BOERHAVE'S HOLLAND BITTERS

THE CELEBRATED HOLLAND REMEDY FOR

DYSPEPSIA,

DISEASE OF THE KIDNEYS,
LIVER COMPLAINT,
WEAKNESS OF ANY KIND,
FEVER AND AGUE.

And the various affections consequent upon a disordered

STOMACH OR LIVER,

Such as Indigestion, Acidity of the Stomach, Colicky Pains Heartburn, Loss of Appetite, Despondency Costiveness, Blind and Bleeding Piles. In all Nervous, Rheumatic, and Neuralgic Affections it has in numerous instances proved highly beneficial, and others effected a decided cure.

This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland Professor Boerhave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, increasing new health and vigor in the system.

NOTICE—Whoever expects to find this a beverage will be disappointed; but to the sick, weak and low spirited, it will prove a grateful aromatic cordial; possessed of singular remedial properties

CAUTION!

The great popularity of this delightful Aroma has induced many imitations, which the public should guard against purchasing. Do not be persuaded to buy anything else until you have given Boerhave's Holland Bitters a fair trial. One bottle will convince you how infinitely superior it is to all these imitations.

LIFE INSURANCE.

THE Undersigned has been appointed Agent of the North Carolina Mutual Life Insurance Company. Every member for life participates in the profits of the Company; and the annual premium for life membership, where it amounts to $30 or more, may be paid one-half in cash, and the other half in a note at 12 months.

Debtors' lives may be insured by creditors. A man may insure his own life for the exclusive benefit of his family. The lives of slaves may be insured.

This system is rapidly growing into favor, all over the civilized world. It is one by which a family, for a small sum annually, may be provided for, after the death of its head, on whose exertions they may have been dependent for a support. It is a good investment of money, even if one should live long after taking out a Life Policy. Explanatory pamphlets, and the necessary Blanks, furnished on application

E. J. HALE.

Fire Insurance.

WE refer our readers to the annual statement of the Ætna Insurance Company, of Hartford, which will be found in another column. This successful institution was incorporated by the Legislature of Connecticut in 1819, with a perpetual charter. Its capital is $500,000, and its accumulations exceed $800,000 more, making its entire assets over $300,000, invested as detailed in the statement referred to. These results indicate that during the period of nearly forty years since its organization, (without a single change of its chief officer,) its business has been conducted with judgment and prudence. It has been thus far successful in an eminent degree, discharging, as we are informed, all its obligations by the payment of about *ten million dollars* for losses, without asking a day's delay in any instance. It has had but little litigation, notwithstanding the immense number of transactions made. In order to attain as much *certainty* as possible in such a business as insurance, it has been the practice of the Company, for several years, at great labor, carefully to classify and arrange their risks into about fifty distinct classes, so as to ascertain the amount insured on each class, the amount of premiums received thereon, and the amount of losses upon each. This classification, extending over a long period, and covering property to a very large amount, furnishes reliable data, and presents a sound, substantial basis of actual experience, upon which to conduct its business. Insurance is not a matter of luck or chance, as many suppose; its hazards are ascertainable, and its principles capable of being reduced to a system, the practical working and results of which are as certain as that of any other business. The Ætna Company, by adhering rigidly to its system, and placing its business upon a healthy basis, has obtained the confidence of the community to an extent surpassed by no other Company in the U. States, and has increased its business and its income from year to year with a steady growth. One great source of its security is the wide distribution of its risks—a policy which it pursues with great strictness—limiting the amount to be covered in each locality. By this course it has passed, with comparative impunity, through some of the most sweeping and destructive fires, which have swallowed up other companies less cautious in their business. It is a system like this, based upon experience, which gives stability and soundness to a company, and to the assured confidence and security.—*Baltimore Patriot.*
