The President's Message.

We publish to-day, the Message of President Davis and accompanying documents which were delivered to the Confederate Congress on its assembling in Richmond on Saturday last. This, like all his State papers, is plain, concise ship, manly dignity and christian fortitude and | authority of its commission. moderation.

He exhibits the utmost confidence in the accomplishment of the great purposes for which we are now contending. While he would rejoice at a speedy termina ion of histilities for humanity's : ake, he regards it as a matter of secondary consideration to the South whether the war shall last one, two or five years; sucerish and ruin the Northern government.

He is more than gratified with the liberality displayed by Southern planters in the purchase of Confederate bonds, the provision loan, &c., and only deems it necessary to hint at the fact that an increase of the army is necessary to enable him to meet and successfully repell Lincoln's half million.
