Non-Union Teamsters Attacked by the Strikers - Police Porced to Draw Revolvers to Disperse a Mob.

By Telegraph to the Morning Star. KANSAS CITY, Mo., March 11.-Violence entered into the strike to-day of 211 drivers employed by the fourteen transfer companies of the city who went out this morning for increased wages and recognition of their union. Perhaps half a hundred men were employed during the day to take the places of the strikers, though but little work was accomplished by them. During the afternoon strikers and their sympathizers gathered in large numbers at several points in the west bottoms and held up wagons driven by non-union men. At the Burlington freight depot the police were forced to freight depot the police were forced to draw their revolvers to disperse a crow that had cut the traces of teams hitched to two loaded wagons. At another point George B. Evans, an employe of the American Express Company Company, in attempting to disperse a crowd that was throwing stones at a driver, fired a shot in the ground. N. N. Latin, a striker, made a move to draw a knife when both men were arrested. Mrs. Evans, wife of the man arrested, struck with a whip the leaders of a crowd that interfered with the course of a wagon on which she was riding. Later, Mrs. Evans took charge of a wagon belonging to the Swofford Dry Goods Company, and unaided drove the team through the crowd. Her

progress was not interrupted.

In Mulberry street, between Ninth and Tenth, during the afternoon a crowd blockaded the thoroughfare and threw stones at the non-union drivers. Much excitement prevailed and the police were kept busy.

AN ELEVEN ROUND FIGHT.

Joe Gans the Winner in the Battle With Steve Crosby at Hot Springs. my Telegraph to the Merning Star.

HOT SPRINGS, ARK., March 11 .-After an eleven round fight to-night with Steve Crosby, of Louisville, Joe Gans, light weight champion, successfully defended his title after doing most of the fighting and showing a the levees, and all Louisiana is praymost of the fighting and showing a clear manifest in every detail. The two m men weighed in at 134 pounds. Tommy Ryan, the middle weight champion, was referee, and "Honest" John Kelly was time keeper. The fight was a Gans affair from the beginning although there were times when Crosby showed in form. The latter's hugging tactics not only saved him from early defeat but brought out hisses from the spectators. In the eighth round Crosby was knocked through the ropes. He was repeatedly knocked down and when, in the eleventh round Gans was punching the Louisville black all over the ring, the latter's seconds threw up the sponge and Referee Ryan gave Gans the

THE TOBACCO TRUST.

Stockholders' Annual Meeting-The Net Earnings for the Year. By Telegraph to the Morning Star.

NEW YORK, March 11.-The annual meeting of the American Tobacco Company was held to-day in Jersey City. The old board of directors was re-elected with one exception, Charles N. Strot being chosen to succeed Thomas F. Jeffries, of Richmond, Va. After deducting all charges and expeuses the net earnings for the year were \$7,450,574. The stockholders of the Consolidat-

ed l'obacco Company also held their annual meeting to-day. The old board of directors was re-elected. The re por of the assistant treasurer showed nr. earnings of \$13,291,459.

The annual meeting of the Continental Tobacco Company was also he d to-day when the old board of directors was re-elected. The treasurers report showed net earnings, after deducting all charges and expenses, of

RIOTING STUDENTS.

A Pierce Fight Between Preshmen and Sophmores at LaPayette, Ind.

dy Telegraph to the Morning Star. LAFAYETTE, IND., March 11 .- The flercest fought battle in the history of Purdue class fights occurred here tonight when live hundred freshmen bombarded with stones and clubs Columbian Hall, where the sophomores were in session at their annual hanguet. They stormed the stairs and succeeded in temporarily breaking up the gathering. This was not accomplished until shout twentyfive freshmen were more or less hurt A riot call was sent ir, but the score of police who responded were unable to pandle the crowd of rioting students. Not until the city fire department was called out and two streams of water were brought into play did the freshmen disperse. Most of the students' injuries were received at the hands of the police, who charged the crowd with their clubs.

PROP. E. H. STROEBEL.

A Southern Man Appointed Legal Adviser to the King of Slam.

By Telegraph to the Morning Star. CAMBRIDGE, MASS., March 11.-Professor Edward Henry Stroebel, professor of international law at Harvard. personally confirms the report of his appointment as legal adviser to the King of Slam. Although at present on leave of absence from the law school, that leave has been extended for ten years. He is preparing to depart for the East.

Professor Stroebelds a Southern man by birth, and is considered an authority in international law. He was third assistant secretary of state in the second Cleveland administration and has been minister to Chili and Ecuador.

THE COPPEE TRADE.

Large Shipments Belog Made from Vera Croz to New York.

By Telegraph to the Morning Star.

VERA CRUZ, March 11. - Large shipments of Mexican coffee are going from this port to New York. The steamer Havans, of the Ward Line, carried a record breaking cargo of 1,350,000 pounds of coffee, and the Esperanze, of the same line, will leave for New York with nearly an equal amount. Developments in the coffee market have convinced merchants here that there is no immediate hope for a rise in prices, but on the con-trary, the tendency will be lower and they are making all haste to unload their surplus.

FLOOD CONDITIONS MORE ALARMING.

Rise in the Mississippi and Its Tributaries Progressing at an Increased Rate.

THE SITUATION AT MEMPHIS.

Part of the City Under Water-Work on the Levees-Thousands of Acres of Land Covered With Water-People Driven from Homes.

By Telegraph to the Morning Star.

MEMPHIS, TENN, March 11.-The Mississippi river is rising steadily at this point, the gauge this morning marking 35.2 feet. This is a rise of five-tenths of a foot in the past twenty-four hours. It is believed that the river will reach a mark of 38 feet at Memphis.

Reports from Mississipp iand Arkan-sas to-day indicate that the gravest apprehensions prevail regarding the flood. In some districts armed sentries are patroling the levees. All the streams and rivers in Arkansas are In North Memphis the flood has

already begun encroaching at certain points and it will take but a few inches more of water to render work impossible at many of the lumber industries in that section of the city. At Greenlaw and Second streets, the back waters have reached the latter thoroverse oughfare. The occupants of cabins there have been compelled to flee to higher ground.
The steamer Georgia Lee arrived

from Cairo to-day and reports all land-ings to be in a bad condition. The steamer's officers say refugees from the lowlands are to be seen everywhere. The government engineers have augmented their forces and the steamers are carrying sacks of sand and other supplies to the more danger-ous places in the levee system. At New Orleans.

NEW ORLEANS, March 11.-The river is rising here very slowly. The most unfavorable condition at present ing for a return of sunshine. Six hundred men are at work to-day at various points along the river front sacking weak points and raising the line of embankments. All the levee boards of the State are practically in continuous session and every foot of the levee on the river and on its tributaries is under survelilance. Critical Flood Point.

CARUTHERSVILLE, Mo., March 11.— This city, containing 2,300 inhabitants, is threatened with destruction by the flood. An old levee which is causing the city and the swellen Mississippi. Government engineers regard it as the most critical flood point along the river. Four hundred men under Engineer Kilpatrick are working desperately at building a new levee. The Ohio River.

EVANSVILLE, IND., March 11.—The Ohio river reached 42.4 feet this morning with a further rise predicted. Several shanty boats on the Wabash and Green rivers have been crushed in the flood, and loss of life is feared. Farmers about Mount Vernon have fled, taking their household goods and live stock.

In the White river bottoms as far as

the eye can see fields are covered with water and thousands of acres are inundated. Houses are vacant, the occupants having been forced out by the water. White river is still rising. Residences Swept Away.

NATCHEZ, MISS., March 11.-A re port reached here to-day that the Texas and Pacific railroad embank ment at Bougre, in lower Concording Parish, about thirty-five miles south of Vadalia, had broken, but Sheriff Gillespie of that parish could not verify the report. This embankment is fifteen feet high or three feet higher than the high water stage of 1897, and is a new levee. To appreciate the force that would be necessary to break this levee it is stated that the average base of a fifteen foot levee is one hun-dred feet through. Officers on the mail steamer Betsy Ann are authority for the statement that frame buildings in the lowlands have been washed away. Residences have been torn from their foundations and some have been caught and held by the trees.
The owners and occupants were glad
to escape with their lives. Deer, bears
and other animals have been driven to the high lands and are being slaughtered in large numbers. The weather is threatening. The river gauge is

46.8 being 2.5 above the danger line and rising.
NEW ORLEANS, March 11.—The government, State and city authorities are inspecting levee lines and preparing for emergencies. They all admit that the river will likely break all records before it quits rising, but the levee system is higher and stronger, and they claim it will withstand the extra

MEMPHIS, Tenn., March 11.-A teleram was received to-night which gives a more hopeful view of the levee situation at Caruthersville, Mo, where the embankment is threatened by the caving of the river's bank before the levee. The telegram is from Assistant Engineer Kilpatrick, who is in personal charge of the work at that point. The telegram says that the caving of the river bank in front of the first levee has necessitated its abandonment and that the second levee is now relied upon alone. Assistant Kilpatrick says that the second levee will stand a further rise of five feet if no further caving of the banks occurs. The river to-night registers 35.4 and is rising. This is an advance of only two tenths since this morning. All incoming boats from both directions

are bringing numbers of refugees. Reports from Missouri, Ark., say s by water which has escaped under the embankment. The report says this flooded area extends back several miles from the embankment and that

it has been practically abandoned by all families living in the territory. Levees Holding Well,

VICKSBURG, MISS., March 11.-A conference of levee engineers and you of seeking my h freight officials of the Valley road was held in this city to-day. The levee men urged the railroad men to give a big shipment of sacks and other materials the right of way from New Orleans. This material is very much needed for strengthening weak places in the embankments along the Lou-isiana side in the parishes of Concor-dis, Tensas and East Carroll.

E. O. Tollinger, assistant general en-gineer of the Yazoo-Mississippi board, says that all the levees are holding splendidly, the steady rains of the past few days being the most serious cause of alarm. These rains have greatly weakened new work. However, he is confident that with close watching all danger points can be held. The Florence and Columbia, United States mag boats, the Arthur S. Hider, of the State Levee Board, and the Colonel Potter, have been placed at the disposal of the levee boards for patrol duty. The two snag boats will be

held here with steam up for dispatch at a moment's notice to any point of THE COLOMBIAN

The water is rising steadily here at the rate of nearly half a foot every twenty-four hours, the gauge register-

flood in Texas.

ORANGE, TEXAS, March 11.—There was no improvement in the flood situation to-day, though the levees and flood-gates which have been constructed render the chance for the town being inundated much less. Reports from the upper portion of the Sabine are to the effect that there has been a very heavy loss in cattle on both the Texas and Louislana shore. The whole country is under water as a re sult of the backing up of the small streams and heavy rains.

Weather Bureau Bulletfo. Washington, March 11. — The Weather Bureau this afternoon issued the following special river bulletin:
From Cairo to Helena conditions
have become slightly more threatening since Tuesday. The rise is progressing at an increased rate and thirtyeight feet of water is expected at Memphis by Sunday or Monday. A stage of thirty-nine feet is not improbable and precautions should be made for that stage. The White river has continued to rise rapidly, while the Arkansas is also near the flood stage, and the effects of these waters will be felt in the main river within a short

time. Below Helena the rise will continue steadily and maximum stages will probably be reached as follows: Kanas City, 51 feet; Greenville, 46 feet; Vicksburg, 50 feet.

several days.

A Parisian Colffure. Hairdressing has many fancies, yet most of them are revivals from picturesque styles of long ago. Long curls and other vagaries are indulged in by the youthful, and little innovations to

LOW COIFFURE WITH PARISIAN ENOT. suit the individual style are permis-sible to every one. A charming Pari-sian confure is constructed with a knot, which may be low, as in the cut, or may be set higher on the head. The hair is softly waved in the popular style, with a dip in front. Rich side-

combs in shell and gold add to the gen-

eral effectiveness.

Some Men Think They Fathom but They Are Mistaken. A man can very seldom tell what is passing in a woman's mind. He talks with another man, and he can follow his processes; he gets his point of view; he can read between the lines; he can make a shrewd guess as to how, he came to say that or why he refrained from saying the other, says the Watchman.

But a woman's mental processes are not those of a man. Her mental machinery is geared differently. You hear what she tells you. You can make inferences from it. They will be wrong because you do not know how she came to say what she did; you do not have the clew. Try to guess what she will say next, and you will find that you are all at sea.

The man who says that he understands woman is himself a woman. No man can understand a woman, He may love her. There may exist the tween his soul and hers that indefinable and celestial sympathy valid is the sweetest thing on earth, but he does not understand her.

Her mental operation, her ways of thought her pointed glew, will all ways be as inscrutable to him as the mental processes of an angel. Whether would en understand, each other is not quite certain. A greater part of the delight that men find in the companionship of women arises from their inscrutability. You cannot measure prexhaustaher Their charming inconsequence, as it seems to you, will never rease to puzzle, you, and every fresh conversation reveals a hovelty of attitude or opinion.

A Momentous Game, "How is your story going to end?" asked the publisher, who had dropped in to see the gifted author. "That will be decided by the poker game I'm going to play this evening," said the giffed author. "If I win, the story will est with the hero and heroine marrying and everybody happy. If I lose, I shall killsoff the hero send the heroine to a numery and fill the last chapter just as full of misery as it can stick — Chicago Tribune.

His Only Chance. Kindly, Old Gentleman—Wity do you carry that umbrella, little boy? It's not raining. "And the sun's not shining?"

"No, str." "Then why do you carry it?" "Well, when it's raining pa wants it, nd when the sun's shining ma wants it and it's only this kinder weather. I can get to use it at all."-St. Louis Globe-Democrat.

She-When you go to ask papa, the first thing he will do will be to accuse you of seeking my hand merely to be-He-Yes? And then-"And then you must agree with him.

He's a lot prouder of himself than he is of me."

The Old Standard

of merit appeal to you?

CANAL TREATY.

Senate Will Probably Take a Vote on the Measure Some

Time Next Tuesday. AGREEMENT WITH MORGAN.

Democratic Senators Will Urge Amendment to 23rd Article, Relieving It of All Question as to Right of U. S. to Control the Canal.

By Telegraph to the Morning Star. WASHINGTON, March 41.- Decided progress was made to-day towards reaching an agreement for a vote on the Colombian Canal treaty, and when the Senate adjourned a few minutes before 4 there was a general understanding that to-morrow, in all probability, some hour next Tuesday would be definitely agreed upon as the time when a vote should be taken upon the treaty and all amendments. All statements to this effect were, however, accompanied by the announcement that here were yet some details to be arranged, leaving it impossible to absolutely conclude the agreement before to-morrow. There is, however, no doubt in the minds of leading senators

that the vote will be taken on Tuesday. The Mississippi below Vicksburg and the Atchafalaya will continue to rise for the next three or four weeks, while the Red below Shreveport and the Cuachita will continue to rise for lations has come to be on iterms of great intimacy with the Alabama Senator. No other senator has so far shown any disposition to delay the final disposition of the treaty so that all that was necessary was to secure Mr. Morgan's assent to taking the vote. The negotiation was begun early in the day, and after Senators Frye and Morgan had been closeted for some time the latter sought out Sena tor Gorman and talked the situation over with him. The result of these

and other conferences was the an-

nouncement at the close of the day's session of the strong probability of vote on Tuesday. Senator Morgan exacted consent to the printing in the Congressional Re-cord of the remarks which he has prepared, giving his best recollection of speeches he has made in the executive sessions of the Senate on the treaty. These speeches are contained in the pamphlets sent to the senators yesterday by Mr. Morgan. They have been read by a number of Republican senators who say they find nothing objection-able, and that there is no reason why they should not be printed except that they bear upon a treaty, which is always considered secretly. They generally, however, advise that permission be given to print, in order to save time, which they consider now more

enatorial eliquette Democratic senators have practically agreed unanimously to urge an amendment to the 23d article of the treaty, relieving it of all question as to the right of the United States to control the canal and they express confidence in obtaining some Republican votes for it. Many senators also express the conviction that the change in the treaty committing the United States to a policy of non-acquisition of Central American territory should be eliminated as entirely out of place. The indications are, however, that the treaty

important than the conservation of

will be ratified without modification in any particular. The agreement made to-day does not bear upon the Cuban treaty in any respect except that it opens the way for its early consideration in the Senate and the Committee on Foreign Relations will meet to-morrow in order to take it up with a view of reporting i to the Senate, The Democrats will make an effort to consider the Cuban treaty both in committee and in the Senate, so as to require action by the House, and they also threaten to an-tagonize it with the French reciprocity treaty which is quite objectionable

to many Republican senators. indications, however, are that the Cuban agreement will soon be reported by the committee. That it will have such smooth sailing in the Senate is not quite so certain. Four or five Democratic senators are favorable to it, but while there is only one Republican senator who has announced his intention to vote against it there are a number who are indifferent to its fate. It appears now as if it would be difficult to hold a quorum of the Senate in Washington while the treaty is under consideration. If a quorum cannot be held it will be impossible to secure its ratification, for there is sufficient opposition to require this conformity with the rules of the

Senator Morgan continued his remarks in the Senate to-day in opposi-tion to the canal treaty, but most of the time was given up to the reading of documents by the clerk at Mr. Morgan's request. The few remarks made by him related to the unsanitary con-ditions of the vicinity of the Panama canal and to the division of the money to be paid to Colombia by the United

The Guatemala and Mexican extradition treaties were ratified. The understanding among members of the Committee on Foreign Relations is that none of the reciprocity treaties before the committee should be reported for consideration this session, and that the Cuban treaty will be the last to receive the attention of the committee for the present.

NATIONAL CONVENTIONS.

St. Louis Will Endeavor to Secure Both In Roxbury, Mass., Post the Democratic and Republican.

By Telegraph to the Me ning Star.

WASHINGTON, March 11.-Representative Bartholdt, of St. Louis, told the President to day that St. Louis would endeavor to secure both the Republican and Democratic na-tional conventions next year. "It will be world's fair year in St. Louis," said Dr. Bartholdt, "the greatest year in the history of the city, and we will be able to offer such at tractions to the national convention as never before have been offered by any city." President Roosevelt, of course, is taking no part, and told Dr. Bartholdt he would take no part, in the selection of a place for the holding of the Republican national convention. Representative Bartholdt dis-cussed with the President some of the arrangements for his visit to St. Louis at the time of the dedication of the Exposition grounds on April 30th.

COTTON MARKET ACTIVE.

Prices Advanced But Later Broke Badly

and Closed at Lowest of the Day. By Telegraph to the Morning Star. NEW YORK, March 11 .- The cotton market early was active and higher on sensational reports regarding rising waters in important territories in the cotion belt. Prices rapidly advanced, with May selling up to 10.02, which was a rise of fifty points from the low figure of yesterday. Later in the session prices broke badly under active realizing, fears of tight money in Wall street, clearing weather in the South and rumored pool liquidatioa. May dropped from 10.02 to 9.80. Toe market closed weak, with prices at the lowest point of the day, net six to sixteen points off from the closing prices of yesterday.

LADY GRANVILLE GORDON.

Sensational Sequel to the Scandalous Divorce Trial in London.

By Cable to the Morning Star. LONDON, March 11 .- A sensational sequel has been furnished to the scandalous Gordon trial, which occupied the Divorce Court for three weeks, by the flight of Lady Granville Gordon with the child, Cicely, for the posses-sion of which the suit was brought. In giving judgment yesterday, Sir Francis Jeune, the presiding justice, so scathingly commented on Lady Granville's conduct that it was easy to guess what the verdict would be, long before the justice wound up with ordering the child to be delivered to its father. Lady Granville left the court room and went home. She has since disappeared and Lord Granville declares he does not know her where-

VENEZUELA'S REVOLUTION.

Heavy Fighting Reported-Government Forces Defeated by Revolutionists.

By Cable to the Morning star. WILLEMSTAD, ISLAND OF CURACOA, March 11.—The Venezuela revolutionists claim they now hold all the eastern ports of Venezuela from the Orinoco down to Rio Chico.

Heavy fighting has taken place at Coro, capital of the State of Falcon. The result is not yet known. The re-volutionry army, commanded by General Bolando, is said to be at Guarancas, near Caracas. The recent retreat of the revolutionists, it is asserted here, was only a feint. The Venezulean government forces are reported to have been defeated in the battle recently fought at Tacarigua. It is reported in revolutionary cir cles that the revolutionists have cap-

tured Cumans, State of Bermudes.
