Land for Sale.

OHN T. GILMORE now offers for sale a portion of his swamp lands in the county of Cumberland about 14 miles below Fayetteville, and about 14 miles East of the Cape Fear River. The entire swamp has been suc cessfully drained, of the large body of water by which it was heretofore covered. The land is apparently level, being free from ridges (which are so common to swamp hards generally,) whilst there is an abundance of fall, by which the rain water can be carried off by ordinary ditches. A small portion of the land has been in cultivation about 7 years, and those persons who have seen the crops regard the land as equal in fertility to any they have seen in this State or elsewhere. The location is healthy, the neighborhood good, and the ac-1 years, and has paid its losses, amounting to \$19,126 cess to Fayetteville and Wilmington easy by means of a good road 14 miles in length leading directly to the river. Besides this, it is within 3 miles of a beautiful little village, upon a high and healthy Bluff, at the river, with a Store, Ware-house and first-rate landing. All which afford many conveniences to the neighborhood. As several persons have spoken of purchasing this is deemed a proper time to call their attention t upon a small portion of the land, by which they can judge of its production. ** Reasonable terms will be given to the purchaser. NUMBER 3 is a new and revised edition of the North Carolina Reader, first published in 1851. Numbers 1 and 2 just issued, complete the series, which is, as: whole, cheaper than any other series of Readers in the United States, and as complete.

The Editor (Prof. Hubbard) in his Preface to Number I deems it proper to allude to a few of the peculiar advantages aimed at by the Superintendent of Common Schools while making efforts to have this work com-

pleted. These are. 1. The encouragement of a feeling of self-dependence, and the enlistment of popular sentiment in behalf of the State and its institutions. It was not thought important, how-ever, to have more than one number of the Reader of

nerely a local interest.

2. To remedy the evil everywhere complained of in common schools, of a perpetual change in text books; an expensive habit, and one which injures the Schools by preventing the children from being classified. A series of home Readers, it was supposed, would be certainly used, and this great evil thus avoided.

and this great evil thus avoided.

3. Economy, the popular system of Readers being too ong and being made so often merely to add to the profits of authors and publishers.

This series is to consist of fewer numbers than those generally used, and it is believed that these numbers are sufficient, while if the system were universally used in the State, the sum saved to parents and children would amount to several thousand dollars annually.

4. To put in the hands of children learning to read com-positions sufficiently familiar but not of the character called childish compositions, containing, in lessons easy enough for all ages, correct specimens of style, interesting in matter, and inculcating proper morals, and religious in
