PROSPECTUS OF THE CHURCH INTELLIGENCER.

THE undersigned proposes to publish in the city of Raleigh, in North Carolina, a weekly newspaper designed to advance the interests of the Episcopal Church at the South, and to diffuse intelligence concerning its labors and its progress. In this enterprise, he has reason to hope for the approbation, and to some extent the aid of the Bishops of Tennessee, Louisiana, Georgia, Alabama, Mississippi, Florida, South Carolina, North Carolina, Texas and the Missionary District of the South-West. In each of these dioceses he expects to have a resident contributor to the columns of his jour-South-West. In each of these dioceses he expects to have a resident contributor to the columns of his jourual, who shall give information to its readers of any event of interest occurring in the diocese to which the

vriter belongs. The benefits of such a paper, if well conducted, will be acknowledged to be great, when it is recollected that in all these dioceses just enumerated, constituting in resented in that region of country and still more frequently misunderstood, and there is no organ and no opportunity by which, publicly and effectually to refute such misrepresentations and correct such mistakes.

By means too of a newspaper in these dioceses conducted in a religious spirit and on religious principles, the members of the church might be assisted not only in the general improvement of their spiritual state, but especially in the performance of the peculiar duties im-posed on them by the constitution of society in the Southern country—duties which lie very near the hearts of many of them.

of many of them.

It is furthermore intended to enrich the columns of the paper with as many as possible of those treasures of thought and learning which the Periodical religious literature of our mother church is now so abundantly pouring forth—and to give occasional views of the state of religion and learning on the continent of Europe. But there is one subject closely connected with the highest welfare of the South to which it is designed that this paper shall give solicitous attention. It is the realization of the magnificent idea of the University of the South at Sewannee, and in order thereto the dissemination of intelligence concerning it, and the issue of appeals in its behalf. Designed then as the contemof appears in its benair. Designed then a so plated paper is to effect objects so important and so beneficent, the undersigned confidently hopes to receive the active aid of his brethren of the clergy and laity in the Southern country. It is intended to give the paper the name of the CHURCH INTELLIGENCER, and to issue the first number, if possible, early in March, 1860.
Its terms will be two dollars and a half per annum, payable in advance. Advertisements will be inserted at the usual rates, and a liberal discount made for

standing advertisements. The paper will be sent free to any clergyman who will forward the names and the ausscription price of ten subscribers. HENRY F. GREEN, Presbyter of the Diocese of N. C.

the most eminent of the medical profession, and also by himself—a regular physician of twenty years practice—as a last resort, conceived the idea of ANALYZING THE BLOOD, and applying the subject of physiology to the more immediate connection, and effect of the state of the blood upon the health and system. The result has been the production of this 'BLOOD FOOD,' we are prepared to plane all descriptions of Lumber and Scantling, which will be kept on hand, for sale either in the rough or dressed, as parties may desire.
