Our New York Correspondence.

New York, Sept. 30, 1865.

Some of the most important arrests ever made n this city have occurred since my last epistle By some means or other the police discovered that a couple of men named Overton, father and son, were engaged in counterfeiting government money and state bank bills. They managed to sscure the son and he betrayed his father; so that both are now in custody. I am glad to add that they are Englishmen.

The arrest of young Overton had something draft was discounted by H. Adderly & Co., dramatic about it. He was seated alone in his room on Third avenue quietly working at a counterfeit plate which he had engraved better than the original. Around him lay his tools, counterfeit plates of the fractional currency and of United States treasury notes, admirably done and calculated to deceive the best judges of money. Doubtless he was counting up his future gains, for he whistled cheerfully as he plied the graver. All at once, without the slightest warning, smash went the door, and Overton, caught in the very act, was in the hands of the police.

The investigation before the governor in regard

to the removal of our city officials has turned out as I predicted. It is a fizzle. The charges are withdrawn and new ones are to be prepared, so that the governor may come down to our city hall and try them next Tuesday. One of the morning papers suggests that the whole parythe governor, the accusers and the accusedought to be sent to state prison together. It adds: "If any person should see fit to institute a counter investigation into the past life of the accusers, including the governor, we have no doubt that they would find sufficient cause for their incarceration." This refers to several piquant facts. The governor, when a youth, was said to have confiscated \$6,000 of Erastus Corning's money, and would have been convicted as a thief had not the money miraculously turned up on a bed Herrick, one of the accusers, would have been convicted of receiving \$100 for his vote as alderman had not one of the jurymen out of the twelve stood out. Waterbury, another accuser, is a defaulting district attorney. Carr, another accuser, has been in custody as a practical miscegenator. Halpine, another of the lot, is charged with all sorts of vile offences. This will come out on the trial, I presume, and isn't it a pretty dish to set before the governor?

As I close this letter the city is full of rumors about the Fenians. It is said that one million of the bonds of the Irish Republic were sent off in the steamer to-day, and that in a few days, the Irish Republic will be formally declared. If so, will our government recognize it, accord it beligerent rights, fit out privateers for it and send t arms, ammunition and supplies? In a word, will the English deflition of neutrality be accepted by us? I hope so. Tit for tat is fair play,-Dr. Franklin's party has been heard from through Mr. C. F. Hall, the artic explorer. LETTER FROM A. H. STEPHENS

Enrolling Clerk -814 ta yeb to bestlobled

To the Batter of the World . sw nellimmen ? I have read with great interest the remarks of the Louisville Journal and the World concerning the long imprisonment of Mr. A. H. Stephens. I happen to be able to bear testimony to the efforts made by him in the antumn of 1860 to prevent a disruption of the union. After reading the very able and courageous speech which he had made to dissuade the legislature of Ceorgia from calling a convention of the state. I wrote to him from Boston where I then resided, expressing my sympathy in his efforts, and my desire to do everything in my power to assist him. His answer I now publish, being unwilling longer to keep private a letter which does him somuch credit, although it painfully reminds me of the vain exertions made in the north and in the south to save the country from the disasters prepared for it by the extremists of both sections. Yours respectfully,

New York, September 28.

CRAWFORDSVILLE, GA., November 30, 1860. My DEAR SIR-Your kind and esteemed favor of the 28d instant is before me. I was truly glad to receive it, and to know that the general line of policy indicated in the speech made by me before our Legislature met your approval. The times republic. Of this I am confident; but I am not confident or even sanguine in my hopes that even this can do it. Still the effort should be made. South Carolina, I suppose, will certainly go out of the Union forthwith just as soon as her convention meets and can act. My apprehension is that Georgia, Alabama, Florida, and Mississippi will go too. If South Carolina would wait to see whether the offending states north would change their position and resume their constitutional of Wreck of the Hermann Livingston, ligations, I have but little doubt that Georgia would also. But when South Carolina takes the lead, I have but little hope of either of the other named states holding back. This I assure you may be looked for.

When I telf you what I apprehend will be the course of the Georgia convention, it is only to

apprise you of the real state of things here. There are a large number of our people who will sustain my position, but I feel that the odds are against us. We will do all that we can, and should any decided demonstration be made in Massachusetts, or other northern states, on the part of any leading republicans to-night, the wrongs of which our people so justly complain. it would greatly aid us in our patriotic endeavors to save the constitutions and the union under it. This is my earnest desire. Thanking you again for your letter, and hoping to hear from you again as to the prospect in Massachusetts, I re-
