Authing but its intrinsic virtues and the unmistakable benefit conferred on thousands of sufferers, could originate and maiotain the reputation of sufferers, could originate and maiotain the reputation of endoses. While many inferior remedies thrust upon the community, have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

While it is a fraud on the public to pretend that any one medicine will infulfilly cure—still there is abundant proof that the Cherry Pectoral does not only as a general thing, but almost invariably, cure the maladies for which it is employed.

As time makes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted, from the log-cubin of the American peasant, to the palaces of European Kings. Throughout this entire country, in every State, city, and indeed almost every bounder it contains, Cherry Pectoral is known as the best remedy extant for diseases of the Throat and Lungs, and in many foreign countries, it is coming to be extensively and in their metal teathers. By the use of these pills he has often cured every disease of this important class, which are always connected with, or dependent upon, a weak or enervated state of the digestive organs Those who are afflicted with the diseases enumerated, need only to try them to realize their good effect; and that too, in the use of a single box of the pills, although it may take several boxes to cure them.
