PROSPECTUS OF THE CHURCH INTELLIGENCER.

THE undersigned proposes to publish in the city of Raleigh, in North Carolina, a weekly newspaper designed to advance the interests of the Episcopal Charles at the South, and to diffuse intelligence concerning its labors and its progress. In this enterprise, he has reason to hope for the approbation, and to some extent and washing.

Board can be had either at the Steward's Han or in the neighborhood at \$8 per month, exclusive of lights and washing.

For further information apply to the undersigned at sigued to advance the interests of the Episcopal Church the aid of the Bishops of Tennessee, Louisiana, Georgia, Alabama, Mississippi, Florida, South Carolina, North Carolina, Texas and the Missionary District of the South-West. In each of these dioceses he expects to have a resident contributor to the columns of his jour nal, who shall give information to its readers of an event of interest occurring in the diocese to which the

writer belongs.

The benefits of such a paper, if well conducted, will be acknowledged to be great, when it is recollected that in all these dioceses just enumerated, constituting in themselves a mighty and rapidly growing empire—there of the Market.

THE Subscriber desires through this medium to ackowledge the liberal patronage bestowed upon his House the past year—and as he has just creeted New Stables and Carriage Shed convenient to the House and to water he takes pleasure in saying to his patrons and the public generally, that he is still prepared to accommodate them with transient and prepared to accommodate them with transient and thereing are commonstratively obscure and producted subquently misunderstood, and there is no organ and no opportunity by which, publicly and effectually to refute such misrepresentations and correct such mistakes.

By means too of a newspaper in these dioceses con-

ducted in a religious spirit and on religious principles, the members of the church might be assisted not only

of many of them.

It is furthermore intended to enrich the columns of the paper with as many as possible of those treasures of thought and learning which the Periodical religious literature of our mother church is now so abundantly pouring forth—and to give occasional views of the state of religion and learning on the continent of Europe. But there is one subject closely connected with the highest welfare of the South to which it is designed that this paper shall give solicitous attention. It is the re-alization of the magnificent idea of the University of the South at Sewannee, and in order thereto the dis-semination of intelligence concerning it, and the issue of appeals in its behalf. Designed then as the contemplated paper is to effect objects so important and so beneficent, the undersigned confidently hopes to receive the active aid of his brethren of the clergy and laity in the Southern country. It is intended to give the paper the name of the Church Intelligences, and to fisue the first number, if possible, early in March, 1860.

Its terms will be two dollars and a half per annum,

payable in advance. Advertisements will be inserted standing advertisements.

The paper will be sent free to any clergyman who will forward the names and the subscription price of HENRY F. GREEN, at the usual rates, and a liberal discount made for Presbyter of the Diocese of N. C.

and we cordially recommend it to the clergy and laity of our dioceses, designing ourselves to make use of its Columns for the communication of intelligence to them.

The clergy and other friends of this enterprise are earnestly requested to interest themselves in procuring subscribers, and forwarding their lists to the

tion, as to be considered beyond all hope of recovery by the most eminent of the medical profession, and also by himself—a regular physician of twenty years practice—as a last resort, conceived the idea of ANALYZING THE BLOOD, and applying the subject of physiology to the more immediate connection, and effect of the state of the blood upon the health and system.
