Dec'r 21, 1860. This wheel has many advantages over all other w wheels. It is a packed wheel, so no water can esc between the top of the wheel and bottom of the consequently no water does escape only what per labor. It is so constructed that the pressure of Gudgeon on the ink with comparison of other whee very slight, owing to a cone attached to the shaft top of the case, counter-balancing the weight of wit resting on the wheel. In this wheel the water does act by its weight or momentum, but by its cent force and the reaction that is produced by the flo of the water on the ends of the buckets immediately hind orifices of discharge.
