Fire Insurance.

E refer our readers to the annual statement of the Ætna Insurance Company, of Hartford, which will be found in another column. This suc-cessful institution was incorporated by the Legislature Price for the Semi-Weekly Observer \$3 00 if paid in of Connecticut in 1819, with a perpetual charter. Its capital is \$500.000, and its accumulations exceed advance; \$3 50 if paid during the year of subscrip-000, invested as detailed in the statement referred to. These results indicate that during the period of nearly forty years since its organization, (without a single change of its chief officer,) its business has been conthus far successful in an eminent degree, discharging, as we are informed, all its obligations by the payment of about ten million dollars for losses, without asking a day's delay in any instance. It has been defeated to the firm of HOUSTON & OVERBY to settle with W. Overby or himself, as they are compelled to settle the firm's debts. actions made. In order to attain as much certainty as great labor, carefully to classify and arrange their risks into about fifty distinct classes, so as to ascertain the amount insured on each class, the amount of premiums received thereon, and the emount of osses upon each. This classification, extending over a long period, and covering property to a very large amount, furnishes reliable data, and presents a sound, substantial basis of actual experience, upon which to conduct its business. Insurance is not a matter of luck or chance, as many suppose; its hazards are ascertainable, and its principles are capable He manufactures North Carolina material—he employs North Carolina capital and labor,—and he solicits and results of which are as certain as that of any other North Carolina patronage. By giving him a trial, and business. The Ætna Company, by adhering rigidly by comparing his with Northern prices, he hopes to be able to make a favorable showing. A TRIAL is what he wants. he wants.
