Fire Insurance.

E refer our readers to the annual statement of the Ætna Insurance Company, of Hartford, hich will be found in another column. This successinstitution was incorporated by the Legislature of anecticut in 1819, with a perpetual charter. Its is \$500,000, and its accumulations exceed \$60,000 more, making its entire assets over \$300,-00, invested as detailed in the statement referred to These results indicate that during the period of nearly orty years since its organization, (without a single hange of its chief officer.) its business has been conducted with judgment and prudence. It has been thus far successful in an eminent degree, discharging, as we are informed, all its obligations by the payment of about ten million dellars for losses, without asking a day's delay in any instance. It has had but little litday's delay in any instance. It has had but little lit-igation, notwithstanding the immense number of trans-may be arrested and brought to trial for his said ofactions made. In order to attain as much certainty as possible in such a business as insurance, it has been a Reward of Two Hundred Dollars for his apprehenon each. This classification, extending over a long 170 pounds, is addicted to intoxication, and while period, and covering property to a very large amount, an ishes reliable data, and presents a sound, substantial basis of actual experience, upon which to conduct its basis of actual experience, upon which to conduct its March, A. THOS. BRAGG. business. Insurance is not a matter of luck or chance, as many suppose; its hazards are ascertainable, and its principles capable of being reduced to a system, the practical working and results of which are as certain that of any other business. The .Etna Company, s athering rigidly to its system, and placing its busiss upon a healthy basis, has obtained the confidence of the community to an extent surpassed by no other empany in the U. States, and has increased its business and its income from year to year with a steady growth. One great source of its security is the wide stribution of its risks-a policy which it pursues with great strictness-limiting the amount to be covn each locality. By this course it has passed, with comparative impunity, through some of the most sweeping and destructive fires, which have swallowed up ompanies less cautious in their business. It is system like this, based upon experience, which gives stability and soundness to a company, and to the assured confidence and security. —Baltimore Patriot.

## CHAMPION'S PILLS.

E would call the attention of persons afflicted with Chills and Fevers to this celebrated Pill, which owes its popularity to no puffing, nor to long, windy certificates—but solely to its own merits as a remedy which never fails to cure when taken according to directions accompanying each box. This Pill, unlike many others, contains no mineral, nor any in urious ingredient, and may be administered with perfect safety at all times, to young or old.

As a preventive against Chills, or any other type of

Fever, it is recommended as unsurpassed; and in treat-ment of Fevers generally it is far superior to Quinine, or any preparation of Peruvian bark. A trial of its merits is all that is needed to insure it a favorable position in the estimation of even the most inveterate opposer of Proprietary or Patent prescriptions.
