MIDNIGHT DISPATCHES.

Grant Visited by his Friends and Congratulated.

WASHINGTON, NOV. 6.

Those who have conversed with Pres ident Grant and his more intimate friends in Washington, arriving the past month will remember that they uniformly predicted such a result of the Presidential election as has just occurred. They seemed to possess data from gentlemen in different parts of the country which justified them in the hope and prospects now fully realized. The President to day received a call of congratulation in addition to numerous telegrams of greeting and also announce ing the result. He expressed thanks to his guests

for these manifestations and friendship, and apart from the political issues involved, he was gratified that the people had vindicated his private character, which had been assailed during the canvass. That there will be at least one change in the Cabinet at the commencement of the next Presidential term there is no question. It is known that Secretary Fish has repeatedly expressed his wish to be relieved from the position of Secretary of State; this desire will be gratified at the end of the present term. There is no probability of a change of Attorney General. Judge Williams recently remarked to some friends that although he could have been elected Senator from Oregon, he declined being a candidate in order that he might remain in his present office. There is good reason for stating that any remark with regard to the other members of the Cabinet, would be mere

speculation, but it may be said that the commission of all of them will expire at the close of the present term, thus necessitating new commissions to those serving as Cabinet officers, after the 4th of March next. It is too early to anti cipate the President's action in the future concerning reforms and measures
