over near where Garrett lay. Then followed an exciting street fight between the madman and officers who came upon the scene. Kelly, flourishing his revolver, dashed through the lumber yard. He met lke Healer, a laborer, and shot him in the hand. A few yards further on he encountered Sergeant Dodge. The two exchanged shots as they ran One bullet from Kelly's revolver struck Dodge in the neck, but not before that officer had shot him in the shoulder. Kelly kept running and was soon confronted by Detective McDonald and Officer Falthager. McDonald dropped Kelly with a bullet in the neck. Dodge raised his revolver but it failed to work and catching up with the mur derer, he crushed his skull with the

volver. Kelly took aim at the phy

sician and fired. The bullet struck

McGee in the spine, and he toppled

Kelly was carried to the station in an unconscious condition, dying soon after his arrival there. Garrett did not regain consciousness and died an hour after being taken to

the hospital. Dr. McGee is still suffering seriously and it is believed he cannot recover. Dodge's wound is not considered fatal, while the wounds of the others are slight.

#### WILL M ET IN SEPTEMBER.

The Schley Court of Inquiry-The Sessions of the Court Will be Open

By Telegraph to the Morning Star. WASHINGTON, July 24 -Secretary Long in accordance with a request from Admiral Schley advised that officer that he would order a court of inquiry to examine into the entire matter of Admiral Schley's course in the Santiago naval campaign. Later the secretary announced that owing to the extremely hot weather the court would not meet until September and that he would turn over his recep tion room to the court. The Secre-

"It is too hot now, and I do not think it would be very comfortable for officers to sit in their heavy full dress uniforms during August. I issued an order some time ago dispensing with the wearing of full dress uniforms during a court martial, but this case will be so important that every form of official dignity will be observed even to the guard of marines at the door. I propose to give the court the use of the large reception room ad-joining my office, which is a convenent and commodious place." Will the sessions of the court be

'Unquestionably" was the emphat-

ic reply. "I propose to make that fact very plain. It would be a great mistake to have a secret court. The country has a right to know all that transpires in the way of testimony offered. Personally I should be very glad to have a court composed of a large number of officers, but the naval regulations restrict me to the selection of three I hope to name the personnel of the court to morrow and this will give the judge advocate and recorder ample time to prepare a list of witnesses who are to be summoned. This list will be necessarily quite lengthy, and it will take some little time to assembe the officers here. I do not believe that the session of the court will be prolonged, because after all, a great deal of the talk over the Santiago campaign Is like the geniis' vapor which can be condensed into a small "Will Admiral Schley be allowed

to name witnesses?" 'Admiral Schley," was the reply "will be afforded every opportunity for the appearance of all the witnesses he may desire. He is also entitled under the naval regulations, to be represented by counsel."

SENATOR JONES' OPINION.

Believes That the Next President Will Be a Democrat.

By Telegraph to the Morning Star SEARCY, ARK., July 24.-In a speech here to day, Senator James K. Jones expressed the belief that the next President will be a Democrat. While he would cheerfully support the board. Present opinion is that the party might isplay wisdom in selecting some discree! jurist or now obscure business man, whose record is faultless. Sena-

### LONG ACCEDES TO SCHLEY'S REQUEST

Will Appoint Naval Court of Inquiry to Investigate Admiral's Conduct.

DEWEY WILL BE PRESIDENT

Correspondence Between Admiral Schley and Secretary Long-Court of Inquiry Will be Held in Washington Sometime In the Fall.

By Telegraph to the Morning Star. WASHINGTON, July 24.—Secretary Long this morning received a letter from Rear Admiral Schley calling attention to the criticisms against him which are contained in Maclay's history of the navy, and the innuendoes which have appeared in the press for ing the court will be issued. Meanseveral days, and stating that in his opinion the time had now come to take such action as would bring the entire matter under the "clear and alm review of his brothers in arms. He asked that the department take such action as was deemed best to

accomplish this purpose.

He also requested that whatever action be taken should occur in Washing ton where his papers and data are stored The secretary immediately decided to comply with Admiral Schley's request and dictated a letter to the rear admiral saying that under the circum stances he heartily approved of his ac tion and that the department would proceed at once in accordance with his equest.

Admiral Schley's Letter.

"Great Neck. L. I., July 22, 1901.-DEAR SIR-Within the past few days series of press comments have been sent me from various parts of the country of a book entitled 'The His | the criticisms of Rear Admiral Schley tory of of the Navy,' written by one Edgar Stanton Maclay. From these reviews it appears that this edition is a of Maryland, a member of the comthird volume of the said history ex- mittee on naval affairs in the last House tended to include the late war with of Representatives called on Secretary Spain, which the two first volumes did not contain, and were in use as text books at the naval academy.

"2. From excerpts quoted in some reviews in which the pages and para graph are given, there is such perver tion of facts, misconstruction of inten tion, such intemperate abuse and de amation of myself which subjects Mr Maclay to action in civil law. While I admit the right of fair criticism of every public officer, I must protest against the low flings and abusive language of this violent partisan oppo ent, who has infused into the pages of his books so much of the malice o unfairness as to make it unworthy the name of history, or of use in any reputable institution of the country.

"I have refrained heretofore from all comment upon the innuendoes of enemies muttered or murmured in secret and therefore with safety to themselves. I think the time has now under the clearer and calmer review of my brothers in arms, and to this end ask such action at the hands of the department as it may deem best to

accomplish this purpose. "But I would express the request in this connection that whatever the action may be, that it occur in Wash ington where most of my papers and data are stored: -

"Very respectfully, "W. S. Schley. "Rear Admiral U S. N. "To the Secretary of the Navy, Washington, D. C."

The Secretay's Reply. Navy Department, Washington, July 24th.—Sir—I am in receipt of yours of the 22nd instant, with reference to the criticisms upon you in connection with the Spanish-American war, and heartily approve of your action, under the circumstances, in asking at the hands of this department such action as may bring this entire matter 'under discussion under the clearer and calmer review of my brothers in arms.'

"The department will at once pro ceed in accordance with your request.

Very respectfully, JOHN D. LONG. Secretary Long acted without consultation with any one and without communicating the request of Admiral Schley to the President. He then called into his office Rear Admiral Crowninshield and Captain Cowles, chief and assistant chief respectively of the bureau of navigation, and also Judge Advocate General Lemly, who has charge of formalities of naval courts. He also sent for Admiral Dewey. Although Rear Admiral Schley did not ask specifically for a court of inquiry, but left the action to be taken to the judgment of the department, the secretary decided that such a court would be the best means of making the investigation which the rear admiral had requested and the three bureau officers were called in for the purpose of discussing the mode of procedure in such cases. After his conference with Admiral

Dewey, who had responded immediately to the secretary's request for an interview, the secretary said that he had not had time to decide upon the composition of the court, but in response to a question as to whether Admiral Dewey would serve upon such a court, if requested to do so, the secre-

tary said: Dewey President of Court.

"Admiral Dewey will do his duty." Although no positive declaration has been made, on this point, it is assumed about the Navy Department that Admiral Dewey will be president of the court which will inquire into the controversy concerning Admiral Schley's action during the Spanish war. There also is an impression that the two other members of the court will be retired naval officers, or at least officers who had no connection with the Santiago campaign. The selection of retired naval officers- would have a double advantage. Not only would they be free from any prejudice growing out of their connection with the department but they would have no fear of future consequences arising from their course while members of

D. B. Hill, of any other man whom the Democrats might nominate, his not proceed with its work until Fall. Secretary Long said to day that it would be unfair to ask a court of inquiry to convene in Washington during the present extremely hot weather for the prosecution of an inquiry craic national committee is likely to which promised to be quite protracted.

The information that Admiral Schley's letter asking for a court of inquiry had been received by Secretary Long, soon spread through the Navy Department, and not since the recent war days has one theme excited such general attention.

No Court Martial. Congress in 1895 established the would not be preliminary to a court martial.

An important feature in the order

## directing the court is that specifying whether it shall state only the facts ound or shall also give an opinion based of the facts Unless the order

expressly requires the court to give heir opinion they are confined to tating the facts found. It is considered quite probable, however, that in a case of this importance, the order would direct the court to record its opinion as well as its conclusion of facts.

Whether the investigation shall be held in open court or not is decided by the court itself unless specified in the convening order. This leaves it optional with the President or Secretary Long to direct that the proceed ings shall be open or closed, but in case no specific direction is given on this point, the court will decide it. When the court of inquiry reaches

its decision all the papers are forwarded to the judge advocate general of the navy, and the final approval or disapproval rests with the secretary of the navy or the President, according to which one has ordered the court.

Personnel of the Court. Secretary Long at the close of office hours to day said that the personnel of the court will be known to-morrow. at which time also the precept coverwhile, there is much speculation as to the members of the court other than Admiral Dewey. The secretary himself says there is no warrant for the announcement of any particular name as he still has the question under advisement. He has been making inquiries during the day as to the availability of certain officers, and it is understood that some telegraphic inquiries have been made of those absent from the city to see if there is any reason why they should not serve. The sessions of the court will b held in the large chamber formerly used as the private office of the Secretary of the Navy and now used as an ante room to the office of the secretary and assistant secretary.

Effort to Remove Maclay. WASHINGTON, July 24.-An effort as been made to secure the removal of Edgar S. Maclay, the author of the history of the Spanish war containing Maclay is a clerk in the Brooklyn navy yard. Representative Sidney E. Mudd Long to day and represented to him the impropriety of Maclay continuing an employe of the government in view of the language of which he made use in referring to Admiral Schley. The

THE STEEL WORKERS' STRIKE Movements of Officials Toward Breaking the Strike-Non-Union Men Sent to

Wellsville to Start Up Work.

secretary promised to give the matter

his early attention.

By Telegraph to the Morning Star. PITTSBURG, July 24.-Two moves. it is reported, were made by the aggressive officials of the American Sheet Steel Company to-day toward come to take such action as may bring the breaking of the strike. One was this entire matter under discussion the shipping of some of the non-union men that have been employed in the Vandergrift mills of the company to Wellsville, to assist in the starting of the plant there. It was stated that the men were to be shipped to Wellsville during the early evening and would reach there after dark. As a consequence of this report there is a suppressed excitement pervading Wells ville, which at any moment may break into a serious condition. Both strikers and officials of the company are on the alert and ready for any emergency. The impression is strong to night that the general officers of the United States Steel Corporation have become determined on the subject of the early breaking of the strike and to ultimately force the operation of all

the idle plants. The second move that is understood to have been initiated to-day is the starting of the long idle Hyde Park plant of the American Sheet Steel

Company. The question of the manufacturers securing injunctions against the Amalgamated Association was discussed guardedly during the day. Those best acquainted with the feelings of the manufacturers say there is in their opinion, little cause for believing that such measures will be resorted to at this time.

BUBONIC PLAGUE.

Mild Case on the Steamer Hohenfels at

By Telegraph to the Morning Star. NEW YORK, July 24.-Dr. Doty, health officer of the port of New York, announced to-day that the illness of Rabivane, the stoker on the steamer Hohenfels, who was sent to Swinburne island on Monday, has been diagnosed as bubonic plague. The He-henfels came from Calcutta. Dr. Doty says the case is a mild one. diagnosis was made by Dr. Doty first and was confirmed by Doctors Geddings and Rosenauf of the Marine Hospital service at Washington. All of the crew of the Hohenfels will be held at Swinburne island for observation; the vessel will be thoroughly disinfected, the cargo will be

said carry the infection. Human Bechives. "In many of New York city's blacks," says a statistician, "there are as many as 2,500 persons gathered together, and in one space of four blocks 500 by 1,500 feet there herd together 10,000 persons, a city in itself. In the borough of Man hattan the number of persons to a dwelling is 23.2, in Philadelphia 5.6 and in

discharged into lighters at the quaran-

tine and sulphur will be burned in

the hold to kill the rats, which, it is

Chicago 8.60. "In the one block between Sixty-first and Sixty-second streets. Tenth and Eleventh avenues, are lodged 3.580 persons in 2,639 rooms, only 1,198 of which have access to the outer air. The west side block is 200 by 800 feet, has a surface area of 160,000 square feet, or 3.67 acres, so its 3,580 of population represents a density of 974.6 per acre. "In the block on the east side bounded bmy Stanton, Houston, Attorney and Ridge streets, size 200 by 300, the population per acre is 1,774. In this Sixtyfirst street block and the two adjoining blocks there reside 2,641 colored persons, 15 more than 11 per cent of the whole

colored population of the city." Not Skillful. Tim Murphy, the comedian, saw an old colored woman sitting under an awning fanning herself when he was in Washington one summer.

"It's dreadfully hot, isn't it, mammy?" asked Mr. Murphy."
"Deed it is, chile," said the old woman-"'deed it is. "Tain't right for it to be so hot this-a-way. I tell you. 40 years ago, when the blessed Lawd made the weather, we didn't have these stewing days, honey, no, 'deed, we didn't; but now these biggety men up at this here weather office has the making of the weather they does send us anything they please, and they ain't skillful, chile, they ain't skillful."

# AFFORD RELIEF.

But High Temperature and **Drought Conditions Continue** 

in the Central West.

INTENSE HEAT IN KANSAS.

**SLIGHT SHOWERS** 

remperature at Kansas City at 104 Degrees and Over-Forty Deaths From Heat at St. Louis-Hospitals Filled With Heat Victims.

By Telegraph to the Morning Star. WASHINGTON, July 24.-Scattered thunder showers in the northern tier of States in the Central West to day gave some relief in that locality from the intense heat. These showers which generally were light in character occurred in the Dakotas, Southern Minnesota, Northwestern Iowa, the extreme northern portion of Illinois, in Minnesota and in Michigan. More showers over a wider area are expected by the Weather Bureau to-morrow. Their effect, however, will be only temporary and warm weather is agai n predicted for Friday. In the great corn belt the intense

heat still continues and there seems to be no immediate prospect of a general rain though the fact that showers are becoming most general than for some days is encouraging to to the officials her who hope they may be the forerunner of a general break up of the heat and drought conditions, although the forecaster will not say this is a probability. For to morrow showers are indicated for the region from the Dakotas eastward and there is a possibility of showers in Nebraska, Colorado, Northern Illinois, Northern Indiana and Northern Ohio. If they come they always bring temporary relief from the heat and their reflex effect may be experienced in slightly reducing temperatures in the southern States of the corn belt. The maximum temperature line of 00 degrees to day again encircled the upper Mississippi valley, lower Missouri valley and the Middle and Lower Ohio valley. St. Louis reported a temperature of 108 and St. Paul one of 104 degrees, both record breaking.

Forty Deaths at St. Louis. St. Leuis, July 24.-Reports re ceived at the mortuary office up to noon showed forty deaths from heat during the last twenty-four hours. The wards of the city hospitals are filled with heat patients; ten new cases were received this forenoon. At noon the temperature was 102, two degrees higher than yesterday.

Severe Day in Kansas City. KANSAS CITY, Mo., July 24.-For twelve consecutive hours to-day the government thermometer here has registered above 100. While the record of 106 of Monday was not touched to day, the day was the most severe ever experienced in Kansas City. For eleven hours after 11 o'clock to-day the temperature ranged between 104 and 1051. Still there is no relief in sight, either in Kansas City or any part of the Southwest. In the past twenty-four hours the only rain reported has been showers at Hays, Central Kansas, last night, and at El Reno, I. T., at noon to day. Five deaths attributable to heat were re ported in the two Kansas cities to-day with a total of over thirty prostrations. Several prostrations are also reported from the country.

LOUISVILLE, KY., June 24.-To day was the hottest day of which there is any record in Louisville, the temperature rising to 107. There were two prostrations. NEW YORK, July 24.-The thermometer at the Weather Bureau in this city registered 87 degrees at 2

o'clock this afternoon. The humidity was 56 per cent. Two deaths from the heat were reported to-day. TOPEKA, KAS., July 24.—The heat record for Kansas has been broken again to-day. At Topeka the government record gave 106 degrees and thermometers in the street registered 110 and 112 degrees. Manhattan reported 112 degrees, Emperor 112; Ottawa 110; Atchison, 104; Abilene,

- Greenville Reflector: During the storm Friday lighning struck the knitting mill. It either struck twice or one stroke moved over considerable space. The water tank that stands 75 feet above the ground had a hole knocked in it. In the main building the telephone and electric light wires were burned out, and a hole was made in the ground in the engine room. The damage was only small. It is fortunate that no work was going on in the mill at the time. - Two young negroes who live on Mr. J. L. Wooten's farm, near House station. were "looking" at a pistol Sunday morning. They "didn't know it was loaded," but in a short while Dr. W. H. Bagwell was sent for to hunt for a ball that had gone in the right breast of one of the negroes. The doctor found the ball where it had gone through the body and lodged in the a fatal shot.

Now a Crase In the Southwest Raised In Preference to Chickens. In southern California, where th hare fad has become a craze as pervasive as the famous Dutch tulip mania, all sorts of fancy prices are being paid for choice strains of imported Belgian hares, says the New York Herald, in which appears the following:

baked beans in New England.

The pelts of the Belgian hares are useful for a variety of purposes, particularly for hats. Careful attention to been secured.

These imported Belgian hares are ex tremely prolific. Commonly 11 litters of young, of two to a dozen each, are born each year to a doe. A pair of hares will live for six or eight years. They are hardy and thrive well in almost any part of this country. They are easily reared. Their provender is plentiful and inexpensive, consisting chiefly of white oats, lettuce, carrots and green food generally. They are very cleanly in their habits and subject

to few allments. In the west many families raise Belgian hares in preference to chickens. These hares do not burrow, so no deep set fences are needed. They are remarkably tame and will eat from the hand of a stranger readily. In consequence they have become great nets with children. A pair may be bought as low as 50 cents and a child of 10 can raise them from infancy. They are as alert and playful as the traditional wild hare of England, but are not suitable for coursing or hunting. Though much larger and heavier than the ordinary hare and with longer legs, they do not scamper with the zest of the wild species. They are fast sprinters, however, as their only defense is their speed, but they do not burrow or double, as the wild ones do, through their subterranean galleries. The largest animal dealer in this city says: "These hares breed so rapidly and cost so little to raise that some of

money.

how much better Belgian hare is."

Bismarck's Iron Nerve Was the result of his splendid health. Indomitable will and tremendous energy are not found where Stomach. Liver, Kidneys and Bowels are out of order. If you want these qualities and the success they bring, use Dr. King's New Life Pills. They develop every power of brain and body. Only 25c at R. R. Bellamy's drug store.

An American Jockey in the Hands of a

LONDON, July 24 -"Cash" Sloan. the American jockey who has been riding in Russia, had an exciting experience at the Moscow races, where e narrowly escaped death at the hands of a furious mob. Bloan had been riding with such continuous success that his mounts always were favorites. On the occasion in question he rode a horse which had no chance of winning. The unsophisticated crowd, however, backed the American's mount as usual; and when he was beaten their indignation boiled over and a raging mob of males and females savagely attacked the jockey who was rescued with difficulty by a military contingent and a powerful

- Statesville Landmark: Lightup dead. —Thursday afternoon lightning struck and slightly damaged Mr. Edwin Tharpe's house near Harmony, Turnersburg township. A rocker was knocked off a cradle in which was a Pope, his son and a negro had finished hauling some wheat and were leading the horses to the house when Mr. Pope was killed. One of the horses was knocked down by the same stroke but the rest of the party were not hurt.

- Fayetteville Observer: Private Secretary to the Governor Col. P. M. Pearsall says the records show that there are in the penitentiary, county chain gangs and jails twice as many persons as there were ten years ago. Why this great increase in crime? In Robeson county where they have prohibition, the grand jury has just made a report stating that crime in that county was so rapidly increasing that it is appalling. In Cumberland, where we have had a dispensary and now have prohibition, the county jail is crowded as it never has been before and Sheriff Burns will probably have to seek some other place to keep the prisoners that will accumulate be tween now and court week. The city statistics also show that crime has in creased in the last three years.

Prevented a Tragedy. Timely information given Mrs. George Long, of New Straitsville, Ohio, prevented a dreadful tragedy and saved two lives. A frightful cough had long kept her awake every night. She had tried many remedies and doctors, but steadily grew worse until urged to try Dr. King's New Discovery. One bottle wholly cured her, and she writes this marvelous medicire also cured Mr. Long of a severe attack of Pneumonia. Such cures are positive proof of the matchless merit of this grand remedy for curing all throat, chest and lung troubles. Only 50c and \$1.00. Every bottle guaranteed. Trial bottles 10c at R. R. BELLAMY'S Drug Store.

and untold suffering, was broken last night by a storm of wind and rain.

- "Do you know, I would give \$500,000 to be a millionaire?" Remarked the visionary philosopher with a self-satisfied smile.—Judge

THE BELGIAN HARE.

Many men and women, too, in the southwest are breeding Belgian hares for market. As a food product, fetching 8 cents a pound, there is great profit in raising hares. The flesh of the imported Belgian hares is firm, white and nearly as tender as frogs' legs or chicken. The original Belgian hares were much coarser in fiber and the meat was reddish. After the Flemish hares were crossed with the red rabbits of England an excellent edible was promptly thrown on the British market. Hares are now the poor man's turkey and beefsteak, too, and "jugged" hare is as common on the other side as

their coats has led to the production of fine, fleecy pelts, and an additional source of revenue for the breeders has

those first in the field must be making "The Belgian hare meat is a cross between venison and mutton. In Germany hares have been an article of food for a long time. They cook them with port or sherry, and the dish is fit

to set before a king. "Many people think hares and rabbits are one and the same thing. These Belgian hares are big fellows, weighing seven or eight pounds. Those who have eaten rabbit stew do not know

CHICAGO, July 24.—There was a diminution of excitement in the grain trade to-day but the weather remained menacing and prices advanced wheat closing 1%c, corn 14@4c and
