We are assured that well tried and competent teachers have charge of the various departments and that the progress of the pupils, thus far, has been most satisfactory to both teachers and parents. To those who are determined to send their children abroad to school it is unnecessary for us to say anything. There are good schools and colleges nearly all wer the State, as good as can be found in any State in the Union, but still many of our people despise the idea of educating their children at ome. > AN IMPORTANT ITEM.-Several car loads of reight from Boston and New York bound for Tennessee, Alabama, Mississippi and Kentucky, left here yesterday morning per the Norfolk and

In a short time. as soon as the stockholders in the " City " Company gets things fixed, we shall expect to hear of similar shipments from "Morehead City" across the Mountains to the great valley beyond.

> SOUTH CAROLINA.—It seems that the people of South Carolina have determined upon being represented in the Charleston Convention, and have called a State Convention to meet at Columbia to appoint delegates for that purpose. This is sen sible. We never have been able to see why that State should hold herself aloof and disdain any participation in federal affairs as she has.

ANOTHER UNION DEMONSTRATION .-- The Charleston Mercury of the 9th instant says: Slave Stolen .- A gentleman of this city, while on a recent trip to the North, had a negro stolen from him by the abolitionists.

CHIVALRY .- We see it stated that the Charleston hotel keepers have resolved to fix the price of board at \$5 per day during the sitting of the National Democratic Convention.

We call this another Union demonstration.

" Does Charleston Import ? "

In answer to this question the Murcury says: This question looks idle to us in Charleston who read almost every day the consignees lists of ships arriving from Liverpool, Havre, Bremen, vict him of circulating them. On arriving at Havana, &c., but, to many at a distance, it is High Point, the books were left in charge of the neither idle nor impertinent. Charleston imports salt, hard and hollow ware, earthen ware, crockery and glass ware, agriculturial impliments, guns, tools, bottled beer, prints and stuffs for the wear of both sexes, from Liverpool; from Havre and watched the post office to see if any letters came Bordeaux, wines, liquors, preserved fruits, soaps, oils, and such niceties and elegancies, besides LUMBER, & M.
