This is a libel and a falsehood. Mr Davis was not in political life at the time the repudiation occur red, and he spent several hundred dollars having printed and circulated a pamphlet on the day fol lowing that on which he was to be nominated for Congress - announcing that he was unalterably opposed to repudiation. And this he did because the chairman of the nomi nating body was a repudiator.

When Mr Roosevelt was quite a young man he wrote an article in the North American Review denouncing my father as a traitor, which so wounded my father that he wrote to Roosevelt telling him his view was a one-sided one, and offering data that he might be better informed

Rumors that the troops have plainly indicated their sympathy with the strikers and that if it comes to a collis ion they will refuse to fire upon them, are everywhere rife and the workmen themselves are thoroughly convinced that such is the case. But the authorties maintain that the loyalty of the troops is beyond question, pointing out that the only time that Russian regiments showed treachery was in the Decembrist revolution of 1821, when the guard regiments participated but they say that the troops then were practically soldiers of fortune return-

ing to Russia after the Napoleonic wars, imbued with the revolutionary ideas of France. It is fully realized. however, that if the troops mutiny or actually join the workmen, that the government will be faced not with riot, but with revolution.

Father Gopon, at the request of Minister of Justice Muravief, went to the Ministry of Justice yesterday and had a long interview with M. Muravie', at which the minister tried to dissuade him from his programme for Sunday. Father Gopon, however, could not be dissauded and at the end of the interview left, saying, "We must each do our duty according to the light given us.' The plan of the workmen is to assemble at three points, the Putileff and Oubokoff works, and the Island of Vassili Ostrov, and march to the palace square. They are fully convinced

"The soldiers are on our side," said one of the leaders. "They may fire on the palace, but not on us."

Not one of the workmen raised roice against the Emperor though they did not spare some of the Imper al family, especially Grand Duke Alexis, who with others, they charged with being responsible for Russia's defeat in the war in the Far East, saying that they kept the Emperor in ignorance of the true situation.
