Fire Insurance.

E refer our readers to the annual statement the Ætna Insurance Company, of Hartford which will be found in another column. This suc-Interest at the rate of 6 per cent. per annum will be cessful institution was incorporated by the Legislature Freight and Passenger Line between lowed on subscriptions to stock made after the 15th of Connecticut in 1819, with a perpetual charter. Its capital is \$500,000, and its accumulations exceed \$800,000 more, making its entire assets over \$1,200, 000, invested as detailed in the statement referred to. These results indicate that during the period of near ly forty years since its organization, (without a single change of its chief officer,) its business has been conducted with judgment and prudence. It has been thus far successful in an eminent degree, discharging as we are informed, all its obligations by the paymen of about ten million dollars for losses, without asking a day's delay in any instance. It has had but little litigation, notwithstanding the immense number of transactions made. In order to attain as much certainty as possible in such a business as insurance, it has bee Drug Store & Fixtures great labor, carefully to classify and arrange their risks into about fifty distinct classes, so as to ascertain THE undersigned, being desirous of changing his the amount insured on each class, the amount of business, offers his Drug Store for sale. It occupies one of the most desirable situations in town for the business. Any person desirable situations in town for over a long period, and covering property to a very large amount, furnishes reliable data, and pre-sents a sound, substantial basis of actual experience. upon which to conduct its business. Insurance is not a matter of luck or chance, as many suppose; its ha-zards are ascertainable, and its principles are capable of being reduced to a system, the practical working and results of which are as certain as that of any other business. The Ætim Company, by adhering rigidly to its system, and placing its business upon a healthy basis, has obtained the confidence of the community to an extent surpassed by no other Company in the U. States, and has increased its business and its income from year to year with a steady growth. One great source of its security is the wide distribution of its Gentlemen's Furnishing Goods, Boots risks—a policy which it pursues with great strictness—limiting the amount to be covered in each locality. By this course it has passed, with comparative impunity, through some of the most sweeping and destructive fires, which have swallowed up other companie less cautious in their business. It is a system like his, based upon experience, which gives stability and soundness to a company, and to the assured confidence and security.—Baitimore Patriot.
