"The late Legislature appropriated \$5,000 for a building for the use of colored deaf and dumb and blind children. The Raleigh News states that the work has been commenced by the Committee ture meets in the Fall, it will be called upon to make up the deficiency, which we hope it will not do."

In our local columns, in giving a description of the plans of the building, it was stated that in carrying out the designs of the Board of Directors, it was thought the appropriation of five thousand dollars will be somewhat exceeded It was also stated that in consequence of the small appropriation it was agreed not to enter into any contract for painting at present.

We agree with the Democrat that the Directors cannot legally go beyond the amount specified by the law.

The sum of five thousand dollars is doubtless inadequate to carry out the plans of the Directors; but they should build such a structure only as that amount will pay for, and then if they desire farther improvements hereafter, they must rely upon the Legislature for additional appropriations.

If the Legislature appropriates five thousand or five hundred dollars for any public building, no set of men, except at their private expense, have any right to exceed that sum by the erec-Legislature.

If five thousand dollars will whose duty it is to contract for the jeb, they have no option in the premises, and will not be justified in going beyoud the limit prescribed by the Legislature.

It is not our purpose to reflect in any manner upon the good faith or honesty tioned near Wilmington, in this State, of purpose of the gentlemen who have this matter in charge. They are, in all probability, actuated by philantropic motives, and are desirous of erecting a commedieus and suitable building for the unfortunate class of persons for whose benefit the appropriation was intended. But we tell them if they go beyond the sum of five thousand dollars, they do so at their own personal risk but we have the pleasure of publishing and expense, without any prospect of them this morning. having the excess refunded to them by the Legislature.

.. It ther exceed the appropriation this. priate a larger sum than that body at. its last session thought it their duty to do.

We do not believe the General Assembly will be thus forced into increasing the appropriation in this manner, and we therefore warn the Directors that if refund to them the excess of the appro- 5,800. priation or pay a dollar more than the sum specified in the Act, they will depend upon a broken reed, in our opin-

It is unlawful for the Directors to contract for any other than a five thousand dollar building. However much a better building may be needed we do not presume to say. That is a question with which the Directors have nothing to do in making the contract. It is not to the point for them to say the Legislature has not appropriated enough for the purpose of erecting a respectable building. The Legislature has instructed the Directors to use five thousand dollars only, and it a larger sum is used, it is done at the individu al risk of the Directors themselves.

It is a dangerous precedent to setthis transcending authority conferred by the Legislature; and we feel it our duty to thus speak plainly on the subject, as we believe the General Assembly when it meet next winter will refuse to endorse the action of the Directors if they have contracted to pay more for the building than was appropriated by

We notice that the Savannah, Augusta and New Orleans papers are very enthusiastic in their encomiums of Miss Logan, and the kind manner in which she has been received at the South must be quite flattering to her leelings and THE WILLIAMS COTTON SEED.
