PROTECTION OF WORDS.

A Plea for a Rest For Our Familiar Words. In these days when everybody is writing and everybody seems to succeed would it not be well to start a society for the protection of words and phrases? Many of these are so brutally overworked by the amateur that the words, which were at first the thoughts that breathe, the telling phrases, do they not clamor loudly for a rest? That very sentence affords an illuminating example of what I mean.

Every Local Union Resolved to Remain on Strike Until Granted Concessions. No Increase in Payment of Coal. No Violence Reported.

By Telegraph to the Morning Star. WASHINGTON, Oct. 8.—For more than six hours to-day the people in Washington hummed the chorus of the old civil war song, "Tramp, Tramp, Tramp, the Boys Are Marching," and for an equal time the veterans constituting the Grand Army of the Republic made good the claim. The parade was the climax of the thirty-ninth anniversary of the battle of Antietam.

More than five hours' time was consumed by the procession in passing the reviewing stand in front of the White House. There were at least 25,000 men in line and the command of Commander-in-Chief Tamm ran as high as thirty thousand men.

LESS CHEESE IN CANADA.

At a meeting the Montreal Dairy and Cheese association a resolution was adopted authorizing a circular to the dairymen of Canada strongly advising them to turn their attention to butter more generally and to discontinue the manufacture of cheese entire each year for Nov. 1. The reasons for this course are that fadder cheese is the market reduces consumption, and it is only grass cheese that are of a quality sufficient to increase demand; that the consumption of cheese is diminishing, while that of superior creamery butter is increasing; that the price of butter is higher on an average all the year round than that of cheese; that the manufacture of butter is more profitable than cheese. These are all good reasons why the Canadian dairymen should make less cheese and more butter.

Blown to Atoms.
