### SALE OF THE LOTS OF CAROLINA CITY,

At the Terminus of the Great Central Rail Road of North Carolina,

ON BEAUFORT HARBOR,  
ON THURSDAY, NOVEMBER 12, 1857.

CAROLINA CITY is situated on an elevated plain, about 15 feet above tide water, immediately on the waters of Beaufort Harbor. This location for a great commercial City, was selected by men of commercial experience, after a full examination of all the lands on the Harbor of Beaufort, and in anticipation of the construction of the great Central Rail Road from said Harbor through the State of North Carolina, connecting with the lines of the Rail Roads of Tennessee coming east from Memphis on the Mississippi, and also in anticipation of the construction of a Rail Road from Carolina City through the counties of Onslow, Duplin, Sampson, and the town of Fayetteville, to the Coal Fields on Deep River. The Atlantic and North Carolina Rail Road, from Carolina City, to Goldsboro, will be opened by the 1st January next; the North Carolina Rail Road is in operation to the town of Salisbury, from which point the construction of the great Western Rail Road, through the mountains in rapid course, is steadily progressing. The Rail Road through Fayetteville to the Coal Fields has for some time occupied the attention of the State, and doubtless will eventually be put in operation; that part between Fayetteville and the Coal Fields being in rapid course of construction. The completion of these great Rail Roads will carry the agricultural and mineral products of the State to one of the finest harbors on the Southern coast, and must at an early day build up on its waters a flourishing City. At this location, the channel for ships' boats, not penetrated by said Rail Roads, have easy communication with Beaufort Harbor by navigable Rivers and Sounds. Of the Harbor of Beaufort, we believe it to be unnecessary now to speak; the depth of its waters, its proximity to the Gulf Stream, (the highway of ships), and its capacity for all commercial purposes, are not only well known to every North Carolinian, but have attracted the attention of the country generally. The Carolina City Company believe that the advantages of this location which they have selected are many; their land is a high and level plain, looking southward upon the ocean; its wells and springs afford the purest waters, and the salubrity of the climate is so well known, that Beaufort is believed to be the most healthy watering place on the Southern coast. At this location, the channel for ships' boats is near to the shore and runs parallel with it along the whole front of the City, making the construction of wharves cheap and easy. The harbor and wharves at Carolina City, being a short distance from the conflux of Bogie Sound and Newport River, and not immediately in front of the Inlet, are unexposed to the violent storms, and yet a ship may set sail from the Rail Road wharf in Carolina City and in thirty minutes be at sea. There are some of the advantages which determined the selection of the location of Carolina City, and so great a confidence had the Company in the superiority of these advantages, that they subscribed and paid in twenty-five thousand Dollars to the Capital Stock of the Atlantic and North Carolina Rail Road Company, which was the only subscription made upon the faith of real estate on Beaufort Harbor.

Plans of the Harbor of Beaufort, exhibiting the location of the Atlantic and N. C. Rail Road and Carolina City, may be seen in all the principal Hotels in the State.
