**Red's Patent Chromometer Engine.**

THIS is an improved Steam Engine for which Letters Patent were granted to JOHN A. REDD, of New York, Jan. 19, 1853. The nature of this improvement consists in the increase of power about 20 per cent, and reducing the weight of the Engine one-fourth. The saving of fuel is effected by letting the steam in on both sides of the cylinder, doubling the use of the cylinder, and balancing the pressure, removing the friction and weight of the slide valves, or centers, cross-heads, connecting rods, &c. The exceeding simplicity of this Engine, renders it much more durable and easy managed than any other, and when placed upon the boiler with a safe and efficient safety valve, it is found to be superior to all other Engines. Received the FIRST PRIZE MEDAL at the Great Exhibition in Paris. There are about 25,000 copies of them now in operation, all giving great satisfaction.

Debtors lives may be insured by creditors. A man may insure his own life for the exclusive benefit of his family. The lives of slaves may be insured. This system is rapidly growing into favor, all over the civilized world. It is one by which a family, for a small sum annually, may be provided for, after the death of its head, on whose exertions they may have been dependent for a support. It is a good investment of money, even if one should live long after taking out a Life Policy. Explanatory pamphlets, and the necessary blanks, furnished on application.

**Florida Land Agency.**

THE undersigned has established an AGENCY in the town of Alligator, Columbia County, Florida, for the PURCHASE, SALE or LOCATION of LAND, WATERS, the PURCHASE and SALE of LANDS generally, improved or unimproved.  
The first now being established that a Rail Road to be constructed immediately, connecting the Atlantic and the Gulf of Mexico, running through the entire length of this County, east and west, and in view of the great fertility of our soil, the unusually fine growth of pine timber on the land, the healthfulness of the climate, and the reasonable terms on which lands can now be obtained, there is perhaps no section of the Union which offers equal inducements to the emigrant from the other States.  
Having had some experience in farming on the different kinds of land, and acquired a general knowledge of them throughout the County, and having acquired unusual facilities for pointing out such as are for sale, either of public or private lands, he feels very confident of being able to render the interest of all persons wishing information who may have determined to settle in Florida to call on him.
