WASHINGTON, June 9.-The Blate Department has received unofficial assurance through Mr. Gummere who had it from the British counsel at Fez, that the Sultan of Morocco will accede to all of Raisuli's terms. It is stated positively that under no conditions can the United States government guarantee the execution

the Sultan's promises. It is stated that this government has no intention of acquiring a Moroccan port as a coaling station or of seizing port and collecting the customs.

SUNDAY SCHOOL WORK.

## Discussed at the Convention of Sunday School Editors and Publishers in Richmond, Va

By Telegraph to the Morning Star. RICEMOND, VA., June 8 .- At 10day's business sessions of the National Association of Sunday School editors and publishers, Mr. Hartshon, chairman of the International Sunday Kinchau from all directions. In the School Association, led a discussion concerning the programme for the international convention to be held in Toronto, Canada, in 1905.

The topics "Advanced Lessons" and "General and Supplemental Lessons' aroused the liveliest interest and the charge that the Sunday school teachers of to day are not abreast of the secular educators in the matter and manner of the instruction of the young, was sharply disproved.

A paper prepared by Amos R. Wel's, of the Christian Endeavor World, of Boston, was presented. In this a strong plea was made that the Toronto convention be petitioned to arrange for a thoroughly digested advanced course of lessons for the senior department of the Sunday schools. The association adjourned at 1 P. M. and after lunch took a trolley ride over the city and its environments. Seven Pines was visited and the battlefield was fully explored. To-night another

All the Russian soldiers have, it is said left Port Arthur for the front, and

only three large ships and a number of small ones remain in the harbor. The Chinese are unable to explain what has become of the other large ships.

They further report that all the forts at Port Arthur have been more or less damaged by recent bombardments, and that a number of mines recently laid in the entrance to the barbor were exploded during a thunderstorm.
