RECESS OF THE LEGISLATURE -Both Houses of the Legislature have agreed to take a recess from the 18th inst. to the 15th of January next. We had hoped that the Legislators would find it consistent with the general good of the public to get through with its business by the first of January, if for no other reason than to prevent Mr. Brogden from presiding over the Senate this session, as he will necessarily have to do after the first of January. But, in justice to the Legislators, we are free to admit that it would be utterly imposs ible for them to get through with all the important legislation which is to some before this session by the first of Janussy, even by the most assiduous attention to business, without too hasty consideration of measures which are of vital importance to the people of the State, us the various committees have

not yet matured the many measures which are to be acted upon. We trust, however, that the time between this and the taking of the re ember will return to his post in January nerved to he duty before him as the interests of the people of the State will he best served by prompt and positive action, and the Legislature will reflect credit upon itself by losing no time in its deliberation.
