Held Up a Stage in Western New York. Rifled Mail Bags and Plundered Express Packages.

By Telegraph to the Morning Star GLEN FALLS, August 14. - News was received here to-night that the Blue Mountain stage was held up by a masked robber about noon to-day at North river. The scene of the holdup cannot be reached by telegraph or telephone to-night from this point, but the following facts regarding the rob-

bery have been received:

"The stage which was stopped con nects with a train which reaches North Creek, Warren county - a station on the Adirondacks and Hudson railroad - at 10.20 o'clock A. M. When it left the station to day it contained seven men and woman besides a quantity of express and mail matter for the Blue Mountain Lake. When the stage was on and a half miles north of Dunlap's hotel, at North river, a masked robber suddenly appeared. His first move was to shoot one of the horses. He then ordered the passengers to hold up their hands and alight. Six of the men immediately took to the woods, the remaining man staying with his wife. who was relieved of \$20, but the robber failed to find a larger sum in another pocket. The robber then proceeded to rifle the mail bags and plunder the express packages, taking everything of value. After he had done work he disappeared into the woods, and searching parties up to dark have been unable to find any All the Southern Portion of the State Covtrace of him."

ALL TRAINS TIED UP.

Heavy Rains at Asheville-A Wreck On the Spartanburg Road.

By Telegraph to the Morning Star. ASHEVILLE, N. C., Aug. 14.-It has been raining in this section almost incessantly for three days and nights, all streams are swollen and rising and repetition of the recent floods is mminent. There was a wreck on the Spartanburg road at Saluda mountain o day. The engine and cars plunged nto a washout. Fortunately Engineer Sullivan was running cautiously and scaped with his life, but sustained painful injuries. All trains were tied up but it is claimed that the trains will be running to Knoxville to-mor-

Multi-Millionaire Secured a Divorce Under the Florida Laws

By Telegraph to the Morning Star MIAMI, FLA., Aug. 14.-Henry M. Flagler, the multi-millionaire oil magnate, has secured a divorce, under the new Florida State statute which provides that insanity of four years standing is sufficient ground for a decree. he case was heard in chambers by Judge M. S. Jones, of the circuit

Former Governor Fleming, Mrs lagler's guardian ad litem, repre sented the defendant, but there practi cally was no defense. Mr. Flagler is 72

SHAMROCK II.

Riggers at Work On the Cup Challenger. A Long Main Boom.

V85

By Telegraph to the Morning Star. New York, August 14 -The skyscraping pole-mast of Shamrock II. was completely rigged to-day, and the bowsprit was placed in position. The acing main boom, which arrived from Glasgow on Tuesday, is in one of the shops at the Erie basin. It is without exception the longest main boom ever carried by any racing craft schooner or single sticker. It is made of steel and is 112 feet long. To-morrow the yacht will be scrubbed and painted. On Friday the will go to Stapleton, Staten Island, where the finishing touches will b put on her preparatory to her trials off the Hook.

STRIKE SITUATION STILL IN A FOG.

Victories On Both Sides, But Nothing to Indicate Ultimate Result.

NO VIOLENCE AT ANY POINT

More Rumors of Settlement-Labor Demonstration at Wheeling-Stirring Appeal From Shaffer to His Followers to Continue Fight.

By Telegraph to the Morning Star. PITTSBURG, PA., Aug. 14.-There were victories on both sides of the great steel strike to day, but they furnish no direct line on the ultimate result of the conflict. The strikers succeeded in finally forcing the Na-

tional Tube Works at McKeesport, minent man. He was formerly a vernor and a senator. August 8th probably the largest individual plant was an encounter at Las Cumin the United States Steel Corporation, to close down. On the other hand, the Steel Corporation re opened the big Painter mill in this city, and also resumed operations with nonunion men at the Crescent plant of the American Tin Plate Company at Dieveland. Two mills were on at the Painter plant, although one of them broke down during the day, and, according to the statement of the officials, half the mills in the Crescent plant were moving. The forces at both plants named are to be increased and the managers claim they will soon have them working in full. They make the fifth and sixth plant which the Steel Corporation has succeeded in starting with non-union men, the others being Wellsville, Hyde Park, Clark, Lindsay and Mc-

Cutcheon.

There was a great labor demonstraion at Wheeling to-day and President Shaffer made a stirring appeal to his followers to fight on. In an interview pefore he spoke he said that if the Western lodges did not heed the final appeal of Assistant Secretary M. F. Tighe and come out, they would be expelled from the Amalgamated Association and their offers of financial assistance spurned. There were no other developments of importance during the day. Locally the strike seems to drag and interest to flag. Large numpers of strikers have gone away, either for recreation or to work, and there has been scarce any excitement, much less disorder. McKeesport and Wheeling are stirred up periodically, but there has been no violence at

either place. Rumor again to-day settled the strike and lent a hand to re-start the stilled mills of commerce. It was related that President Shaffer had acknowledged that he could not win; that the eel corporation feared that its rivals would profit by any extended strike, and that they were going to settle. No shadow of confirmation of the story was possible. The general situation is

thus briefly summarized: "The spread of the strike at McKeesport and Wheeling has brought the number of men who answered the final strike order to something over twenty thousand and increased the otal number of men rendered idle by he three orders to about 65,000. Many of the men drawn into the movement, willingly or unwillingly, continue to accept other employment and the exact number now idle is a guess. The strikers are fully in control at Mc-Keesport, Wheeling, Newcastle, Bellaire, Mingo Junction, and show strength here. The manufacturers hold South Chicago, Bay View, Joliet, Youngstown, Columbus, the Kiskim inetas valley, the tin plant at Mones sen and the Carnegie group. Of the last named property some doubt is expressed as to the lower union mill in Pittsburg. Some men have left their places there and the strikers boast that they will close it down. It is running, however, and the managers say it cannot be stopped. Desertions from the ranks of the strikers are reported from Painter's mill here and the Crescent Plant in Cleveland, and the managers say that it is only a question of time before there is a general break.

FLOODS IN ARIZONA.

ered With Water-Damage to Property Enormous.

By Telegraph to the Merning Star.

EL PASO, Aug. 14.-All the southern portion of Arizona has been practically covered with water for many days and the destruction to property, especially to railroads, has been enormous. The Southern Pacific and the smaller mineral roads have suffered many washouts. The "Burro" road, that runs from Benson to Nogales, has been unfit for use for several weeks, and nearly every day fresh floods come that destroy parts of the track. In all over ten miles of the track has been swept away, and the company has all its surplus help at work repairing the damage. The El Paso and Southwestern road have suffered severe losses be tween Benson and Bisbee, and a dozen bridges has been swept away. The Maricope and Phoenix railroad and the Arizona and New Mexico have lost a great deal of track and trains are very irregular.

NEW TRANS-ATLANTIC SERVICE. Steamships to Cross the Ocean in Pour

and a Half Days. By Cable to the morning star. LONDON, Aug. 14.—The House of Lords took an unusual step this morning in suspending the se-sional order with the object of passing on its second reading the bill granting special powers to build a pier and other works at Berehaven, in Bantry bay, Ireland, in connection with the proposed fast steamship line from Berehaven to the United States, by which it is hoped the voyage will be accomplished in

four and one-half days. The bill has already passed the House of Commons. derable excitement has been caused in shipping circles here by the plans of the new trans-Atlantic service mentioned in the House of Lords to day. The skippers have been taken somewhat by surprise. They generally express the opinion that the projected line will be equipped with turbine engines.

Working Night and Day. The busiest and mightiest little thing that ever was made is Dr. King's New Life Pills. Every pill is a sugar-coated globule of health that changes weakness into strength, listlessness into en-ergy and brain fag into mental power. They are wonderful in building up the

health. Only 25 cents a box. Sold by R. R. BELLAMY, druggist. The London Daily Mail, reviving speculation as to the date of Lord Kitchner's return from South Africa and as to his successor, says it understands that he will return to England about the middle of next month, Lieutenant General Lyttleton assuming the chief command.

THE KISS.

liss not my mouth, for it has smiled a lie! Kiss not my hands, for they have wrought Kiss not my throat; 'tie swollen with a sigh. My hair ah, never hair was worth your kiss! Nay, nor my eyes! They sin and have sinned

My feet have wandered paths too dusty blown. But kneel and, kneeling, let your two lips touch, With just one falling kiss, my knees alone! For they have pressed the carpet when I knelt. (I have prayed sometimes!) If my soul were Ah, give them that one kiss I never felt,

And I—I'll kneel and pray your name tonight.
—Post Wheeler in New York Press.

THE CROWD WAS EASY.

And So Was the Sympathy Dodge With Which It Was Worked. A woman in deep mourning and apparently in distress attracted a crowd of belated citizens on Eighth avenue and Sixteenth street at 2 o'clock in the morning one day last week. She was young and good looking. She stood close to the rails of the down town track and looked up and down the pavement as if in search of something. She was nervous and said

repeatedly: 'What shall I do? What shall I do?" A dozen young men lit matches and joined in the search. They were unable to find anything. One asked what she had lost.

"Oh, I've lost my pocketbook!" said the woman. "It contained all the money I had, and I don't know what I shall do. Then she began to weep. "It's too bad," said some one sympathetically. "How came you to be so un

"I alighted from one of these Eighth avenue cars, and just as it was about to start I discovered that my purse was missing. The thought occurred to me that I might have left it on the seat, and I shouted to the conductor to stop the car. He refused, but flung something at me which I believe was the pocket book, and the car was soon out of sight. I thought that I would be able to find it but it does not seem to be around anywhere. I would not mind it so much on ly it contained a little ring belonging to my dead child. Now I have nothing to remember her by." One man at once said he would pay

her fare home. Another offered to hire cab, while another proposed to complain of the conductor for his rudeness if she could only remember the number. The woman began to lament and weep again. A tall, well dressed man wearing eyeglasses broke through the crowd and spoke to the woman. "What has happened?"

"Oh, nothing," she said; "only I've been very unfortunate. I have lost my pocketbook and am penniless. It is not that I care about so much. It is my dead baby's ring which I lost with it that wor-The man, without listening further, delved down into his inside pocket and produced a card. He handed it to the

woman and said: "This is my business address. Call on me tomorrow. I have influence with the Metropolitan Traction people, and I will see that this conductor is punished. Here, accept this \$5 bill. It is the smallest I have. It will tide you over till tomor-

Here he paused and turning to the crowd continued: "Gentlemen, I am o scription for this poor woman. She is unfortunate and deserves your assistance. The same thing may happen any night to your wives, mothers, sweethearts or even your own children. Now, who will help her out of her predicament? You see I have contributed \$5, although I am not millionaire."

Quickly dimes, quarters and halves were subscribed, and in a little while more than \$7 more was collected. The money was turned over to the woman by the man with the eyeglasses. The woman was profuse in her thanks and bidding her benefactors "good night" boarded an up town car and rode away. A reporter who had observed the whole proceed-ings thought he would watch the man with the eyeglasses. The latter got on the next car, and the reporter followed. The man with the eyeglasses got off at Fortysixth street and joined the woman, who was waiting at the corner for him. The pair greeted each other effusively and then walked arm in arm toward Broadway. As they went along the reporter heard this: "Say, those guys were dead easy. Why, it was the softest graft I ever struck. We got about \$7. Say, this is easier than stealing, and I guess we can make enough to keep us in luxury for a

couple of months." "Yes, they were easy. Let us strike Broadway. We may catch another lay before we go home."—New York Sun.

VALUABLE PEBBLES. Precious Stones That Come In the Form of Gravel. Did you ever search for unusual peb bles? Nearly everywhere there are semiprecious stones to be found in the com-

mon gravel, but few people know how to

look for them, says the Cincinnati En-Jasper is red, mottled with every color of the rainbow, but not transparent; carnelian is red, of many shades, trans-parent; chalcedony is white or gray, transparent and rather soft; rock crystal is white and transparent. Make your pebbles wet, hold them up to the light and, if you can see through them, they are, according to color, carnelian, chalcedony or rock crystal. If there are no flaws, these pebbles are worth cutting for

ornaments. Now, if the pebbles are banded black and white or brown and white, with the white bands transparent, that is onyx, a valuable stone used for cutting into cam eo gems. If the pebbles are banded in red, white, gray or any other colors, they are agate. Some agates are banded of a dozen different kinds of precious stones, others are like clear glass, with beautiful mosslike or treelike markings, and moss agate is worth money. Jet is a soft, opaque, black stone, which was once the sap of the pitch pine, but has turned into a fine variety of cannel coal. Fragments of fossil pine trees are always found

with the jet. Hundreds of tons are used for mourning jewelry. None of these stones are so precious as the topaz. Pebbles of topaz may be known because they are very clear yel-low. The darker kinds are known as smoky quartz. Another class of lovely gem pebbles are the common amethysts, ranging through every possible shade of purple and violet. Garnets appear as deep red, transparent crystals, stuck in the rock and looking at first sight like

the heads of rusty nails. Had Good Practice. Some time ago a small farmer in Lincolnshire village took two of his children to the parish church to be christened. Former youngsters from this house had been regular howlers. The affair went off so well that his reverence called the proud parent to one side and said:

"How well the children have behaved. The reply rather staggered his rever ence. It was: "So they ought, sir, for Jack, my other boy, has had a bucket of water and has been practicing christening 'em every day NAVAL STORES MARKETS. for the last week."-London Fun.

How Tom Moore Found Jefferson. When in America, the Irish poet, Thomas Moore, was presented to President Jefferson. He was amazed to find the author of the Declaration of Independence "sitting in a homely costume, comprising slippers and Connemara stockings." So gracious was Jefferson's manner, however, that Moore afterward spoke of the short visit as "an event not to be forgotten."-Success.

A generation ago sugar constituted nearly one-fourth the grocery trade of the country, but today, owing to the wonderful increase in the trade of canned mode and grocers' specialties, the staple occupies a greatly inferior rank, its sales being perhaps no more than one-twen-tieth of the total sales of groceries.

A Savannah dispatch says: Stella and Gertrude Ambrose, daughters of Pilot Andrew Ambrose, were drowned while bathing in the surf off Euber's Point, Tybes Island.

Hobson's Choice.

How many of us who use or hear the familiar expression, "It was Hobson's choice," are acquainted with the real sort of selection that Tobias Hobson offered his guesta? This is the gannine version of the tale: The said Tebias Hobson was a Cambridge innkeeper, with 40 horses in his stables, some better, of course, than others. When a traveler came to request a mount, he was obliged to take the steed that stood nearest the door, although there were so many others advertised as for hire. If the traveler objected to that mount, all he could do was to wait until some other traveler had come for one and so removed this and left its next door neighbor nearest the stable

An Unexpected Retort. Where," asked the female suffrage orator, "would man be today were i not for woman?" She paused a moment and looked around the hall. "I repeat." she said, "where would man be today were it not for woman?"

"He'd be in the garden of Eden eat-

ing strawberries," answered a voice

from the gallery .- Boston Traveler.

- Newbern Journal: No trace of the ten prisoners that escaped from Oraven county jail Sunday afternoon has yet been seen. The reward offered by Sheriff Biddle has stimulated search but without results. It is believed that all have gotten away o a considerable distance, but most of

them are believed to be in the section

between here and Goldsboro.

The Navy Department has received a telegram announcing the death at the Yokohama hospital of Commander Frederick M. Wise. He died of heart disease. Commander Wise was in command of the old Monocacy when that ship was fired upon by the Taku forts in the early stages of the Chinese
