A DISAPPOINTMMENT.-People here are so familiar with the powers of D. K. McRae, Esq., as a political part victory, whilst the friends of the Union are speaker, that there was a feeling of regret, even among those who do not sympathise with his views, at his inability to make his expected speech on Saturday last. A violent cold and sore throat prevented his coming.

CENSUS OF BLADEN .- In our last, we intended to com pare the returns for 1850 with the present; but the comparison was omitted. The following figures show the difference of population at the two periods:

GREAT YIELD OF CORN .- The Wilmington Journal has a certificate that an acre of land on the plantation of E. D. Hall, Esq., in Holly Shelter District, New

Hanover county, yielded 1223 bushels of corn. We are glad that Holly Shelter District yields some hing good. It has heretofore been noted for a prolific crop of Democrate

tter in the Winston Sentinel of the 2d inst., and also n pamphlet form. Such a publication, just on the eve of the election, of a batch of false charges, is a discreditable trick even for one who has Gov. Reid's reputation for cunning. He aims nearly the whole letter against But in the single paragraph devoted to Mr. Bell he perpetrates such calumnies as the following:-

"Although living in a slave State Mr. Bell has gene lly voted against the South upon questions affecting he institution of slavery."

This is a shameful calumny, of which Gov. Reid ought to be ashamed. It is not true, and as Gov. Reid makes no attempt to prove that it is true, we are at liberty to infer that he knew that he could not prove it.

"There is but little excitement in this section about the election. There was a Mass Meeting advertised by he Breckinridge party in Averasboro' on the 1st inst. I do not think there were more than 100 present, and of that number not one to mount the stump and cry about for the harmonious Democracy of Harnett, though there were several present who figure pretty largely when there is a nomination to make for the Legislature" THE Spoils .- A VERY SMALL BONE TO QUARREL

OVER .- We noticed the small matter of Gubernatorial spite towards the Standard, in taking from it the usual publication of the advertisement of the School Distribution, (worth \$12, we believe.) The act is the more remarkable in view of the fact that the Editor of the Standard was formerly a member of the Literary Board. is a Trustee of the University, and has always been so much interested in the Common School system as to have been unanimously called, last year, upon the most respectable body the Educational Convention. But it seems that the Newbern Progress and the Goldsboro' Rough Notes have also been slighted by the Gov'r. The following is from the Rough Notes-and they are rough indeed:-

"Government l'atronage-Advertising of the Fall Distribution of the School Fund—Growling over the Bons.— The advertisement of the Fall Distribution of the Common School Fund has been ordered into and appeared in the columns of several of our contemporaries, and the balance of them, who expected it, are growling like bears with sore heads. Pennington of the Progress charges boldly and unequivocally that the Governor had promised it to him, even without solicitation. Well. Pennington and the Governor may settle that between them; but if it is so, and, until contradicted, we are bound to believe it, it places Governor Ellis in no very enviable position Indeed if his Excellency went half as far in his syco-phantic promises, as the editor of the Progress repre-sents him to have gone, he was evidently, not simply stooping beneath, but actually stepping entirely beyond

his official dignity. Let that pass.
"Then Holden, of the Standard, is ignored in this matter, and the advertisement given to the Press. That's ot our business. Holden can fight his own battles and defend his own cause. We incurred the displeasure of he "Court" for our unfaltering adherence to the cause of Holden, in 1858, when he was tricked and cheated ut of the Office which Governor Ellis now fills, by men whom, it appears, even Mr. Holden is now willing to romote to office; and, for some cause, unknown to us, we have since fallen under Holden's displeasure, and so the world wags. We are perfectly willing that the Press and every other paper in the State-Douglas, Bell and Breckinridge-should have the advertisement, but we heartily condemn the petty vindictiveness, by what-ever motives prompted, which withheld it from the Standard, or the State policy which refused it to our cotemporary of the Tribune, or the contemptible churlishess which first hesitated to bestow it on ourself andthen didn't do it. But, neither the Governor nor the iterary Board had promised it to us; and though we have bled pretty freely for the democracy, and even for devernor Ellis, we had sinned in 1858, and expected to

e punished. But now the Governor, the "Court," and all the disributors of State pap, may learn, now and forever, that as we depend solely on the Democratic masses, for our support, and publish a paper to sustain pure Democratic rinciples, we can live without them, and are resolved for passing by the Goldsboro' papers is patent, and it is too petty to obtain an abiding place, in the heart of the weakest magnanimity, even for a moment. That's ur sentiments.'

Our esteemed cotemporary of the Favetteville Observer indignantly questions the truth of an assertion made by us a few weeks ago to the effect that some of the Bell speakers objected to Mr. Breckinridge on the round that he was a poor man. We have the author ity of the Asheville News for the statement, and as that urnal is one of the most reliable on our exchange list, we see no reason why we should refuse credence to it. storm of indignation against them, that they would be unable to quell, but that it has been a part of their electioneering tactics in other places, we do not question.

Winston Section.

Wherever the silly story originated, any man gifted with a thimble full of brains ought to know that it is not true. No public speaker has ever proved himself such a fool, to say nothing else, as to object to any candidate for office in this country on the ground that he is poor.

The Sentinel has a variety of other equally mendacious stories, which also appear as editorial, but which throughout the country. It is the joy of a faction we hope, for its own sake, were "hooked" from the over the success of its allies—ay, the joy of a News or some other such source.

"Surr ...nded by powerful States," South Carolina can act fearlessly. If there is any fighting to do, those powerful States will have to do it! Isn't that a noble thought! And South Carolina avows her determination to act alone, without consulting those "powerful States," because, if consulted, she knows they would not consent to go with her, but she feels sure that they will be forced to unite with her, against their will, after she has seceded! HOW HAVE THEY DISCHARGED THEIR TRUSTS There is one crushing rejoinder with which the Union men of the country may meet and annihilate the assumed right of the Democratic party to challenge every other party which disputes its possession of power as unsound on the subject of slavery, and consequently as incompetent to conduct the government with safety and success. It is this: How have they discharged the trust which has been committed to their Lands They have had, with few exceptions, the Presi dents and Vice Presidents, majorities in both Houses of Congress and in State Legislatures, the distribution of official patronage and the moulding of public opinion in every shape and form.
