There is nothing "false if not malignant" in this. It sounds like a dispatch from Jackson, Mississippi, but there is no harm it. Like its predecessor, and, indeed, the whole series of the good Munchausen's stories, it is a simple innocuous exaggeration, whose very excess deprives it of the power of iniury. No one believes it, and therefore no one is hurt by it.

The same may be said of the thousand and one fabulous reports of correspondents and telegramatists with which the country has been entertained since the war broke out. So, the other day, when the inventive gentleman, who appears to be as much at home on the Central train railroad as if he were the conductor or a government detective enjoying the privi-lege of a universal free ticket, informed us that : part of Lee's army had captured seven hundre yankee cavalry, we were at no loss to identify the reliable narrator or to estimate his fiction at its true value.

In Virginia, the spirit of Munchausen appears to be pretty well dissemminated and to have achieved a fair degree of success in its mission of tit HAVING established my Depots on the W. C. & R. R.
