

NOT BIG ENOUGH FOR THE PLACE.

The Savannah News says: It is admitted that Mr. Charles M. Schwab has practically withdrawn from the presidency of the United States Steel Corporation...

What the newspapers said was well enough, but they failed to take into account the fact that he might not succeed in his new position...

A Boston professor has discovered that "a certain musical note raised to a great number of vibrations per second will cause mosquitoes to experience sudden and complete paralysis and die immediately."

With a copy of the Bible, a cross and a small American flag stowed away in a push-cart, Charles Calhoun, an evangelist, left Washington Tuesday on a long walk across the country to San Francisco.

Mr. Schwab's antics in Europe a few months ago made the European stockholders of the Steel Trust uneasy, and his connection with the United States Shipbuilding Company impaired the confidence of the Americans of the trust in him.

There were 1,483 lynchings in this country during the past ten years. So it seems that lynching does not lessen crime.

Snow fell to the depth of one inch in Leadville, Col., on the Fourth. Enthusiasm was above freezing point, however.

CITY OF WILMINGTON Impressions of a Visiting Editor Upon Occasion of Recent Press Convention.

Editor J. A. Robinson, of the Durham Star, who attended the Press convention at Wilmington last week, writes of Wilmington in his editorial column as follows:

Every visit made to Wilmington reveals the fact that our hospitable city on the Cape Fear, is developing in importance and making improvements that tend to give her great importance as a Southern port.

The Durham Herald says that it "has about reached the point in this State where a man who believes that murderers should be hanged is not considered competent to act as a juror."

That Washington barber who boasts of having shaved 18 men in 30 minutes, must have had some of those little spectacle fellows as customers.

The following from the Mobile Register gives interesting figures as to Very Promising Industry.

The following from the Mobile Register will serve to throw additional light upon the scheme to manufacture paper pulp from the refuse product of saw mills, which has been discussed from time to time in this column:

"In every saw mill cutting on average 100,000 feet of lumber a day there is a minimum of twenty-five tons of waste that is burned in the slab mill."

LIGHTING CONTRACT.

Audit and Finance Board Declined to Concur in Award by Board of Aldermen.

By a vote of two to one the Board of Audit and Finance yesterday afternoon decided not to concur in the award of the city lighting contract to the Turrentine Light Co. as recommended by the Aldermen.

Mr. MacRae spoke against the proposition in favor of arc lighting, saying that the percentage of deterioration in all machinery he had knowledge of was at least 10 per cent.

Mr. Skelking said if the enclosed arc lamps now in use on the streets had not given satisfaction he was not aware of it.

Chairman McQueen asked Mr. MacRae if the C. R. L. & P. Co. would continue the lights now being furnished until the Aldermen take further action.

The license tax ordinance, which had been further abridged by the Aldermen by striking out certain sections, was referred again to that Board, with the information that the Board of Audit and Finance would approve it just as it had passed it before.

After lengthy discussion of the matter, an appropriation of \$20,000 for permanent street improvements was concurred in with the understanding that if an additional amount can be appropriated for that purpose it will be done.
