The distance was fully two miles, but the rig on the other side was fully half a mile from the bridge, coming slowly. He might make it.

Now, for instance, a man in a restaurant the other day ordered broiled mackerel, and he ate it with great relish, loudly declaring that broiling is the only way to cook mackerel. But was his mackerel broiled? Not much. It is too much trouble to broil a fish, so the cook put it in a pan and fried it and then made burned lines across it with a redhot poker kept in rendiness for such emergencles. So the man was 'hornswoggled:' but, as he didn't know it. he was as happy as though he had really eaten broiled mackerel. I tell you, imagina-

A Purse For the Bride. Some brides may be inclined to regret that the old marriage custom of the dow purse has fallen into disuse. It was the custom of the bridegroom to fill a purse with a goodly sum of money and present it to the bride on the wedding day as the price of the purchase of her person. It sounds like slavery, like the buying of goods and chattels, yet the bride had a nice little sum of money for her own use. Some of the oldest inhabitants of

Cumberland may remember a similar custom in that county. The bridegroom provided himself with a number of gold and silver pieces, and at the words "with all my worldly goods I thee endow" he handed the clergyman his fee and poured the other coins into a handkerchief held out for that purpose by the bride.

In other places, again, the bride had the right to ask ber husband for a gift of money or property on the day after the wedding, and he was bound in honor to grant the request-London Answers.
