Since it has been understood from the President and his Cabinet, and his organs, that "acquiescence," (forced though it be,) is all that is required of a good citizen, and no "approval" of the great settlement of the Compromise Bills,-the moral power necessary to execute the Fugitive Law has been rapidly failing. The people seem to have understood the position of the Federal Soil and Secession Cabinet, and began distributing high and rich offices to Abolitionists North, and Secessionists South, -for when the executors of the laws are in spirit against them, their enforcement is impossible.

Value of Property in Georgia .- Notwithstanding the money pressure, we have many evidences of the enhancement in value of property in our State. A striking illustration of this fact we discover in the sale which took place on Monday, in Bulloch county, of some land and negroes belonging to the estate of the late Philip Cone. About four years ago the land, as we learn of parties intelligent in the matter, containing 1700 acres and upwards, could have been purchased for \$400. It was sold at the sale on Monday for thirty-six hundred dollars. As an index to the value of slave property we may mention that one field hand, thirty-seven years of age, brought \$1406. Half-grown negroes sold at from seven to nine hundred dollars .- Sav. News, 29th ult.
