### NORTH CAROLINA SUPREME COURT REPORTS.

THE subscribers have just printed at the Observer Office a SECOND EDITION OF DEVEREUX AND BATTLE'S LAW REPORTS, VOL. 1.

REVISED AND CORRECTED, WITH NOTES AND REFERENCES, BY HON. WILLIAM H. BATTLE, JUDGE OF THE SUPREME COURT OF NORTH CAROLINA.

The price of the new edition is not greater than that of the old, though, as it is scarcely necessary to say to the Profession in North Carolina, its value has been greatly increased by Judge Battle's Notes, References and Corrections. The volume has been long out of print, and we shall be glad to supply the many Lawyers whose sets of Reports are incomplete without it, as well as those who have the old edition but would like to have the new one for the sake of its notes.

### Fire Insurance.

WE refer our readers to the annual statement of the Etna Insurance Company, of Hartford, which will be found in another column. This successful institution was incorporated by the Legislature of Connecticut in 1819, with a perpetual charter. Its capital is \$500,000, and its accumulations exceed \$800,000 more, making its entire assets over \$1,300,000, invested as detailed in the statement referred to. These results indicate that during the period of nearly forty years since its organization, (without a single change of its chief officer,) its business has been conducted with judgment and prudence. It has been thus far successful in an eminent degree, discharging, as we are informed, all its obligations by the payment of not less than \$10,000,000 for losses, without asking a day's delay in any instance. It has had but little litigation, notwithstanding the immense number of transactions made. In order to attain as much certainty as possible in such a business as insurance, it has been the practice of the Company, for several years, to have great labor, carefully to classify and arrange their risks into about fifty distinct classes, so as to ascertain the amount insured on each class, and the amount of losses up on each. This classification, extending over a long period, and covering property to a very large amount, furnishes reliable data, and presents a sound, substantial basis of actual experience, upon which to conduct its business. Inasmuch as the amount of loss or chance as many suppose, its hazards are ascertainable, and its principles capable of being reduced to a system, the practical working and results of which are as certain as that of any other business. The Etna Company, by adhering rigidly to its system, and placing its business upon a healthy basis, has obtained the confidence of the community to an extent surpassed by no other Company in the U. States, and has increased its business and its income from year to year with a steady growth. One great source of its security is the wide distribution of its risks—a policy which it pursues with great strictness—limiting the amount to be covered in each locality. By this course it has passed, with comparative impunity, through some of the most sweeping and destructive fires, which have swallowed up other companies less cautious in their business. It is a system like this, based upon experience, which gives stability and soundness to a company, and to the assured confidence and security.—Baltimore Patriot.

### NORTH CAROLINA REAPERS.

NUMBERS 1 AND 2. PREPARED WITH SPECIAL REFERENCE TO THE WANTS AND INTERESTS OF North Carolina. UNDER THE AUSPICES OF THE SUPERINTENDENT OF COMMON SCHOOLS, BY Rev. F. M. Hubbard, PROFESSOR OF THE LATIN LANGUAGE AND LITERATURE IN THE UNIVERSITY OF NORTH CAROLINA.

### NUMBER 3.

CONTAINING A FAMILIAR HISTORY AND DESCRIPTION OF NORTH CAROLINA. Selections in Prose and Verse; many of them by eminent citizens of the State. HISTORICAL AND CHRONOLOGICAL TABLES, And a variety of Miscellaneous Information and Statistics, by C. H. WILEY. Number 3 is a new and revised edition of the North Carolina Reader, first published in 1851. Numbers 1 and 2 just issued, complete the series, which is, as a whole, cheaper than any other series of Readers in the United States, and as complete. The Editor (Prof. Hubbard) in his Preface to Number 1 deems it proper to allude to a few of the peculiar advantages aimed at by the Superintendent of Common Schools while making efforts to have this work completed. These are: 1. The encouragement of a feeling of self-dependence, and the enjoyment of popular sentiment in behalf of the State and its institutions. It was not thought important, however, to have more than one number of the Readers merely a local interest. 2. To remedy the evil everywhere complained of in common schools, of a perpetual change in text books; an expensive habit, and one which injures the Schools by preventing the children from being classified. A certain number of home Readers, it was supposed, would be certainly used, and this great evil thus avoided. 3. Economy, the popular system of Readers being too long and being made so often merely to add to the profits of authors and publishers. This series is to consist of fewer numbers than those generally used, and it is believed that these numbers are sufficient, while if the system were universally used in the State, the sum saved to parents and children would amount to several thousand dollars annually. 4. To put in the hands of children learning to read compositions sufficiently familiar but not of the character called childish compositions, containing, in lessons easy enough for all ages, correct specimens of style, interesting in matter, and inculcating proper morals, and religious instruction. The prices are, for No. 1, 25 cents; No. 2, 37 1/2 cents and No. 3, 75 cents. A liberal deduction from these prices to Merchants and School Teachers. E. J. HALE & SON.
