By Telegraph to the Morning Star. VICKSBURG, MISS., May 1.-Through the low rich valley of the Yazoo, the presidential special sped southward to New Orleans to-day. Although the President and his party did not reach the train after the big demonstration at the Memphis banquet last night until after 1 o'clock, the President was up early this morning. Several times he appeared on the rear platform and acknowledged the cheers of the crowds at the small stations with a wave of

Among the members of the cabinet the President's speech last night with its pointed allusions to the principle of subsidies as a means of enlarging transportation facilities for the expanding trade of great America, with the brilliant picture he drew of commercial possibilities in the Orient under the "open door" policy in China to which his administration has secured the adherence of the other Powers, is regarded as an exceedingly important utterance, and one which will instantly rivet the attention of the country. His reference to the action of the Tennessee Legislature, which half a century ago claimed that the cotton trade of the Orient belonged legitimately to the South, is considered particularly forceful.

This was the first time a President had visited Vicksburg since the days of Zachary Taylor, and the inhabitants made it one of the greatest events in their history. The party left the train just outside of the city at the National cemetery, which is located on the site of the place where Pemberton surrendered to Grant, at the end of the memorable forty days

It is a beautiful well kept park of eight acres on the side of a bluff under the ruins of old fort Bogales. Sixteen thousand Union dead are buried here. The party drove through the cemetery and from the Grant Pemberton monument obtained a fine view of the Mississippi. Here was pointed out to the President the projected Yazoo canal by which the people of Vicksburg expect to divert the flow of the Yazoo into the Mississippi at this point and restore the harbor lost in 1878, when the river changed its course and almost stranded the city. Thence the party moved into the crowded, flag

gers, on which was the word "Ex-

At the court house square, which was also elaborately decorated, the President was introduced by Mayor Trobridge and addressed fully 10,000 people. His remarks created much enthusiasm

On the way back to the station the President's carriage was stopped to give him an opportunity to address several hundred school children.

Von Waldersee's Reply to Views of the Ministers in Pekin -Authority of the Commander Must Also Extend to the Legation Guards.

By Cable to the Morning Star.

PEKIN, April 30.-Field Marshal Von Waldersee, in the letter which he sent to the ministers to day, as the reply of the generals to the views of the ministers regarding military questions, says a garrison of six thousand men should be left at Tien Tsin and the adjoining district; Great Britain, France, Germany and Japan to con tribute three thousand men each, and Italy one company until the forts are razed. So long as any forces occupy Chinese territory the foreign military commanders must exercise the full authority of civil administration, ac-cording to the principle established at The Hague in 1899. The Chinese may remain in office, as in the case of Pao Ting Fu, and partly Tien Tsin. Be sides the six thousand men in Tien Tsin district, warships, which must always be in the Peo Heo, will pre-serve communication with the interna-

AFFAIRS IN VENEZUELA.

Complaints to the State Department at Washington of Arbitrary Action Against Americans.

By Telegraph to the Morning Star WASHINGTON, May 1.—The State Department's information relative to the legal proceedings in Venezuela in connection with the asphalt controversy indicates that it will be many months before the issue will come to trial in the Venezuelan high court. As there is no diposition exhibited to dispossess the American consession, pending the termination of the legal proceedings, the State Department is entirely satisfied with the maintenance of the status quo as to this case. There are, however, other issues which may change the aspect of American affairs in Venezuela. An attorney named King, representing some of the interests connected with what is known as the Orinoco Faribault concession, has laid before the State Department complaints of arbitrary action on the part of the Venezuela government, and the department has notified that government that it expects just treatment at its hands for American citi-

zens and interests. - Kinston Free Press: Mrs. Susan Allen, wife of Mr. George Allen, of Institute, died at her home Saturday morning at 4 o'clock, after an illness of seven weeks.
