WE refer our readers to the advertisement of Nessrs. CHURCH & DUPONT, No. 409 Broadway, New York. The 'Blood Food,' is one of the greatest medicines of the age, and is rapidly driving out of the market all the quack nostrums of modern times. Its efficacy is so great, and its superiority so justly acknow-ledged, that it is found difficult to supply the immense and increasing demand for the article. Dr. Eaton's celebrated 'Infantile Cordial,' is a medicine prepared by a regular physician of eminence in his profession, and one who has devoted his life to the peculiar phases of Infantile diseases. It is no humbug, but a medicine which commends itself to those only who can appreciate it."—Apalachicola, Flor. Times.

Arrival Extraordinary .- Old Adams, the great California hunter, with one hundred and fifty living animals of his own capturing, including seventeen dancing and performing bears, has arrived from San Francisco on board the ship Golden Fleece. There are nineteen cages in all, varying in size, mostly ten feet long, four feet wide, and four feet high-Sampson, Lady Washington Which we offer exclusively to Wholesale Buyers, on and Fremont, being the largest of the Bruin or family, occupy separate cages; all the others, except the buffalo and elk, having two and some three of the large animals. Besides the seventeen performing bears, embracing ten different kinds, there are two California lions, two do. tigers, two do. cougars, two lynx, seven coyotes, one white H. & E. J. LILLY do. cougars, two lynx, seven coyotes, one white wolf, one ant eater, one sea lion, one sea leopard, two silver gray foxes, one full grown buffalo, two elks, two wild mountain goats, seventeen snakes, two large California condors, two do. vultures, five California moon-faced owls, three double-eared do. two Austrian ostriches, (7 feet high,) two white pelicans, two gray do., two large golden eagles, (very rare and beautiful,) two black Lower California eagles, two California American bald eagles, besides a great variety of other birds and animals. It is understood that P. T. Barnum has purchased an undivided half of this novel exhibition at a large figure, and that after a short stay in New York they will visit other cities, and also be exhibited

> Consumption of Foreign Spirits .- The importation of foreign distilled spirits into the United States in the year 1859 was very large, amounting to \$5,309,680, or nearly a million and a half more than in 1858. Of this amount \$3,262,058 was brandy, the largest amount of this article ever received in one year. The total consumption of all imported beverages during last year was as follows \$5,309,680

Inhuman Law.-Soon after the conquest of Constantinople by Mahomet II., a law was promulgated declaring that all male children born into any of the Imperial families should be put to death immediately after birth, the object being to THE subscribers are receiving a large Stock of Goods secure the nation from trouble touching the suc-in their line, consisting of cession to the throne. This law has lately been cession to the throne. This law has lately been carried into effect in the case of a male child born to the wife of Mahmond Baja, daughter of Abdul-Mejid, the present Sultan of Turkey. The child was strangled a few hours after its birth, despite the tears and supplications of its mother, and the protestations of its father. The inhumanity of the affair has been a good deal discussed in Turkey, and hopes are entertained that a repeal of the law will be the ultimate result.

The Copper Mines of Tennessee .- Remarking upon the operations of several mining companies in Eastern Tennessee, one of which is reported to have produced copper to the value of \$25,000 during the last seven months of 1859, the Nash-

ville Union and American says: "This 'copper district' lies in Polk county, in the southeastern part of this State, bordering upon the States of Georgia and North Carolina, and in the heart of the Cherokee Nation, and, from the facts brought to light during the past few years, there appears no reason why these mines should not equal the Burra Burra mines of Aus tralia, which have afforded such immense yields.'

Coasumption of Ice in New York .- The quantity of ice consumed in the cities of New York and Brooklyn, amounts to the enormous aggregate of 200,000 tons yearly. To insure this supply requires the gross bulk of nearly 300,000 tons, as in transportation and delivery one-third liquefies. To obtain this immense mass, nearly 300,000 men are employed during the greater part of the winter months to cut and store ice.

The New York correspondence of the Schoharie Republican says: "I am led to believe that the swindlers in jewelry are not confined to one quarter of the city, but that even in the most fashionable Broadway shops "all is not gold that glitters." The practice of adulterating the precious metals is carried to such an extent that ninetenths of all the so-called "gold ornaments," bracelets, pins, rings, chains, &c., worn by both sexes, may be fairly estimated to contain, on an average, not over 20 per cent of real gold. In one case a heavy gold fob-chain, bought in Broadway at a cost of eighty dollars, deposited at the Assay Office for melting, was upon assay found to contain just eight dollars' worth of gold, the balance of weight being made up of an alloy of copper and zine. Large lots of gold ornaments. estimated by their owners at a value of sixteen dollars to the ounce, not unfrequently return a twentieth, and soldom over a tenth of their supposed value.

Culture of Cotton in Utah .- The Mormons, it is said, are turning attention to the culture of cotton, and in Washington county, three hundred miles south of Salt Lake City, about five tons were raised the past year. One person raised two hundred pounds of ginned cotton on one-fourth of an acre; and it is stated that enterprising citizens are sending to the States for cotton gins to work up the cotton so as to bring it into market.

'Gentlemen, if I am elected to this office I will represent my constituents as the sea represents the earth, or as the night contrasts with the day. I will unrivet human society, clean all the parts, all abuse, purge out all corruption, and get through new cheese.' He was elected.

There is living in Massachusetts a stout old gentleman, one Capt. Solomon Hart, who is described as weighing nearly 200 pounds, a strict temperance man and a true Republican, who is the patriarchal head of a tribe of Harts, big and little, numbering 12 children, 49 grandchildren, 75 great-grandchildren, and one youngster of the
