THE FRENCH ASSEMBLY. The disorder in the French Assembly

has not yet been allayed. On yesterday, the Assembly proceeded to the consideration of the Lyon's municipality bill-which gave rise to the recent disturbance in that body.

M. Grevy has resigned the Presidency, and Louis Martel, the leader of the Right Centre, is a prominent candidate for the position.

Vallada, Depuly from Lisbon, declared that the crown was beset with danger from latent revolutionary elements, but this was denied by the President of the Ministry, who replied that the Assembly could trust the loyalty of the country.

In the issue of Wednesday, a cartoon "The Ride to Ruin," represents the tyranny of Railroad monopolies. Railroad engines, with faces of monsters and frightful beasts, are represented as rushing pell-mell over Congressional honor mortgage on tarms, United States mails, national bankruptcy, &c., &c., while the public press, standing on a watch tower, bearing a banner with the device DANGER, struggles valiantly against the crushing power of the monopoly which is bearing down everything in its progress. With the mottoes of "Private Enterprise" and "Might is Right" flaunting from the flags waving above the engines, the locomotives, with their Lideous and trightful miens, still press on-trampling down all opposition, scattering ruin and desolation in their track, and insatiate, heartless, inexorable, devouring everything in their reach.

In an editorial on "Corporate Conscience," the Graphic refers to this cartoon as follows:

There will be only a limited amount of this Fertilizer manufactured especially for our supply and trade, and we desire that the Cotton Planters in the section of country tributary to this market, should FIRST BE SUPPLIED, with what they may need. After supplying the needs of the Planters, in the region named, the remainder, if any over, will go to fill the orders of the trade a, large, throughout the wide district of territory assigned to us.

Some of the ingredients for this Fertilizer, the "Southern Fertilizing Company" had to import from Germany at a great cost, and this stock had to be laid in and prepared beforehand. The Company, therefore, required us to inform them at the beginning of the season, the probable amount our trade would require, which we did accordingly and we feel confident from the numerous inquiries and large orders received that the demand will far exceed our stock, or ability to supply, and therefore we bespeak our Planter friends to send in their orders at once, (that we may book them, and thereby give them the preference,)-and then, they can order the Fertilizer to be shipped to them whenever they need it.
