CHINESE SUGAR CANE SEED.

THE subscriber informs Planters and Farmers that he has obtained from John Kirkpatrick, Esq., of this country, his crop of seed of this valuable plant, some of the properties of which are said to be as follows:
First, An acre of the stalks properly cultivated, will yield from 400 to 500 gallons of pure syrup, equal to the best New Orleans.
Second, It surpasses all other plants for fodder and for feeding green to cattle or hogs, on account of the great abundance of sugary juice which it contains, and when sown in close drills yields an immense crop of fodder.
Third, It is so certain and prolific a crop that planters may be sure of succeeding with it as a syrup plant any where South of the State of New York.
This seed is offered for sale in packages sufficient to plant half an acre 4 feet x 14 feet, at \$1 per package. If sent by mail, 30 cts. must be added to pay postage.
