WEST POINT SOLDIERS.

The following particulars of the history of prom inent officers of the Confederate and United States, graduates at the Military Academy at West Point, are believed to be reliable. Up to 1850, the facts stated are taken from the Register of that institution, compiled in that year. A short explanation will enable the reader to understand the statements.

Each cadet after graduating is entitled to the ank of 2d Lieutenant, his commission bearing date according to his proficiency in his studies, in drill, &c. The discipline and standard of scholarship are very high, as may be inferred from the fact that, on an average, about two-thirds of the cadets who enter the Academy are dropped in the four years' course, from ill health, bad conduct, laziness or inability to keep pace with their more able classmates, leaving about one-third only to finish their course and attain the rank of 2d Lieutenant in the regular army. A graduate attaining high distinction in his class, must possess not only fine mental endowments, but physical dexterity and vigor, and habits of punctuality The numbers in the subjoined compilation denote the respective class rank -- No. 1 being highest, No. 2 next, and so on; the first five being regarded as peculiarly distinguished, while those having lower numbers must be highly accomplished officers -much more thoroughly educated than are usually the graduates of other Colleges. The class rank was adopted in 1818. It is interesting to notice in what eases "age has performed the prom-

ises of youth.' CLASS OF 1815. Samuel Cooper, of N. Y., entered artillery; Lt Colonel for gallant conduct in Mexico; compiler
