SCHOOL BOOKS FOR THE UNION.
A. S. BARNES & CO.,
51 AND 53 JOHN STREET, NEW YORK,
PUBLISHERS AND WHOLESALE BOOKSELLERS.

WOULD INVITE ATTENTION TO THE
NATIONAL SERIES
—OF—
STANDARD SCHOOL BOOKS,
PUBLISHED BY THEM, AMONG WHICH ARE
The National School Readers, in 5 Nos., and Pronouncing Speller.
Price 25, 37 1/2, 50, 75 cts. and \$1. Speller, 25 cts.
By Richard G. Parker, A. M., of Boston, and J. Madison Watson, of New York.
These are the latest reading books yet brought out, and it is confidently believed surpass all others in general plan and arrangement, beauty of illustrations and typography, character of selections, and adaptation to the wants of schools. They are already in extensive use in the Public Schools of New York, Brooklyn, Albany, Newark, Lancaster, and other important places.
Davies' Revised Arithmetics and Higher Mathematics.
Prices of Arithmetics 15, 25, 45 and 75 cents.
Aruily increasing in popularity and circulation. They are regarded as the most thorough and practical of any before the public. An exceedingly valuable addition to this course has just been made in the publication of
Davies' University Algebra, Price \$1 25.
An entirely new work, designed to occupy an intermediate place between the author's Elementary Algebra and Bourdon. It teaches the Science and Arts of Algebra by a logical arrangement and classification of the principles in their natural order, and by illustrating their application in an extended series of carefully arranged and graded examples. It is Prof. Davies' last and best work.
Montith and McNally's Series of Geographies,
Prices 25, 40, 60 cents, and \$1.
Seem to be fast superseding all others. The plan on which they are arranged, their intrinsic merit, soundness, beauty, and peculiar adaptation, render them great favorites with both teachers and pupils. They have been officially recommended by the Superintendents of Public Instruction of very many States, and by numerous Teachers' Associations and Institutes throughout the country, and are in successful use in a multitude of public and private Schools in every State of the Union.
Clerk's Grammars, in two Nos., prices 40 and 60 cents, and Welch's Analysis, price 75 cents.
It is believed present the only true and successful method of teaching the science of the English Language. They are the Standard Text-Books in the New York, Michigan and other State Normal Schools, and in very many of the best Schools and Academies in the country.
Parker's School Philosophy, price \$1.
Is regarded as the most complete, concise, and practical Class Book on that subject yet published. It is more extensively used than any other, which fully demonstrates its pre-eminence over all superiority.
Porter's School Chemistry, price \$1.
Is one of the most admirable works prepared for Schools, and requires only a limited amount of apparatus to illustrate all the experiments described.
A. S. B. & Co. have recently added many new and valuable works to their NATIONAL SERIES, a full list of which will be sent on request in their NEW ILLUSTRATED CATALOGUE just published, containing a complete description, with notices and recommendations, of all their School and Library Books.
Teachers and School Officers throughout the country are requested to send for this NEW DESCRIPTIVE CATALOGUE, and correspond with the Publishers in regard to any of their works they may wish to examine or introduce.

THE HOUSEKEEPER'S BLESSING!
A GREAT Domestic Invention!
MR. H. HERRICK has just perfected a highly valuable invention for sweeping carpets, by which every particle of dirt, scraps of paper, thread, pins, needles, hair, &c., are taken up and deposited into tin receptacles, and for every carpet, whether on the top or centre of the box is connected a long handle, similar to that of a broom, by which the box is propelled along the carpet; the whole Machine weighing scarcely four pounds. It is simple in its construction, and durable, as one machine will last for many years; thorough in its operations, and can be used as well by a child as an adult.
It prevents the rising of dust—that sure companion to every other means now used for sweeping carpets, and so annoying to housekeepers who have the charge of valuable furniture, drapery, curtains, chandeliers, &c. It will save its cost in a short time in the wear of the carpet; one person with this machine can do the work of many servants. For Churches, Hotels, Store-rooms, Schools, and for every carpeted place, it is admirably adapted, and it has only to be tried to be appreciated.
