Fire Insurance.

E refer our readers to the annual statement of the Ætna Insurance Company, of Hartford, which will be found in another column. This sucgessful institution was incorporated by the Legislature of Connecticut in 1819, with a perpetual charter. Its capital is \$500,000, and its accumulations exceed \$800,000 more, making its entire assets over \$1,300,- see them. 000, invested as detailed in the statement referred to. These results indicate that during the period of nearly forty years since its organization, (without a single change of its chief officer,) its business has been conducted with judgment and prudence. It has been thus far successful in an eminent degree, discharging, as we are informed, all its obligations by the payment of about ten million dollars for losses, without asking a day's delay in any instance. It has had but little litigation, notwithstanding the immense number of transactions made. In order to attain as much certainty as OPPOSITE THE PARK, possible in such a business as insurance, it has been the practice of the Company, for several years, at great labor, carefully to classify and arrange their risks into about fifty distinct classes, so as to ascertain the amount insured on each class, the smooth of the smooth premiums received thereon, and the amount of losses upon each. This classification, extending over a long period, and covering property to a very large amount, furnishes reliable data, and presents a sound, substantial basis of actual experience, upon which to conduct its business. Insurance is not and results of which are as certain as that of any other ceived. We will deliver it in Fayetteville, free of all of which will be sold wholesale or retail, or barbusiness. The Ætna Company, by adhering rigidly postage, at \$2 50, cash in advance, (which will be a tered for country produce, on terms the most reasonand results of which are as certain as that of any other to its system, and placing its business upon a healthy basis, has obtained the confidence of the community to an extent surpassed by no other Company in the U. States, and has increased its business and its income from year to year with a steady growth. One great source of its security is the wide distribution of its risks—a policy which it pursues with great strictness -limiting the amount to be covered in each locality. By this course it has passed, with comparative impunity, through some of the most sweeping and destructive fires, which have swallowed up other companies and security. - Baltimore Patriot.

ETNA INSURANCE COMPANY, HARTFORD, CONN.
