THE NORTH CAROLINA STATIST AND MAGAZINE OF USEFUL INFORMATION

The want of such a Journal is felt by every intelligent citizen, who desires to become at all acquainted with the resources of the State, our present condition,

future prospects, &c., and by none so much as by our That we have no regular system of statistics, cannot be attributed to any want of material. There are large amounts of valuable and interesting information scattered through our Legislative and Executive Documents and Records, which, in their present situation, for all practical purposes, might as well be in the Chinese language. Besides what our Legislative archives contain, our newspapers often publish valuable statis-tical information, which is either lost, or if preserved y a very few, is so inconvenient to find when wanted. that the facts are soon forgotten. The same may be said of the Reports and Statements from time to time MARCH...
