THE VIENNA COMMISSIONERS.

The New York papers are discussing the alleged corruption in relation to purchasing commissions to Vienna.

Reports are rife that several gentlemen who have received the appointment as honorary commissioners to the Vienna exposition, paid pretty snug sums for the honor.

The position is in such great demand because it gives the appointee peculiar privileges during the exposition.

Each honorary commissioner will be furnished with elegant quarters free of expense and will have free admission to the various departments in the exhibition rooms.

The appointment will constitute a passport to the society of the learned and great—the literati and the scientific men of other nations who are to represent their respective countries at Vienna.

It is now stated that there is to be an investigation into the charges that money has been used by several individuals who have been appointed by the Commissioner of the United States, as delegates from this country.

The charges are sustained, it will show the demoralizing effects of the evil example of Congress.

When men occupying the high and responsible positions of Senators and Representatives in the Congress are proved to be guilty of the most astounding corruption and bribery, are allowed to retain their seats and are endorsed and applauded by their constituents, need we be surprised at similar exhibitions elsewhere than in the halls of Congress?

The Vienna Commissioners who have bought their way to the exposition are not guilty of any greater crime than that committed by Carpenter, one of the United Senators from South Carolina, who bought his place with negro votes, or by Clayton of Arkansas, who gave money and offices to the men who made him United States Senator, or by Pomeroy and others who might be named whose rascality is known to the whole country.

AN IMPORTANT CONVENTION. The State Board of Education has issued a circular inviting the friends of education to meet in this city, on the 9th of July, for the purpose of devising ways and means to educate the masses of poor children who are growing up in idleness.

We think this is a good move—for it no benefit comes of it, certainly no harm can be done. If it will not stop the progress of the State on the down grade to ignorance, it will do nothing to accelerate the retrogressive movement.

The public school system which has been adopted in North Carolina since the close of the war has done comparatively nothing for the cause of general education.

There must be a change—or the State will relapse more deeply in the gloom of mental darkness. The neglect of educating the children of the present generation will produce evils for which we will be held responsible. Pauperism, immorality, crime, and all the concomitants of vice and ignorance will be the consequences of this dereliction of duty on our part.

The proposed Convention in July should be attended by the friends of education from every section of North Carolina. Our people seem to take but little interest in this matter. They should be awakened from their unaccountable apathy and be made to feel its importance.

ONE-SIDED. The statements sent out by the Radical officials in Louisiana concerning the troubles in Grant parish, are altogether *ex parte*. They are made up by the United States Marshals and Deputy Marshals, who are the mere tools and minions of Durell and Kellogg. The outrages at Colfax owe their origin to the official misconduct of Durell and his subordinates, and it is very natural that they should endeavor to lay the blame upon others and to shield themselves from the awful consequences of their responsibility in the premises.

But for the misconduct and officious intermeddling of Durell, Pinchback and Kellogg, the disturbances at Colfax would have never taken place. These individuals, together with the President of the United States who sustains them in their course, are primarily liable for the condition of affairs in Louisiana, and they will be punished at the bar of public opinion for all the bloodshed that may flow from the anarchy and bad feeling now prevailing in that State.

The public should put no faith in the one-sided statements published by the Radical officials at New Orleans, concerning the Louisiana disorders.

In Pernambuco, Brazil, two old ladies living in the same house died recently. One was 103 years of age, and by an only daughter could number sixty-two descendants. The other was 108 years of age, married at twenty-five years, in 1790, and has had fifty-six grand-children through five children, the youngest of the great-grandchildren being fifty-six years old.

TOO LIGHT.

It were to judge from the tenor of our exchanges the verdict in the case of Capt. Williams, the commander of the Atlantic, suspending him for two years from his position, is too light a penalty in the estimation of the public for his grave neglect of duty—a neglect which sent hundreds of human beings to untimely graves.

Soon after the disaster occurred, it was seriously charged that Capt. Williams would be arrested and tried for murder; but it seems two years suspension from service, is the extent of the punishment which is to be inflicted. At the end of the two years, he is to be taken on duty again and entrusted with the lives of the passengers who may patronize the White Star Line.

We take it, however, that prudent men will not be anxious to commit themselves to the keeping of an officer who has shown himself either unskillful of his duty or grossly incompetent for his position.

EXCITEMENT AMONG THE INDIANS.

The murder of Gen. Canby and the stringent measures taken by the Government to avenge his death by making a fierce war against the Modocs, have greatly excited the neighboring tribes of Indians, who are preparing for war against the United States.

The Indians on the Columbia, Snake and Lewis Rivers in Oregon, are having war dances preparatory to hostile movements, and from Arkansas City, Missouri, comes the report that Indians near the Southern line of that State have recently committed nine murders.

AN INTERESTING SKETCH. We publish to-day an interesting scrap of history, from the pen of Col. John H. Wheeler, author of Wheeler's History of North Carolina, giving the particulars of the military movements against the Indians in Western North Carolina in 1776.

Col. Wheeler's article will be read with pleasure by North Carolinians who take an interest in the revolutionary history of the State.

MADRID—KING OF THE PEOPLE THREATENED. Our dispatches represent the City of Madrid in great excitement.

Margall has been appointed to fill temporarily the position recently occupied by Figueras. This seems to have caused great dissatisfaction in Madrid, and a bitter feeling prevails. There is imminent danger that this feeling will produce an uprising of the citizens.

How TO BEGIN AN ARTICLE FOR PUBLICATION.—A great many people are apt to hit upon happy ideas in society, and when they have done so, they are apt to publish them, and most of these good folks know how hard it is to begin an article satisfactorily. A word to them: Commence with your very finest writing and most beautifully-rounded sentences.

Introduce your subject in your most elaborate style; be pectical, rhetorical, and didactic, as your mode may be, and when you think fit, gradually drop into the discussion of the subject matter. When the article is finished, begin at the opening sentence, and read it until you find you have commenced to say something to the point. Stop at this place; strike out everything before it, and let your article begin just there. You will then probably find that it opens well, and that by collecting all your labored composition in one place where it can be readily stricken out you will have saved yourself all the trouble that would have been necessary had it been scattered through the article—but never write on both sides of the sheet. Frank R. Stockton, in Scribner's for May.

THE SAD FATE OF AN AUTHOR.—Foley Hall, the author of "Ever of Thee I'm Fondly Dreaming," was a gentleman of wealth and great intellectual endowment. Admired and petted, he led a wild, helpless life, in which his wealth melted away, until he had not wherewithal to buy his daily bread. The woman he had loved discarded him. In the deepest distress he composed this charming song. A London publisher gave him one hundred dollars for it—a mere pittance for such a spendthrift. He wrote other successful songs, but in a moment of weakness, depressed with poverty, he forged the name of his publisher; and, notwithstanding most strenuous efforts in his behalf made by his friends, in which the publisher joined, Foley Hall was thrown into Newgate prison, where he died, broken-hearted, before his trial came on.

BRECHER ON SOUTH CAROLINA.—Henry Ward Beecher in a characteristic sermon at Plymouth Church, Sunday, drew on South Carolina for an illustration. He said that he did not know on earth a more pitiable sight than South Carolina. It was at one time the richest and proudest of the States. It inaugurated those ideas which led to the disturbances of the war and the cleansing of the continent. The people of South Carolina had risked and sacrificed everything for their principles; they had seen their children laid in the grave and their households reduced to beggary, and yet, in the plenitude of their sorrow, they would take back no particle of their faith in the cause. Though in a bad cause, they had shown a heroism it would be well to pattern and admire.

SUICIDE OF A NAVAL OFFICER.—Lieut. E. Dennison, of the United States steamer Saranac, son of ex-Postmaster General Dennison, shot himself in the head Saturday in San Francisco, and was immediately killed. Domestic difficulties constitute the causes given for the suicide. His wife is in San Francisco and had sent her husband a note, saying she would never live with him and had determined to obtain a divorce.

Edwin Booth, the great actor, is booked for Norfolk, Va., on the second of May.

In the "Literary Life of William Harness," that genial writer tells of a tutor to Hopeless, the author of "Anastatius," whom he one day found pacing up and down the room in great agitation of mind. "Is there anything the matter?" inquired Mr. Harness, anxiously. "The matter," he replied. "I should think there was! Three of the worst things that can possibly happen to a man. I'm in love, I'm in debt, and I've doubts about the doctrine of the Trinity."

PRESBYTERIAN GENERAL ASSEMBLY.—The meeting of the Presbyterian General Assembly, soon to take place in Baltimore, promises to be an occasion of great interest. The Assembly is composed of some six hundred ministers and ruling elders of the church, coming from all parts of the country. Besides these, during the session there will be present in the city a great many ministers and others who will go there to witness the deliberations of the body.

A Rhode Island man has invented a torpedo, in the shape of a grain of corn, which is designed for the beguilement of crows. As soon as the bird takes hold of it, it explodes and blows the top of his head off. This affords a cheap and innocent recreation for the crew, and at the same time does away with a grievous evil.

Some people think happiness is in a ball-room or a theatre, some think it is in Europe, and some in Heaven. But those who cannot find their happiness at home are not likely to find it elsewhere.

Nearly a million bushels of oysters were spoiled in the shell during the recent heavy frost in Maryland, for the reason that several fleets of oyster boats were ice-bound in the rivers down the Bay.

The Alexandria (Louisiana) Democrat says that Hodnot, the leader of the McEnery party in the attack on the court house in Grant parish, La., on Easter Sunday, and who was wounded, died on the 18th at Alexandria, in that State.

In Paris, a burlesque history of Napoleon III, illustrated with numerous plain and colored illustrations, is to be published in one hundred numbers at ten cents each.

A Russian squadron, composed of several fine frigates, is expected at Bordeaux. This squadron will visit the principal ports on the coast, and will be at the disposal of the Empress of Russia during her stay in Italy.

CENTURY WHISKY

Persons in delicate health, often find it difficult to obtain a Pure Stimulant when prescribed by their Physicians, and it is for Druggists and other first-class trade that the

CENTURY WHISKY is particularly designed. It is differently prepared from

ANY WHISKY IN MARKET, and is driving many old brands out of market, because the "principle upon which it is made is superior."

CENTURY WHISKIES is that there is an entire absence of Headaches, and other disagreeable after-effects so often experienced in the use of other brands.
