A TREATISE ON THE LAW OF EVIDENCE.

TENTH ENGLISH EDITION. with considerable attenations and additions. By the Right Hon. S. MARCH PHILLIPS and THOS.

JAMES ARNOLD, Esq., one of the Police Magistrates for the Metropolis. FOURTH AMERICAN EDITION, With COWEN & HILL'S Notes, and with additional Notes and References to the English and American cases to the present time, including those added to the

last edition by J. Marsden Van Cott. BY ISAAC EDWARDS,

COUNSELLOR AT LAW. In three large volumes. alled work of Mr. Phillips on the Law of Evidence has long been acknowledged.

This edition has undergone a thorough revision by Mr. Edwards, and has received an immense amount of labor, and is now as nearly perfect as can be made.

The American labor and talent bestowed upon the work are not less than that derived from the English source. The immortal notes of Messrs. Cowen & Hill, together with those of Mr. Van Cott, have been carefully preserved; and instead of being put in a volume by themselves, as formerly, they are now placed below the text-a disposition of them which will very much faci-litate reference. The entire note and text are arranged in three compact volumes, with a table of cases, and an extremely full index to each. Mr. Edwards has carefully noted any distinctions that π ay exist between the ment from a gentleman connected with a Bank in the city of N. Y.; will be sold on American decisions.

Several copies of this valuable work just received and E. J. HALE & SON, Fayetteville Knitting Work, a Web of many

June 11.

E. J. HALE & SON.

Fire Insurance. WE refer our readers to the annual statement of the Ætna Insurance Company, of Hartford. This successful institution was incorporated by the Legislature of Connecticut in 1819, with a perpetual charter. Its capital is \$500,000, and its accumulations exceed \$800,000 more, making its entire assets over \$1,300,000, invested as detailed in the statement referred to. These years since its organization, (without a single change of its chief officer,) its business has been conducted with judgment and prudence. It has been thus far successful in an eminent degree, discharging, as we are informed, all its obligations by the payment of about ten million dollars for losses, without asking a day's delay in any instance. It has had but little litigation, notwith-standing the immense number of transactions made. In order to attain as much certainty as possible in such a business as insurance, it has been the practice of the Company, for several years, at great labor, carefully to classify and arrange their risks into about fifty distinct classes, so as to ascertain the amount insured on each class, the amount of premiums received thereon, and the amount of losses upon each. This classification, extending over a long period, and covering property to a very large amount, farnishes reliable data, and presents a sound, substantial basis of actual experience, upon which to conduct its business. Insurance is not a matter of luck or chance, as many suppose; its hazards are ascer-tainable, and its principles capable of being reduced to a system, the practical working and results of which are as certain as that of any other business. The Ætna Miss Melitrosis Works, Tetry Anectudes, Lives of the Queens of Scotland, by Agnes Strickland; Company, by adhering rigidly to its system, and placing Barnes' Notes on the Books of the New Testament; its business upon a healthy basis, has obtained the con-Literal Translations of the Classics;

To Cuba and Back, by Dana;

Instances upon a neatthy basis, has obtained the confidence of the community to an extent surpassed by no other Company in the U. States, and has increased its business and its income from year to year with a steady growth. One great source of its security is the wide distribution of six risks—a policy which it pursues with distribution of its risks—a poncy which it pursues with great strictness—limiting the amount to be covered in each locality. By this course it has passed, with com-parative impunity, through some of the most sweeping and destructive fires, which have swallowed up other
