired Upon.

PITTSBURG, April 24.-Steamboat men leaving to morrow for the South will go heavily armed and if their boats are fired on from the shore the crews will return the fire. The killing of W. T. Terry, a carpenter on the Pittsburg and Cincinnati packet Key stone State at Parkersburg to day, has incensed the rivermen to a high degree of anger. Every Ohio river packet and tow boat arriving at Pittsburg this week reports having been fired on by people along the bank, who claim that the waves from the boats endanger their houses during the high water. The matter has been placed in the

By Cable to the Morning Star. PEKIN, April 24.—The international detachment of 800 men, under Col. Radford, which left Shan Hai Kwan to punish the force of Boxers that re cently attacked the Indian troops, killing M.jor Browning, met the nemy in force, killing fifty. Of the international detachment six British, two Japanese and one Frenchman were killed Tae enemy fled into the mountains, but will be closely pursued. The body of Major Browning was

recovered. The Germans have been ordered back from the Pao Ting Fu expedi tion. Their behavior for the last week or so has caused great indignation in Pekin, not only among the Cninese but among foreigners as well. Carts, horses, mules and ponies have been impressed for transportation purposes; coolies have been made to work for nothing, and even educated Chinamen have been impressed.

Tue Chinese say there is intense feeling throughout the province against foreigners, largely because of the harsh treatment the Chinese have received from the Germans.
