Such as Independent of the Stomach, Colicky Pains
Beartaire, Loss of Appetite, Despondency Costiveness, Blind and
Bleeding Piles. In all Nervous, Rhenmatic, and Neuralgle Affections, it has in numerous instances proved highly beneficial, and
in others effected a decided cure.

This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland ProJessor, Boerhave, Because of its great success in most of the
European States, its introduction into the United States was in
fended more especially for those of our fatherland scattered here
and there over the face of this mighty country. Meeting with
great success among them, I now offer it to the American public,
knowing that its truly wonderful medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose constitu-tions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of fire, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, intusing new health and vigor in the system. NOTICE—Whoever expects to find this a beverage will be dis-appointed, but to the sick, weak and low spirited, it will prove a grateful aromatic cordial, possessed of singular remedial properties CAUTION!

The great popularity of this delightful Aroma has induced many initiations, which the public should guard against purchasing. Be not persuaded to buy anything else until you have given Boerhave's Holtand Bitters a fair trail. One bottle will convince you how infinitely superior it is to all these imitations. THE NORTH CAROLINA STATIST AND MAGAZINE OF USEFUL INFORMATION HE undersigned proposes to Publish in the City of Raleigh, a semi-annual JOURNAL, of the above

title, devoted exclusively to the dissemination of STA-TISTICAL INFORMATION. The want of such a Journal is felt by every intelligent citizen, who desires to become at all acquainted with the resources of the State, our present condition, future prospects, &c., and by none so much as by our

That we have no regular system of statistics, cannot be attributed to any want of material. There are large amounts of valuable and interesting information scattered through our Legislative and Executive Docustered through the control of the ments and Records, which, in their present situation for all practical purposes, might as well be in the Chinese language. Besides what our Legislative archives contain, our newspapers often publish valuable statistical information, which is either lost, or if preserved by a very few, is so inconvenient to find when wanted, that the facts are soon forgotten. The same may be said of the Reports and Statements from time to time made by our incorporated companies, and others engaged in Manufactures, Mines, Commerce, &c.

To collect these various items of information, and give them to the public in a shape easy of reference and for perpetual preservation, as well as to gather from all available resources, everything bearing directly or indirectly on our wealth, prosperity and industry, is the design of the JOURNAL now offered for public patronage.

So far as the plan for conducting the same has been matured, the pages of the STATIST will be devoted MAY to the arrangement of such tables relating to our POPULATION, AGRICULTURE, COMMERCE, EDU-CATION, PUBLIC IMPROVEMENTS, MANUFAC-TURES, FISHERIES, MINES, and Social Statistics generally, as will present their condition, and our progress in each.

It is also designed to contain the Reports (condensed) of the Public Treasurer, Commissioners of the Sinking Fund, Superintendent of Common Schools, and all other State Officers and Boards; as also, Statements and Reports of the condition and progress of the various Railroad and Navigation Companies.

The STATIST will be put to press as soon as a sufficient number of responsible names are obtained to pay the expenses of publication. The numbers will contain each, not less than 150 PAGES of closely printed matter, making a book of 200 PAGES. ter, making a book of 300 PAGES, or more, to which will be added a full and complete index.
